Craig Houston* A. H. J. Knight, 1938 **The Power of Pygmalion** Liana Giannakopoulou, 2007 This book explores the relationship between ancient Greek sculpture and modern Greek poetry between 1860 and 1960 It examines in some detail poems by Vasileiadis Rangavis Palamas Cavafy Sikelianos and Seferis and shows how these poets appropriate the art of sculpture and in what ways this contributes to our understanding of each poet's poetics Ancient Greek sculpture and sculptural imagery related to it are inevitably associated with the Classical heritage and bring the issue of ancient tradition and its relation to the modern artist into a prominent position What is more sculpture is particularly important for the erotic dimension through which the poets perceive their relation with art and each poet systematically uses the image of the sculptor to define his perception of the artist In both cases the myth of Pygmalion may be seen as successfully embodying each poet's relation with art and tradition **Reading Rilke's Orphic Identity** Erika M. Nelson, 2005 Studies in Modern German and Austrian Literature publishes research and scholarship devoted to German and Austrian literature of all forms and genres from the eighteenth century to the present day The series promotes the analysis of intersections of literature with thought society and other art forms such as film theatre autobiography music painting sculpture and performance art *The Tao and the Logos* Longxi Zhang, 1992-04-17 Questions of the nature of understanding and interpretation hermeneutics are fundamental in human life though historically Westerners have tended to consider these questions within a purely Western context In this comparative study Zhang Longxi investigates the metaphorical nature of poetic language highlighting the central figures of reality and meaning in both Eastern and Western thought the Tao and the Logos The author develops a powerful cross cultural and interdisciplinary hermeneutic analysis that relates individual works of literature not only to their respective cultures but to a combined worldview where East meets West Zhang's book brings together philosophy and literature theory and practical criticism the Western and the non Western in defining common ground on which East and West may come to a mutual understanding He provides commentary on the rich traditions of poetry and poetics in ancient China equally illuminating are Zhang's astute analyses of Western poets such

as Rilke Shakespeare and Mallarmé and his critical engagement with the work of Foucault Derrida and de Man among others Wide ranging and learned this definitive work in East West comparative poetics and the hermeneutic tradition will be of interest to specialists in comparative literature philosophy literary theory poetry and poetics and Chinese literature and history

The Style of Connectedness Thomas Moore, 1987 Thomas Pynchon's Gravity's Rainbow arguably one of the greatest works of fiction in this century has often been considered despairing absurdist or nihilistic Now in a monumental effort to make Pynchon's work more accessible Thomas Moore surveys all the major and often confusing backgrounds in Gravity's Rainbow from archaic myths to quantum physical theory from romantic thought to rocket technology from seventeenth century Puritanism through the ideas of Weber Jung and Marshall McLuhan to the worlds of Weimar and Hollywood movies to help Pynchon's reader understand the weird frightening funny lyrical surreal and ultimately hopeful cosmos of Pynchon's fictions By exploring the novel's internal strategies and its brilliant integrations of background information Moore illustrates how Gravity's Rainbow remains movingly humane as its author the agonized mediator of a bewildering field of cultural information remains excruciatingly sensitive to every human image and gesture searching for the chances for love and connection that still hide in the vast designs of things The reader of Moore's work should emerge with a thorough appreciation of Pynchon's unique style of genius of his optimism of his intense moralism and of the justness of the widespread claim that Pynchon is the most brilliant encyclopedic writer of fiction since Joyce
