Organization and Organizing Daniel Robichaud, Francois Cooren, 2013-05-02 Recipient of the 2013 Top Edited Book Award by the Organizational Communication Division of the National Communication Association USA. This timely collection addresses central issues in organizational communication theory on the nature of organizing and organization. The unique strength of this volume is its contribution to the conception of materiality, agency, and discourse in current theorizing and research on the constitution of organizations. It addresses such questions as: To what extent should the materiality of texts and artifacts be accounted for in a process view of organization? What part does materiality play in the process by which organizations achieve continuity in time and space? In what sense do artifacts perform a role in human communication and interaction and in the constitution of organization? What are the voices and entities participating in the emergence and stabilization of organizational reality? The work represents scholarship going on in various parts of the world and features contributions that overcome traditional conceptions of the nature of organizing by addressing in specific ways the difficult issues of the performative character of agency, materiality as the basis of the iterability of communication, and continuity of organizations and discourse as both textuality and interaction. The contributions laid out in this book also pay tribute to the work of the organizational communication theorist James R. Taylor, who developed a view of organization as deeply rooted in communication and language. Contributors extend and challenge Taylor's communicative view by tackling issues and assumptions left implicit in his work.

Blazing Splendor Tulku Urgyen Rinpoche, 2024-10-08 An insightful memoir illuminating the profound experiences and magical world of a Tibetan Buddhist master. Tulku Urgyen Rinpoche was among Tibetan Buddhism's greatest teachers of the twentieth century. His memoir *Blazing Splendor* invites us to join him as he looks back over a life that put him at the center of an unparalleled spiritual abundance. Through his unblinking eyes, we meet remarkable contemplative adepts. And through the lens of his awakened awareness, we see the world from a fresh, eye-opening perspective. It is a sweeping account that shares with readers a world where miracles, mystery, and deep insight are the order of the day—a world as reflected through the open, lucid quality of Tulku Urgyen's mind. From the foreword by Daniel Goleman, author of *Emotional Intelligence*, *Blazing Splendor* is a rare and profound gift: an intimate view into the world of one of the most celebrated and influential meditation masters of the last century. In these memoirs, Tulku Urgyen Rinpoche (1920-1996) recounts with incredible lucidity and humility his unique spiritual and familial heritage, his training in Tibetan Buddhism, and remarkable encounters with some of the most renowned masters of Tibet. This wide-reaching narrative stretches across generations to provide insight into the lived experience of contemplative adepts and into life before and after the Cultural Revolution, which left Tibet changed forever. Born the great grandson of the seminal terma revealer Chokgyur Lingpa and a

holder of both Nyingma and Kagyu lineages Tulku Urgyen Rinpoche tells us of his unique family legacy in which each generation has been saturated with spiritual accomplishments He tells of how he in time became responsible for learning and then transmitting this lineage of Buddhist teachings which continues today in the flourishing activities of his surviving sons Chokyi Nyima Rinpoche Yongey Mingyur Rinpoche and Tsoknyi Rinpoche Blazing Splendor is a window into the life of a Mahamudra and Dzogchen master that illuminates the transmission of sacred teachings in a modern world a world we inhabit too where the miraculous and the mundane exist side by side [The Way of Effortless Mindfulness](#) Loch

Platonic Mysticism Arthur Versluis, 2017-08-16 Restores the Platonic history and context of mysticism and shows how it helps us understand more deeply the humanities as a whole from philosophy and literature to art In Platonic Mysticism Arthur Versluis clearly and tautly argues that mysticism must be properly understood as belonging to the great tradition of Platonism He demonstrates how mysticism was historically understood in Western philosophical and religious traditions and emphatically rejects externalist approaches to esoteric religion Instead he develops a new theoretical critical model for understanding mystical literature and the humanities as a whole from philosophy and literature to art A sequel to his Restoring Paradise this is an audacious book that places Platonic mysticism in the context of contemporary cognitive and other approaches to the study of religion and presents an emerging model for the new field of contemplative science An important work on the mystical experience delving deep into its history particularly from the Platonic perspective An essential text for anyone interested in mysticism and its relationship to philosophy and creative expression Andrew Newberg author of How Enlightenment Changes Your Brain The New Science of Transformation The present work the latest from the pen of Arthur Versluis provides a trenchant learned and illuminating analysis of the origins of Western mysticism in the Platonist tradition relayed through such figures as Plotinus and Dionysius the Areopagite down through Meister Eckhart and others while suitably excoriating the attempts of certain modern philosophers and sociologists of religion to deconstruct it from a materialist perspective I found it a rattling good read John Dillon author of The Heirs of Plato A Study of the Old Academy 347 274 BC
