Power In The City Decision Making In San Francisco:

Power in the City Frederick M. Wirt, 2023-11-10 San Francisco is a uniquely favored city but its politics are beset with extraordinary problems Power is divided among traditional and new minorities a mayor with modest authority and a large city bureaucracy guided by insensitive professional norms The special San Francisco politics of profit and ethnic conflict are complicated and profoundly influenced by such external forces as regional state and federal government and by the force of a national economy Frederick Wirt s fascinating study is based on personal interviews with knowledgeable observers and participants on an extensive review of special reports and on a firsthand study of the transaction patterns in the political business labor ethnic and historical life of the city In the end the 125 year political history of San Francisco provides solid new insights on the politics of large American cities in the 1970s This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 *Power in the City*

Marion Orr, Valerie C. Johnson, 2008 A collection of thirteen essays considered classics in the field of urban politics from leading scholar Clarence Stone with new essays by the editors and by Stone himself that contextualize the impact of his previous works and suggest new directions for researchers **Local Politics: A Practical Guide to Governing at the Grassroots** Terry Christensen, Tom Hogen-Esch, 2014-12-18 Unlike most competing texts that are densely written and heavily theoretical with little flavor of political life this book is a readable jargon free introduction to real life local politics for today s students While it encompasses local government and politics in cities and towns across America Local Politics A Practical Guide to Governing at the Grassroots gives special attention to the politics of suburbia where many students live and encourages them to become engaged in their own communities The book is also distinguished by its strong emphasis on nuts and bolts practical politics It provides focused discussion of institutions roles and personalities as well as the dynamic environment of local politics demographics immigration globalization etc and major policy issues budgets land use transportation education etc Other texts treat communities as abstractions and readers as passive observers Local Politics A Practical Guide to Governing at the Grassroots is designed to inspire civic engagement as well as understanding It features In Your Community research projects for students in every chapter along with informative tables clear charts essential terms and guides to useful websites Left Coast City Richard Edward DeLeon, 1992 This book provides insight into how San Francisco s progressive coalition developed between 1975 and 1991 what stresses emerged to cause splintering within the coalition and how it fell apart in the 1991 mayoral campaign DeLeon analyzes the success and failures of the progressive movement as it toppled the business dominated pro growth regime imposed stringent controls on growth and development and achieved political control of city hall **Latinos and the Liberal City** Eduardo Contreras, 2019-02-08 The Latino vote

has become a mantra in political media as journalists pundits and social scientists regularly weigh in on Latinos loyalty to the Democratic Party and the significance of their electoral participation But how and why did Latinos liberal orientation take hold What has this political inclination meant and how has it unfolded over time In *Latinos and the Liberal City* Eduardo Contreras addresses these questions offering a bold textured and inclusive interpretation of the nature and character of Latino politics in America s shifting social and cultural landscape Contreras argues that Latinos political life and aspirations have been marked by diversity and contestation yet consistently influenced by the ideologies of liberalism and latinidad while the principles of activist government social reform freedom and progress sustained liberalism latinidad came to rest on promoting unity and commonality among Latinos Contreras centers this compelling narrative on San Francisco America s liberal city par excellence examining the role of its Latino communities in local politics from the 1930s to the 1970s By the early twentieth century San Francisco s residents of Latin American ancestry traced their heritage to nations including Mexico Puerto Rico Nicaragua El Salvador Chile and Peru These communities formed part of the New Deal coalition defended workers rights with gusto and joined the crusade for racial equality decades before the 1960s In the mid to late postwar era Latinos expanded claims for recognition and inclusion while participating in movements and campaigns for socioeconomic advancement female autonomy gay liberation and rent control Latinos and the Liberal City makes clear that the local public sphere nurtured Latinos political subjectivities and that their politicization contributed to the vibrancy of San Francisco s political culture

Power Failure Diana Dillaway, 2009-12-04 At the turn of the 20th century Buffalo NY was one of the world s great industrial cities In 1901 it played host to the prestigious Pan American Exhibition which attracted millions of visitors to the city its thriving downtown area was graced by buildings and mansions designed by some of the country s best architects the city was the third largest producer of steel and with the largest inland port was a hub of commerce at the end of the Erie Canal Today due to financial distress and decades of mismanagement the city has been put under the supervision of a financial control board Population drain and an inability to attract new business have brought the city to the brink of financial collapse The question on

everyone's lips is What went wrong Community development expert and Buffalo native Diana Dillaway analyzes the history of planning and decision making in Buffalo that led to the current malaise A member of the Wendt family whose great grandfather founded one of Buffalo's oldest manufacturing businesses Dillaway has used her access to the city's most powerful political economic and community leaders to reconstruct the factors that created the city as it exists today She examines the most divisive debates of the past including strategies for downtown and neighborhood development planning for a rapid transit system and battles over the location of a proposed university campus and a professional football stadium A consistent theme is the protection of the status quo and turf battles among the WASP business and financial elite ethnic Catholic communities centered on neighborhood parish life and the Democratic machine with its entrenched patronage system She finds that the only people interested in change were African Americans whose efforts were consistently thwarted by a multi-term mayor who diverted community development funds for his own pet projects At a time when Buffalo is trying to build a brighter future Dillaway's insights revelations and prescriptions for change comprise urgent reading for community leaders and citizens alike Power Failure speaks to issues of leadership and power facing every city and local government today

City Dreams, Country Schemes Kathleen A. Brosnan, Amy L. Scott, 2013-10-11 The American West from the beginning of Euro American settlement has been shaped by diverse ideas about how to utilize physical space and natural environments to create cohesive sometimes exclusive community identities When westerners developed their towns they constructed spaces and cultural identities that reflected alternative understandings of modern urbanity The essays in City Dreams Country Schemes utilize an interdisciplinary approach to explore the ways that westerners conceptualized built and inhabited urban suburban and exurban spaces in the twentieth century The contributors examine such topics as the attractions of open space and rural gentrification in shaping urban development the role of tourism in developing national parks historical sites and California's Napa Valley and the roles of public art gender and ethnicity in shaping urban centers City Dreams Country Schemes reveals the values and expectations that have shaped the West and the lives of the people who inhabit it

More Than Shelter Amy L. Howard, 2014-05-01 In the popular imagination public housing tenants are considered at best victims of intractable poverty and at worst criminals More Than Shelter makes clear that such limited perspectives do not capture the rich reality of tenants active engagement in shaping public housing into communities By looking closely at three public housing projects in San Francisco Amy L Howard

brings to light the dramatic measures tenants have taken to create and sustain and strengthen communities that mattered to them More Than Shelter opens with the tumultuous institutional history of the San Francisco Housing Authority from its inception during the New Deal era through its repeated leadership failures to its attempts to boost its credibility in the 1990s Howard then turns to Valencia Gardens in the Mission District built in 1943 the project became a perpetually contested and embattled space Within that space tenants came together in what Howard calls affective activism activism focused on intentional relationships and community building that served to fortify residents in the face of shared challenges Such activism also fueled cross sector coalition building at Ping Yuen in Chinatown bringing tenants and organizations together to advocate for and improve public housing The account of their experience breaks new ground in highlighting the diversity of public housing in more ways than one The experience of North Beach Place in turn raises questions about the politics of development and redevelopment in this case Howard examines activism across generations first by African Americans seeking to desegregate public housing then by cross racial and cross ethnic tenant groups mobilizing to maintain public housing in the shadow of gentrification Taken together the stories Howard tells challenge assumptions about public housing and its tenants and make way for a broader more productive and inclusive vision of the public housing program in the United States

Critical Pluralism, Democratic Performance, and Community Power Paul Schumaker, 2021-10-08 A central question in political science is who governs and how Typically political scientists attempt to answer this question by relying upon either empirical analysis which explains existing political practices or normative analysis which prescribes ideal political practices Political scientist Paul Schumaker rejects this distinction between empirical and normative theory Instead he weds the two approaches to create the new analytical mode he calls critical pluralism With it he can measure variances in government from pluralist democratic ideals and still provide theoretical explanations of why the variances occurred Schumaker uses critical pluralism to describe explain and evaluate variations in three key measures of democratic performance responsible representation complex equality and principle policy congruence To test his framework and methodology he analyzes 29 community issues that arose in Lawrence Kansas between 1977 and 1987 The results of his study one of the most comprehensive databases ever in the study of community politics will be of interest to those who study community power The conceptual framework itself and methodology used in assessing democratic performance will have a lasting impact on the way community government is studied

The Gateway to the Pacific Meredith Oda, 2019-01-03 In the decades following World War II municipal leaders and ordinary citizens embraced San Francisco's identity as the Gateway to the Pacific using it to reimagine and rebuild the city The city became a cosmopolitan center on account of its newfound celebration of its Japanese and other Asian American residents its economy linked with Asia and its favorable location for transpacific partnerships The most conspicuous testament to San Francisco's postwar transpacific connections is the Japanese Cultural and Trade Center in the city's redeveloped Japanese American enclave Focusing on the development of

the Center Meredith Oda shows how this multilayered story was embedded within a larger story of the changing institutions and ideas that were shaping the city During these formative decades Oda argues San Francisco's relations with and ideas about Japan were being forged within the intimate local sites of civic and community life This shift took many forms including changes in city leadership new municipal institutions and especially transformations in the built environment Newly friendly relations between Japan and the United States also meant that Japanese Americans found fresh if highly constrained job and community prospects just as the city's African Americans struggled against rising barriers San Francisco's story is an inherently local one but it also a broader story of a city collectively if not cooperatively reimagining its place in a global economy

Groundswell Stephanie Gilmore, 2012-11-12 *Groundswell* Grassroots Feminist Activism in Postwar America offers an essential perspective on the post 1960 movement for women's equality and liberation Tracing the histories of feminist activism through the National Organization of Women NOW chapters in three different locations Memphis Tennessee Columbus Ohio and San Francisco California Gilmore explores how feminist identity strategies and goals were shaped by geographic location Departing from the usual conversation about the national icons and events of second wave feminism this book concentrates on local histories and asks the questions that must be answered on the micro level Who joined Who did not What did they do Why did they do it Together with its analysis of feminist political history these individual case studies from the Midwest South and West coast shed light on the national women's movement in which they played a part In its coverage of women's activism outside the traditional East Coast centers of New York and Boston *Groundswell* provides a more diverse history of feminism showing how social and political change was made from the ground up

Changing Urban Education Clarence Nathan Stone, 1998 With critical issues like desegregation and funding facing our schools dissatisfaction with public education has reached a new high Teachers decry inadequate resources while critics claim educators are more concerned with job security than effective teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why *Changing Urban Education* confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation's leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and the concentration

of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved Changing Urban Education makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future

Gay Politics, Urban Politics Robert C. Bailey, 1999-01-05 Drawing from surveys of political attitudes and voting patterns among gays lesbians and bisexuals Bailey s study is a revealing window into how sexual identity has fostered political alliances The book investigates mayoral voting patterns in America s three largest cities New York Los Angeles and Chicago

A Journey to Freedom Kent Blansett, 2018-01-01 The first book length biography of Richard Oakes a Red Power activist of the 1960s who was a leader in the Alcatraz takeover and the Indigenous rights movement A revealing portrait of Richard Oakes the brilliant charismatic Native American leader who was instrumental in the takeovers of Alcatraz Fort Lawton and Pit River and whose assassination in 1972 galvanized the Trail of Broken Treaties march on Washington D C The life of this pivotal Akwesasne Mohawk activist is explored in an important new biography based on extensive archival research and interviews with key activists and family members Historian Kent Blansett offers a transformative and new perspective on the Red Power movement of the turbulent 1960s and the dynamic figure who helped to organize and champion it telling the full story of Oakes s life his fight for Native American self determination and his tragic untimely death This invaluable history chronicles the mid twentieth century rise of Intertribalism Indian Cities and a national political awakening that continues to shape Indigenous politics and activism to this day
