Rage For China:

Chinese Recorder and Missionary Journal, 1894 **The Gospel in All Lands**, 1893 China's Crisis Behavior Kai He, 2016-04-07 Since the end of the Cold War China has experienced several notable interstate crises the 1999 embassy bombing incident the 2001 EP 3 mid air collision with a United States aircraft and the Diaoyu Senkaku dispute with Japan China's response to each incident however has varied considerably Drawing from a wealth of primary sources and interviews this book offers a systematic analysis of China's crisis behavior in order to identify the factors which determine when Chinese leaders decide to escalate or scale down their response to crises Inspired by prospect theory a Nobel Prize winning behavioral psychology theory Kai He proposes a political survival prospect model as a means to understand the disparities in China's behavior He argues that China's response depends on a combination of three factors that shape leaders' views on the prospects for their political survival status including the severity of the crisis leaders' domestic authority and international pressure The International Relations of the Chinese Empire Hosea Ballou Morse, 1918 Handbook of Protest and Resistance in China Teresa Wright, 2019 Featuring contributions from top scholars and emerging stars in the field the Handbook of Protest and Resistance in China captures the complexity of protest and dissent in contemporary China while simultaneously exploring a number of unifying themes Examining how when and why individuals and groups have engaged in contentious acts and how the targets of their complaints have responded the volume sheds light on the stability of China's existing political system and its likely future trajectory **Middle Class China** David S. G. Goodman, Minglu Chen, 2013-01-01 A general expectation has developed that China's middle class will generate not only social but also political change This expectation often overlooks the reality that there is no single Chinese middle class with a common identity or will to action This timely volume examines the behaviour and identity of the different elements of China's middle class entrepreneurs managers and professionals in order to understand their centrality to the wider processes of social and political change in China The expert contributors seek to identify the social space occupied by the Chinese middle class rather than identifying social backgrounds and attitudes In so doing they explore socio-political issues the development of a consumer society relationships between gender and class in the workplace home ownership and the appearance of gated communities and the political interaction between the Party state and the entrepreneurial middle classes and their impact on the new institutional economics Providing a more nuanced understanding of the structure of the middle class in China and identifying dynamic elements in their behaviour this unique book will prove a fascinating and thought provoking read for academics students and researchers with an interest in Asian studies and public policy The Chinese Recorder and Missionary Journal, 1878 **China's Evolving Approach to Peacekeeping** Marc Lanteigne, Miwa Hirono, 2013-09-13 China has become an enthusiastic supporter of and contributor to UN peacekeeping Is China's participation in peacekeeping likely to strengthen the current international peacekeeping regime by China's adopting of the international norms of

peacekeeping Or on the contrary is it likely to alter the peacekeeping norms in a way that aligns with its own worldview And as China s international confidence grows will it begin to consider peacekeeping a smaller and lesser part of its international security activity and thus not care so much about it This book aims to address these questions by examining how the PRC has developed its peacekeeping policy and practices in relation to its international status It does so by bringing in both historical and conceptual analyses and specific case oriented discussions of China s peacekeeping over the past twenty years The book identifies the various challenges that China has faced at political conceptual and operational levels and the ways in which the country has dealt with those challenges and considers the implication of such challenges with regards to the future of international peacekeeping This book was originally published as a special issue of International Peacekeeping

Online Chinese Nationalism and China's Bilateral Relations Simon Shen,Shaun Breslin,2010-03-18 Since the Chinese were officially plugged into the virtual community in 1994 the usage of the internet in the country has developed at an incredible rate By the end of 2008 there were approximately 298 million netizens in China a number which surpasses that of the U S and ranks China the highest user in the world The rapid

development of the online Chinese community has not only boosted the information flow among citizens across the territory but has also created a new form of social interaction between the state the media various professionals and intellectuals as well as China's ordinary citizens Although the subject of this book is online Chinese nationalism which to a certain extent is seen as a pro regime phenomenon the emergence of an online civil society in China intrinsically provides some form of supervision of state power perhaps even a check on it The fact that the party state has made use of this social interaction while at the same time remaining worried about the negative impact of the same netizens is a fundamental characteristic of the nature of the relationship between the state and the internet community Many questions arise when considering the internet and Chinese nationalism Which are the most important internet sites carrying online discussion of nationalism related to the author's particular area of study What are the differences between online nationalism and the conventional form of nationalism and why do these differences exist Has nationalist online expression influenced actual foreign policy making Has nationalist online expression influenced discourse in the mainstream mass media in China Have there been any counter reactions towards online nationalism Where do they come from Online Chinese Nationalism and China's Bilateral Relations seeks to address these questions

Sinicization and the Rise of China Peter J. Katzenstein, 2013-03-01 China's rise and processes of Sinicization suggest that recombination of new and old elements rather than a total rupture with or return to the past is China's likely future In both space and time civilizational politics offers the broadest social context It is of particular salience in China Reification of civilizations into simple categories such as East and West is widespread in everyday politics and common in policy and academic writings This book's emphasis on Sinicization as a specific instance of civilizational processes counters political and intellectual shortcuts and corrects the mistakes to which they often lead Sinicization illustrates that like other civilizations China has always been open to variegated social and political processes that have brought together many different kinds of peoples adhering to very different kinds of practices This book tries to avoid the reifications and celebrations that mark much of the contemporary public debate about China's rise It highlights instead complex processes and political practices bridging East and West that avoid easy shortcuts The analytical perspectives of this book are laid out in Katzenstein's opening and concluding chapters They are explored in six outstanding case studies written by widely known authors which over questions of security political economy and culture Featuring an exceptional line up and representing a diversity of theoretical views within one integrative perspective this work will be of interest to all scholars and students of international relations sociology and political science Chapter 7 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Politics of China's Accession to the World Trade Organization Hui Feng, 2006-01-16 Grounded on a series of first hand interviews with Chinese government officials this book examines China's accession to the World Trade Organization providing an inside look at Chinese WTO accession negotiations Presenting a systematic political economy model in analyzing Beijing's decision making mechanisms the book argues that China's WTO policy making is a state led leadership driven and top down process Feng explores how China's determined political elite partly bypassed and partly restructured a largely reluctant and resistant bureaucracy under constant pressure from an increasingly globalized international system By addressing China's accession to the WTO from a political analysis perspective the book provides a theoretically informed and intriguing examination of China's foreign economic policy making regime The book highlights contemporary debates relating to state and institutionalist theory and provides new and useful insights into a significant development of this century
