Mexican American Literature:

We are Chicanos Philip D. Ortego y Gasca, 1973 *When We Arrive*, 2003 Most readers and critics view Mexican American writing as a subset of American literature or at best as a stream running parallel to the main literary current Jos Aranda now reexamines American literary history from the perspective of Chicano a studies to show that Mexican Americans have had a key role in the literary output of the United States for one hundred fifty years In this bold new look at the American canon Aranda weaves the threads of Mexican American literature into the broader tapestry of Anglo American writing especially its Puritan origins by pointing out common ties that bind the two traditions narratives of persecution of immigration and of communal crises alongside chronicles of the promise of America Examining texts ranging from Mar a Amparo Ruiz de Burton s 1872 critique of the Civil War *Who Would Have Thought It* through the contemporary autobiographies of Richard Rodriguez and Cherr e Moraga he surveys Mexican American history politics and literature locating his analyses within the context of Chicano a cultural criticism of the last four decades *When We Arrive* integrates Early American Studies and Chicano a Studies into a comparative cultural framework by using the Puritan connection to shed new light on dominant images of Chicano a narrative such as Aztl n and the borderlands Aranda explores the influence of a nationalized Puritan ethos on nineteenth and twentieth century writers of Mexican descent particularly upon constructions of ethnic identity and aesthetic values He then frames the rise of contemporary Chicano a literature within a critical body of work produced from the 1930s through the 1950s one that combines a Puritan myth of origins with a literary history in which American literature is heralded as the product and producer of social and political dissent Aranda s work is a virtual sourcebook of historical figures texts and ideas that revitalizes both Chicano a studies and American literary history By showing how a comparative study of two genres can produce a more integrated literary history for the United States *When We Arrive* enables critics and readers alike to see Mexican American literature as part of a broader tradition and establishes for its writers a more deserving place in the American literary imagination Mexican American Literature Elizabeth Jacobs, 2006-04-18 Presenting an up to date critical perspective as well as a cultural political and historical context this book is an excellent introduction to Mexican American literature affording readers the major novels drama and poetry This volume presents fresh and original readings of major works and with its historiographic and cultural analyses impressively delivers key information to the reader *The Places of Modernity in Early Mexican American Literature, 1848-1948* José F. Aranda Jr., 2022-02 2023 Choice Outstanding Academic Title In *The Places of Modernity in Early Mexican American Literature 1848 1948* Jos F Aranda Jr describes the first one hundred years of Mexican American literature He argues for the importance of interrogating the concept of modernity in light of what has emerged as a canon of earlier pre 1968 Mexican American literature In order to understand modernity for diverse communities of Mexican Americans he contends one must see it as an apprehension both symbolic and material of one settler colonial world order giving way to another more powerful colonialist

but imperial vision of North America Letters folklore print culture and literary production demonstrate how a new Anglo American political imaginary revised and realigned centuries old discourses on race gender class religion citizenship power and sovereignty The modern Aranda argues makes itself visible in cultural productions being foisted on a conquered people who were themselves beneficiaries of a notion of the modern that began in 1492 For Mexican Americans modernity is less about any particular angst over global imperial designs or cultures of capitalism and more about becoming the subordinates of a nation building project that ushers the United States into the twentieth century

Writing the Goodlife Priscilla Solis Ybarra, 2016-03-24 The book looks to long established traditions of environmentalist thought alive in Mexican American literary history over the last 150 years Provided by publisher

Chicano Nations Marissa K. López, 2011 Chicano Nations argues that the trans nationalism that is central to Chicano identity originated in the global postcolonial moment at the turn of the nineteenth century rather than as an effect of contemporary economic conditions which began in the mid nineteenth century and primarily affected the labouring classes The Spanish empire then began to implode and colonists in the new world debated the national contours of the viceroyalties This is where Marissa K Lopez locates the origins of Chicano literature which is now and always has been post national encompassing the wealthy the poor the white and the mestizo Tracing the long history of Chicano literature and the diversity of subject positions it encompasses Chicano Nations explores the shifting literary forms authors have used to write the nation from the nineteenth to the twenty first centuries Lopez argues that while national and global tensions lie at the historical heart of Chicana o narratives of the nation there should be alternative ways to imagine the significance of Chicano literature other than as a reflection of national identity In a nuanced analysis the book provides a way to think of early writers as a meaningful part of Chicano literary history and in looking at the nation rather than the particularities of identity as that which connects Chicano literature over time it engages the emerging hemispheric scholarship on U S literature

Border Renaissance John Morán González, 2010-01-01 The Texas Centennial of 1936 commemorated by statewide celebrations of independence from Mexico proved to be a powerful catalyst for the formation of a distinctly Mexican American identity Confronted by a media frenzy that vilified Meskins as the antithesis of Texan liberty Mexican Americans created literary responses that critiqued these racialized representations while forging a new bilingual bicultural community within the United States The development of a modern Tejana identity controversies surrounding bicultural nationalism and other conflictual aspects of the transformation from mexicano to Mexican American are explored in this study Capturing this fascinating aesthetic and political rebirth Border Renaissance presents innovative readings of important novels by Mar a Elena Zamora O Shea Am rico Paredes and Jovita Gonz lez In addition the previously overlooked literary texts by members of the League of United Latin American Citizens LULAC are given their first detailed consideration in this compelling work of intellectual and literary history Drawing on extensive archival research in the English and Spanish languages John Mor n

Gonzalez revisits the 1930s as a crucial decade for the vibrant Mexican American reclamation of Texas history Border Renaissance pays tribute to this vital turning point in the Mexican American struggle for civil rights *Mexican American Literature* Charles M. Tatum,1990 *In the Mean Time* Erin Murrah-Mandril,2020-04-01 The 1848 Treaty of Guadalupe Hidalgo which transferred more than a third of Mexico's territory to the United States deferred full U S citizenship for Mexican Americans but promised in the mean time to protect their property and liberty Erin Murrah Mandril demonstrates that the U S government deployed a colonization of time in the Southwest to insure political and economic underdevelopment in the region and to justify excluding Mexican Americans from narratives of U S progress In *In the Mean Time* Murrah Mandril contends that Mexican American authors challenged modern conceptions of empty homogenous linear and progressive time to contest U S colonization Taking a cue from Latina/o and borderlands spatial theories Murrah Mandril argues that time like space is a socially constructed ideologically charged medium of power in the Southwest In the Mean Time draws on literature autobiography political documents and historical narratives composed between 1870 and 1940 to examine the way U S colonization altered time in the borderlands Rather than reinforce the colonial time structure early Mexican American authors exploited the internal contradictions of Manifest Destiny and U S progress to resist domination and situate themselves within the shifting political economic and historical present Read as decolonial narratives the Mexican American cultural productions examined in this book also offer a new way of understanding Latina/o literary history
