Congress. Office of Technology Assessment,1995 Literacy, Technology, and Society Gail E. Hawisher,Cynthia L. Selfe,1997 Designed to help readers become critical thinkers about technology not simply consumers of technology The readings span a broad range of topics and genres and include alternative readings available on a World Wide Web site connected to the book An abundance of writing to learn and writing to communicate assignments provide practice in crafting reflective pieces thoughtful analyses of issues argumentative discourse research proposals multimedia projects and other kinds of electronic writing aimed at on line discussion groups Students at the Center Bena Kallick,Allison Zmuda,2017-01-30 Educators most important work is to help students develop the intellectual and social strength of character necessary to live well in the world The way to do this argue authors Bena Kallick and Allison Zmuda is to increase the say students have in their own learning and prepare them to navigate complexities they face both inside and beyond school This means rethinking traditional teacher and student roles and re examining goal setting lesson planning assessment and feedback practices It means establishing classrooms that prioritize Voice Involving students in the what and the how of learning and equipping them to be stewards of their own education Co creation Guiding students to identify the challenges and concepts they want to explore and outline the actions they will take Social construction Having students work with others to theorize pursue common goals build products and generate performances Self discovery Teaching students to reflect on their own developing skills and knowledge so that they will acquire new understandings of themselves and how they learn Based on their exciting work in the field Kallick and Zmuda map out a transformative model of personalization that puts students at the center and asks them to employ the set of dispositions for engagement and

learning known as the Habits of Mind They share the perspectives of educators engaged in this work highlight the habits that empower students to pursue aspirations investigate problems design solutions chase curiosities and create performances and provide tools and recommendations for adjusting classroom practices to facilitate learning that is self directed dynamic sometimes messy and always meaningful **Future visions : education and technology.** ,1995 **Public Education in**

the Digital Age Morgan Anderson,2022-12-08 Educational technology is now ubiquitous in schooling both in P 12 and at universities Despite the imposition of technology in most aspects of teaching and learning little attention has been given to the implications educational technology has for healthy student development humane pedagogy teacher labor academic freedom and the aims of social justice Rather than merely a set of neutral tools educational technology is bound up with systems of power and privilege that tend to deepen rather than confront inequality In calling for a reassessment of the relationship between schools and technology this book asks readers to think differently about the role technology can serve in socially just schools An accessible and compelling read this book will appeal to students and scholars of sociology social justice politics and all those interested in the impact technology is having on the education system in the USA
