Radical Pluralism And Truth:

Truth and Pluralism Nikolaj J.L.L. Pedersen, Cory D. Wright, 2013-02-14 The relative merits and demerits of historically prominent views about truth such as the correspondence theory coherentism pragmatism verificationism and instrumentalism have been subject to much attention and have fueled the long lived debate over which of these views is the most plausible While diverging in their specific philosophical commitments adherents of these views are in agreement in at least one fundamental respect they are all alethic monists They endorse the thesis that there is only one property in virtue of which propositions can be true and so in this sense take truth to be one The truth pluralist on the other hand rejects this idea there are several properties in virtue of which propositions can be true The literature on truth pluralism has been growing steadily for the past twenty years This volume however is the first to focus specifically on pluralism about truth Part I is dedicated to the development investigation and critical discussion of different forms of pluralism One additional reason to examine truth pluralism is the significant connections it bears to other debates in the truth literature particularly debates concerning traditional theories of truth and the deflationism inflationism divide Parts II and III of the volume connect truth pluralism to these two debates

Canons in Conflict James E. Brenneman, 1997-05-29 In this new study James Brenneman confronts the issue of conflicting canons with full force incorporating insights gained from both literary and biblical disciplines on the question of canon He begins with an illuminating tour through contemporary literary theory from Hans Robert Jauss to Stanley Fish and current discussions in theology about the canon He goes on to a consideration of true and false prophesy with a detailed examination of the three apparently conflicting versions of the Old Testament swords into plowshares prophesy as found in Isaiah 2 2 4 5 Joel 4 9 12 Eng 3 9 12 and Micah 4 1 5 Suggesting that the dynamics controlling the process for negotiating between contradictory readings of prophetic texts are the same as those at work in adjudicating between canons in conflict Brenneman concludes by pointing the way towards an integrative approach appropriate to the question of canon and authority in a post modern pluralistic context

Systematic Philosophical Theology, Volume 1 William Lane Craig, 2024-12-31 the culmination of an impressive career in philosophy and theology Craig s work will be highly valued and a great achievement meriting significant attention Charles Taliaferro Professor Emeritus of Philosophy St Olaf College William Lane Craig s landmark treatise on systematic philosophical theology is a major contribution to our understanding of the relation of philosophy and Christian doctrine and will be an essential reference point for future discussions Alister McGrath Emeritus Idreos Professor of Science and Religion Oxford University A transformative journey through Christian doctrine Volume I On Scripture On Faith William Lane Craig s Systematic Philosophical Theology is a multi volume explication of Christian doctrine in the classic Protestant tradition of the loci communes as seen through the lens of contemporary analytic philosophy Uniquely blending the disciplines of biblical theology historical theology and analytic theology these volumes aim to provide readers with a biblical and philosophically

coherent articulation of a wide range of Christian doctrines In the first volume of the series Prolegomena On Scripture On Faith Craig begins by introducing his conception of systematic philosophical theology describing how it relates to biblical theology dogmatics fundamental theology apologetics and especially philosophy of religion The chapters that follow defend the divine authority of Scripture address the nature of faith and discuss the rational justification for Christian faith Throughout the text Craig tackles cutting edge philosophical questions that arise naturally from Christian doctrine such as the compatibility of biblical inspiration and human freedom and whether faith implies belief **An Eschatological**

Imagination John M. Shields, 2008 In the twentieth century Christian eschatology the doctrine about the final reality became a storm center for Christian systematic theologians because of the rediscovery of the eschatological character of Jesus Christ In the twenty first century Christian theologians continue to wrestle with the claims of Christian eschatology because of a postmodern suspicion of eschatological certainty claims about a future that is after all objectively unavailable yet still of great human concern Human beings live on hope for the future An Eschatological Imagination recognizes the problem of the future for Christian eschatology Building on the major theological writings of David Tracy it offers a revised way of thinking and living eschatologically in the form of an eschatological imagination as a rhetoric of virtue an exhortation to live in Christian hope in a postmodern world and into an objectively unavailable and uncertain future Within such a rhetoric hope becomes action not mere sentiment that seeks to create a Christian eschatological future The Two Truths Debate Sonam Thakchoe, 2016-01-26 All lineages of Tibetan Buddhism today claim allegiance to the philosophy of the Middle Way the exposition of emptiness propounded by the second century Indian master Nagarjuna But not everyone interprets it the same way A major faultline runs through Tibetan Buddhism around the interpretation of what are called the two truths the deceptive truth of conventional appearances and the ultimate truth of emptiness An understanding of this faultline illuminates the beliefs that separate the Gelug descendents of Tsongkhapa from contemporary Dzogchen and Mahamudra adherents The Two Truths Debate digs into the debate of how the two truths are defined and how they are related by looking at two figures one on either side of the faultline and shows how their philosophical positions have dramatic implications for how one approaches Buddhist practice and how one understands enlightenment itself The Metaphysics of Paradox Wm. Andrew Schwartz, 2018-09-15 This book is an exploration into the paradoxical structure of pluralistic thinking as illuminated by both Western and Eastern insights especially Jainism By calling into question the most fundamental assumptions of religious pluralists the author hopes to contribute to a paradigm shift in discourse on religious pluralism and conflicting truth claims The Socioeconomics of Economics Arne Heise, 2020-03 The economic discipline has always been an object of investigation But unlike in former times when methodological and epistemological developments had been the object of historians of economic thought recently the focus of inquiry shifted towards the constitution organisation and performativity of the economic discipline It is the intention of the book to contribute to a better understanding of the working and failures of

the market for economic ideas **Toward a Pragmatist Metaethics** Diana Heney, 2016-05-20 In our current social landscape moral questions about economic disparity disadvantaging biases and scarcity are rightly receiving attention with a sense of urgency This book argues that classical pragmatism offers a compelling and useful account of our engagement with moral life The key arguments are first that a broader reading of the pragmatist tradition than is usually attempted within the context of ethical theory is necessary and second that this broad reading offers resources that enable us to move forward in contemporary debates about truth and principles in moral life The first argument is made by demonstrating that there is an arc of theoretical unity that stretches from two key founders of pragmatism Charles Sanders Peirce and William James through the work of John Dewey and Clarence Irving Lewis The second argument is made by engaging with contemporary debates concerning the truth status of the judgments and assertions made in ordinary moral discourse as well as the role and nature of moral principles **Toward a Pragmatist Metaethics** will be of interest to scholars of American philosophy American intellectual history and moral and political theorists as well as anyone interested in the contours and demands of shared moral discourse

Postmodernism, Literature, and the Future of Theology David Jasper, 2009-06-16 These essays set out to consider the possible future of theology in the light of the so called postmodern condition They are necessarily deeply interdisciplinary since it is a characteristic of post Enlightenment thought to disintegrate the lines of definition which separate areas of reflection in the human sciences Theology we believe must be exposed to the consequences of what has happened in literature and critical theory if it is to have any future outside the protected and isolated environment of ecclesia and the communities of the faithful The authors represent a great diversity of opinion and discipline Not all of us would agree with one another and certainly there is no agreement as to what constitutes postmodernity Yet this very diversity forms the strength and importance of the book for there are no simple answers or straightforward definitions Theology must recognize the pluralism within which it now must carry out its task and which alone defines its future The keynote of the discussion is the tragic Tragedy takes us back to the Greeks and to Nietzsche Both feature centrally in this presentation It also suggests a future a return perhaps through literature to theology and not merely an end of the story as it has been traditionally sold

Foucault, Christianity and Interfaith Dialogue Henrique Pinto, 2020-11-25 Foucault Christianity and Interfaith Dialogue develops a new model for interfaith dialogue using the work of the French historian of ideas Michel Foucault The author argues that it is the injustice done to the Other by Roman Catholic Protestant and other centred and unitary models of religious pluralism that allows the introduction of Foucault's de centring of transcendence and human reason as an alternative model for understanding religious diversity and the role it ought to play in the constitution of the self and the making of society This Foucaultian approach provides a new direction for interfaith dialogue in the modern world and leads to an ethical rather than a nihilistic position while fostering a non unitary theology of religious pluralism and an open textured process of self transformation The author's original and imaginative application and expansion of Foucault's concept

of the More from *The Archaeology of Knowledge* 1969 makes important and original contributions to academic work on Foucault and contemporary theology **Radical Pluralism and Truth** Werner G. Jeanrond, Jennifer L. Rike, 1991 *The Ubuntu God* Samuel A. Paul, 2009-01-01 In 1948 the Afrikaner Nationalist Government became the ruling party in South Africa and instituted the brutal system known as apartheid To maintain their power Afrikaners drew on Christian scripture and traditions to create self justifying religious narratives that supported their oppressive ideologies prohibiting inclusion and suppressing pluralism In time these Afrikaner Christian narratives began to unravel as counter narratives within the Christian tradition influenced the Black church to demand equality and democracy This socio political and cultural transformation is best understood and interpreted through the vision of ubuntu a mode of thought in African culture that places a value on humanity in community and shifts the focus from singularity to plurality in South African society In *The Ubuntu God* Samuel A Paul traces how the dismantling of apartheid led to recognition of the religious other the recovery of alternate narratives and the reappearance of ubuntu perspective and practice in the political and public sphere After the peaceful transition to a democratically elected government the Truth and Reconciliation Commission created a platform for multiple voices stories and religious narratives to be shared in a public political context This multiplicity of voices resulted ultimately in the formation of a new constitution for South Africa that sought to uphold African values of community and inclusion in its institutions While South Africa s apartheid system and the Truth and Reconciliation Commission are both rooted in the biblical narrative the former used its theology to enforce an iron rule while the latter combined Christian and African concepts to create a pluralistic and open society Such a society is characterized by a culture that emphasizes communality and interdependence Jewish Theology and World Religions Alon Goshen-Gottstein, Eugene Korn, 2012-04-05 The contributors to this volume represent a range of disciplines and denominations within Judaism and share the conviction that articulating contemporary Jewish views of other world religions is an urgent objective for Judaism Their essays show why a Jewish theology of world religions is a priority for Jewish thinkers and educators concerned with reinvigorating Judaism s contribution to the contemporary world and maintaining Jewish identity and continuity Interpreting Interreligious Relations with Wittgenstein: Philosophy, Theology and Religious Studies , 2019-09-02 This volume argues that Wittgenstein s philosophy of religion and his thought in general continue to be highly relevant for present and future research on interreligious relations Spanning several sub disciplines from philosophy of religion philosophy of language comparative philosophy comparative theology to religious studies the contributions engage with recent developments in interpretation of Wittgenstein and those in the philosophy and theology of interreligious encounter The book shows that there is an important and under explored potential for constructive and fruitful engagement between these academic fields It explores and attempts to realize some of this potential by involving both philosophers and theologians and critically assesses previous applications of Wittgenstein s work in interreligious studies Contributors are Gorazd Andrej Guy Bennett Hunter

Mikel Burley Thomas D Carroll Paul Cortois Rhiannon Grant Randy Ramal Klaus von Stosch Varja trajn Nuno Venturinha Sebastjan V r s and Daniel H Weiss **Wallace Stevens In Theory** Thomas Gould,Ian Tan,2023-07-15 The modernist poetry of Wallace Stevens is replete with moments of theorizing Stevens regarded poetry as an abstract medium through which to think about and theorize not only philosophical concepts like metaphor and reality but also a unifying thesis about the nature of poetry itself At the same time literary theorists and philosophers have often turned to Stevens as a canonical reference point and influence In the centenary year of Wallace Stevens s first collection *Harmonium* 1923 this collection asks what it means to theorize with Stevens today Through a range of critical and theoretical perspectives this book seeks to describe the myriad kinds of thinking sponsored by Stevens s poetry and explores how contemporary literary theory might be invigorated through readings of Stevens God in Postliberal Perspective Robert Andrew Cathey,2016-04-22 Who is God The variety of images of God tends to overwhelm us in the present age Is God a fiction of human construction or a reality that makes claims upon how we practice faith in God How does this quest for an understanding of God illumine who we are God in Postliberal Perspective presents an introduction to the doctrine and concept of God in contemporary philosophy and theology exploring how some theologians and philosophers dare to speak of God as real in our sceptical pluralistic and interfaith age Robert Cathey tours the house of realism as constructed by postliberal Christians David Burrell William Placher Bruce Marshall in conversation with living communities of faith and critical work in philosophy and theology and develops a distinctive argument about the relation of realism and non realism in constructing the doctrine of God in postliberal theology Offering a reading of postliberal theology which is open to critical discussion with other types of theology philosophy and faith traditions this book proposes a model of theological reflection that may be extended to the reality claims of a wide range of doctrines and concepts Process and Pluralism Zhihe Wang,2013-05-02 This book offers a uniquely process relational oriented Chinese approach to inter religious dialogue called Chinese Harmonism The key features of Chinese harmonism are peaceful co existence mutual transformation and openness to change As developed with help from Whiteheadian process thought Chinese harmonism provides a middle way between particularism and universalism showing how diversity can exist within unity Chinese harmonism is open to similarities among religions but it also emphasizes that differences among religions can be complementary rather than contradictory Thus Chinese harmonism implies an attitude of respect for others and a willingness to learn from others without reducing the other to one s own identity that is to sameness By emphasizing the possibility of complementariness a process oriented Chinese harmonism avoids a dichotomy between universalism and particularism represented respectively by John Hick and S Mark Heim and will make room for a genuine openness and do justice to the culturally and religiously other **The Epistemology of Resistance** José Medina,2013 This book explores the epistemic side of racial and sexual oppression It elucidates how social insensitivities and imposed silences prevent members of different groups from listening to each other Religious Truth and Identity in an Age of Plurality Peter

Jonkers, Oliver J. Wiertz, 2019-08-05 This book deals with the intellectual aspects of having diverse religious expressions in proximity and the socio political consequences It provides a multi disciplinary perspective on this complex subject cross fertilizing work on religious plurality with truth claims from theologians as well as philosophers from the continental and analytic traditions The book includes three major parts Part 1 explores the ideas around religious diversity and truth Part 2 draws out the epistemic import of religious diversity and Part 3 concludes the volume by examining the practical and social aspects of religious diversity Bringing a transdisciplinary perspective to a topic that remains at the forefront of conversation around the religious life of the world this book will be of great interest to scholars of Religious Studies Theology and the Philosophy of Religion *Philosophy of Mathematics* Ahmet Cevik, 2021-11-09 The philosophy of mathematics is an exciting subject Philosophy of Mathematics Classic and Contemporary Studies explores the foundations of mathematical thought The aim of this book is to encourage young mathematicians to think about the philosophical issues behind fundamental concepts and about different views on mathematical objects and mathematical knowledge With this new approach the author rekindles an interest in philosophical subjects surrounding the foundations of mathematics He offers the mathematical motivations behind the topics under debate He introduces various philosophical positions ranging from the classic views to more contemporary ones including subjects which are more engaged with mathematical logic Most books on philosophy of mathematics have little to no focus on the effects of philosophical views on mathematical practice and no concern on giving crucial mathematical results and their philosophical relevance consequences reasons etc This book fills this gap The book can be used as a textbook for a one semester or even one year course on philosophy of mathematics Other textbooks on the philosophy of mathematics are aimed at philosophers This book is aimed at mathematicians Since the author is a mathematician it is a valuable addition to the literature Mark Balaguer California State University Los Angeles There are not many such texts available for mathematics students I applaud efforts to foster the dialogue between mathematics and philosophy Michele Friend George Washington University and CNRS Lille France
