Power Of Play:

The Power of Play David Elkind, 2007-12-25 In modern childhood free unstructured play time is being replaced more and more by academics lessons competitive sports and passive electronic entertainment While parents may worry that their children will be at a disadvantage if they are not engaged in constant explicit learning or using the latest educational games David Elkind's *The Power of Play* reassures us that unscheduled imaginative play goes far in preparing children for academic and social success Through expert analysis of the research and powerful situational examples Elkind shows that indeed creative spontaneous activity best sets the stage for academic learning in the first place Children learn mutual respect and cooperation through role playing and the negotiation of rules which in turn prepare them for successful classroom learning in simply playing with rocks for example a child could discover properties of counting and shapes that are the underpinnings of math even a toddler's babbling is a necessary precursor to the acquisition of language An important contribution to the literature about how children learn *The Power of Play* suggests ways to restore play's respected place in children's lives at home at school and in the larger community In defense of unstructured down time it encourages parents to trust their instincts and resist the promise of the wide and dubious array of educational products on the market geared to youngsters

The Power of Play David Elkind, 2007 Discusses the importance of unstructured play during childhood featuring examples and evidence to support the author's contention that play is crucial to the physical intellectual social and emotional development of children
