Art Therapy Activities for All Ages Joan Stewart,2024-04-29 The purpose of Art Therapy is to create an oasis of time to allow the brain and body to relax recharge and rejuvenate itself while exploring the creative process of manipulating design elements such as line shape form space texture tone and color Art Therapy can help people express themselves more freely improve their mental health and improve interpersonal relationships The basis of Art Therapy is established on the idea that people can recover and feel better via artistic expression There is increasing evidence in rehabilitation medicine and the field of neuroscience that art

enhances brain function by impacting brain wave patterns emotions and the nervous system Art can also raise serotonin levels These benefits don t just come from making art they also occur by experiencing art As an Art Facilitator I have thoroughly tested all the activities in this book over many years and with a variety of people Many activities are structured to encourage team work problem solving and communication as well as individual creativity in a relaxed social environment I was always surprised and impressed at the results While each activity focuses on one of the main categories brain senses memory teamwork and loss all of them involve a number of skills The results can be different with each new group and even when presented to the same group again
