

River Flow

As we move
towards the sea,
our face becomes green
from battling gravity as it pulls us
and knocks us down.

Slowly moving
towards the Atlantic,
the tide flows in us
like the river flows.

Every day as the sun rises
the night ends up replacing;
the last moon doesn't reappear.
Earth keeps spinning,
we keep flowing too
until the rivers and oceans
or earth waters are all dried.

Diaspora and Law Liliana Ruth Feierstein, Daniel Weidner, 2023-09-18 Today law is no longer homogenous or unquestioned Different overlapping legal systems constantly interfere with one another both on an international level in complex transnational contexts such as the European Union or human rights law but also in the context of cultural diversity or conflicts between religious norms and civil institutions between minorities and the power of the state On the other hand the neutrality of law is also under growing pressure be it from different global transnational players or from within nation states where calls are made to adapt law to the will of the people The heated European debate on the refugee crisis has made it manifest that law is more necessary than ever and yet fundamentally contested perhaps even caught in contradictions and self limitations At the same time the current perspective on legal problems allows us to address issues of diversity and the role of Europe in the globalized world more clearly The articles of this book take these recent developments and debates as a starting point to discuss from the perspective of different disciplines the pressing question of how to live together in the new millennium and how to figure the long history of law before besides and after the dominant paradigm of state law
