The Lost Mary James D. Tabor,2025-09-30 A world renowned historian of early Christianity and ancient Judaism lifts the veil on the life of Mary revealing her revolutionary role as the matriarch of the Jesus movement Tabor restores her voice her faith her motherhood and most of all her humanity in this groundbreaking portrait that challenges everything we thought we knew about the origins of Christianity Reza Aslan author of Zealot Mary mother of Jesus is the best known and least known woman in history Revered and worshipped by millions she remains a figment of the imagination the ethereal subject of Raphaels and Botticellis bathed in heavenly light too virginal and pure to move among us But what about the real Mary The young Jewish woman and single mother of eight five boys and three girls The defiant citizen of Roman occupied Galilee who survived through one of the most dangerous periods of Jewish history an ancient game of thrones that claimed the lives of three of her sons Jesus and Simon by crucifixion James by stoning The historical Mary whose teachings and courageous example may in fact make her the first founder of what we now call

Christianity This Mary has not only been lost to us she has been systematically erased over the past two millennia by a theological cultural and political program intent on removing her from the human realm and marginalizing her womanhood motherhood and Jewishness In *The Lost Mary* James D Tabor corrects the record laying out the results of his intensive textual and archaeological sleuthing over the past three decades including new evidence regarding Mary s genealogy which may be hiding in plain sight in the New Testament Tabor s quest for the historical Mary offers a transformative perspective on Jesus and his early followers and recovers the nature and essence of earliest Christianity

Against International Relations Norms Charlotte Epstein, 2017-05-08 This volume uses the concept of norms to initiate a long overdue conversation between the constructivist and postcolonial scholarships on how to appraise the ordering processes of international politics Drawing together insights from a broad range of scholars it evaluates what it means to theorise international politics from a postcolonial perspective understood not as a unified body of thought or a new ism for IR but as a situated perspective offering ex centred post Eurocentric sites for practices of situated critique Through in depth engagements with the norms constructivist scholarship the contributors expose the theoretical epistemological and practical erasures that have been implicitly effected by the uncritical adoption of norms as the dominant lens for analysing the ideational dynamics of international politics They show how these are often the very erasures that sustained the workings of colonisation in the first place whose uneven power relations are thereby further sustained by the study of international politics The volume makes the case for shifting from a static analysis of norms to a dynamic and deeply historical understanding of the drawing of the initial line between the normal and the abnormal that served to exclude from focus the strange and the unfamiliar that were necessarily brought into play in the encounters between the West and the rest of the world A timely intervention it will be of great interest to students and scholars of international relations international relations theory and postcolonial scholarship

Run, David, Run! Steven T. Mann, 2013-04-15 In this book Steven Mann highlights the role of theology in the story of David s departure and return as told in 2 Samuel 14 20 Mann s method of narrative analysis employs a philosophy of language called speech act theory His primary interest is ways in which speech act theory has been applied to biblical narrative and he concentrates specifically on speech acts that include theological propositional content that is words used to denote God In this way Mann analyzes the theological speech acts of the narrative and then suggests a way to view the narrative itself as a speech act The thesis of this study is that speech act theory illuminates the integral role of theology in the story of David s departure and return Theology is not merely one aspect of the story but is in fact a catalyst necessary to the plot Furthermore the act of telling the story as 2 Sam 14 20 does is the very act of portraying David s faith in Yhwh David s speech acts demonstrate that he believes that Yhwh is someone who intervenes and who finds ways to bring his banished ones back to him The narrative portrayal of David s faith can be understood as an illocutionary act with the potential effect of encouraging an audience a
