with fact and places on record what really happened The final part of the book acknowledges the fine work over half a century of volunteers dedicated to saving a section of the line in Leicestershire A valuable addition to the social and political history of railways The Railway Correspondence and Travel Society The Railways of Bradford & Leeds Peter Waller,2023-12-30 It was to the south west of Leeds that one of the key lines in the development of Britain s railway network the Middleton Railway established the principle of seeking parliamentary sanction for the construction of a new form of transport Five decades later in the early nineteenth century it was again the Middleton Railway that was at the forefront of the use of steam rather than animal power to move coal from colliery to market From the early 1830s through until the early years of the twentieth century the local railway network continued to expand indeed if it had not been for the outbreak of the First World War in 1914 the area would have played host to one of the last first generation main lines to be constructed with the Midland Railway planning and partially constructing a new main line north from Royston In the event the line was never completed consigning Bradford to be served by no more than glorified branch lines Providing a largely illustrated account to the history of the railway development of the area the book includes a fascinating selection of illustrations that focus on the evolution of the network in the almost eighty years since the end of the Second World War Tramway and Railway World ,1908 **Motor Transport** ,1928 Canadian Railway and Marine World ,1926 **Railway Age** ,1944 **Operations Management** Joel D.
