River Killers:

The Riverman Robert Keppel, 2010-06-15 After a search of over twenty years one of America's most elusive serial killers was finally apprehended. Now read the true story of one man's attempt to get inside the mind of the Green River Killer. July 15, 1982: A woman's strangled body was found floating in the pilings of Washington state's Green River. Before long the Green River Killer would be suspected in at least forty-nine more homicides with no end in sight. Then the authorities received an unbelievable letter from the infamous serial killer Ted Bundy then on Florida's death row offering to help catch the Green River Killer. But he would only talk to one man: Robert Keppel, the former homicide detective who had helped track Bundy's cross-county killing spree. Now these conversations are revealed in which Bundy speculates about the motive and methods of the Green River Killer and reveals his own twisted secrets as well. Now, as never before, we look into the face of evil and into the heart of a killer.

Green River, Running Red Ann Rule, 2004-10-31 In the most extraordinary book Ann Rule has ever undertaken, America's master of true crime has spent more than two decades researching the story of the Green River Killer who murdered more than forty-nine young women. The quest to discover the most prolific serial killer in American history has been an intimate part of Ann Rule's life with some of the corpses found only a mile or so from where she lived and raised her own daughters. She did not know the killer, but he apparently knew her and attended many of her book signings. For twenty-one years the killer carried out his self-described career as a killing machine, ridding the world of women he considered evil. His eerie ability to lure his victims to their deaths and hide their bodies made him far more dangerous than any infamous multiple murderer in the annals of crime. A few men, including a law student, a truck painter, and a taxi driver, eventually emerged as the prime suspects among an unprecedented forty thousand scrutinized by the Green River Task Force. Still, there was no physical evidence linking any of them to the murders until 2001 when investigators used a new DNA process on a saliva sample they had preserved since 1987 with stunning results. Ann Rule has followed the case since July 1982 when the first body, that of teenager Wendy Lee Coffield, was found in the Green River, snagged on pilings under a bridge. Rule has compiled voluminous files, working through an incredible 95,000 pages of official police records, transcripts, photographs, and maps, winnowing out the chaff and identifying what is truly important. Over the years she gained unparalleled access to all the key players, from King County Sheriff Dave Reichert to those close to the killer and his victims. When finally apprehended and convicted, the killer made a detailed confession of his twisted sexual obsessions that will shock even the most jaded reader. *Green River, Running Red* is a harrowing account of a modern monster, a killer who walked among us undetected. It is also the story of his quarry, of who these young girls were and who they might have become. A chilling look at the darkest side of human nature, this is the most important and most personal book of Ann Rule's long career.

Serial Murder and Media Circuses Dirk C. Gibson,2006-07-30 The Axman of New Orleans specialized in killing grocers of Italian descent in the 1910s apparently to promote jazz music Dorothea Puente was a little old landlady who

murdered her tenants but kept cashing their government checks The Manson Family terrorized California in the 1960s as did the Hillside Stranglers a decade later Twelve serial murder cases occurring in eight decades between the 1890s and 1990s had one thing in common significant presence of the mass media This book examines these specific cases of serial murder and the way the media became involved in the investigations and trials of each Gibson argues that the American media plays a multidimensional and integral role in serial killings and their investigation and that this role is not generally a positive one Serial murder cases motivate the media in unfortunate ways and the result is that even typically respectable media organizations can be involved in such things as document theft or in interfering with the capture of serial murderers on the run This link between multiple murderers and mass communication is not accidental or coincidental rather the relationship between the press and serial killers is one of extraordinary importance to both parties Gibson examines the role of the media in serial murder cases the body of knowledge on serial murder as seen through the lens of mass communication the effectiveness of law enforcement responses to serial murderers and how they might be improved if the mass communication influence was better understood the magnitude of the serial murder problem and the interaction between the media the killers and serial murder investigations Specific examples and numerous quotes are provided throughout to illustrate this strange and detrimental relationship between media and serial murderers

The Evil 100 Martin Gilman Wolcott, 2004 Who was the evilest of the evil the baddest of the bad For armies of armchair thrill seekers and shudder hounds everywhere The Evil 100 presents a cold heartless ranking of the world's 100 most malevolent people past and present Including well known figures from Stalin to Jack the Ripper to Bin Laden obscure characters like King Astyges who punished a servant by feeding the man his own son and evil organisations such as the Klu Klux Klan This makes for more than a simple catalogue of atrocities it is a serious examination of the darker side to human nature

The Serial Killer Files Paul Simpson, 2017-05-18 There are many myths about serial killers that they are all dysfunctional loners all white males only motivated by sex that they all travel and operate across a wide area cannot stop killing are all insane or evil geniuses and that they all want to get caught Of course there are some serial killers who fit into these categories but the married Green River Killer was not a dysfunctional loner there are plenty of female and non Caucasian serial killers Dr Harold Shipman was certainly not motivated by sex many serial killings such as the Ipswich prostitute murders carried out by Steve Wright happen within a confined area the BTK Killer Dennis Rader stopped killing in 1991 but wasn't caught until fourteen years later Many serial killers may have a low animal cunning or be street smart but few of them are Mensa level geniuses Each of the thirty cases covered here is unusual in some respect perhaps in the way in which the killer carried out their crimes the choice of victims the way in which they were apprehended or the method of their execution The cases are presented alphabetically by country from Australia via Colombia Great Britain Indonesia Iran South Africa and elsewhere to the United States and then chronologically They come from across history and from all over the world The author has gone back as far

as possible to contemporary source material newspaper accounts trial evidence interviews with perpetrators or survivors rather than rely on the increasingly blurred truth to be found online and in far too many collections The Coldest Killers M.D. Sharma,2025-06-02 In a world saturated with crime media this book offers a clear factual exploration of eighteen of history s most notorious serial killers spanning centuries and continents from ancient Rome to modern America Rather than sensationalizing violence it examines the psychological social and systemic factors that contributed to these crimes Each chapter presents the killer s background methods and motives while highlighting broader issues such as childhood trauma mental health failures and law enforcement oversights Figures like Julia Tofana Elizabeth B thory and Samuel Little are studied not for shock value but to extract patterns and lessons relevant today Written in accessible English the book blends historical narrative with thoughtful analysis offering insights for general readers and professionals alike Its ultimate goal is not just to recount horror stories but to foster awareness reform and prevention It s a compelling call to understand the roots of violence so we can strengthen justice and protect the vulnerable Reading Ann Rule Charlotte Barnes,2025-04-15 This book studies the works of Ann Rule aiming to shed light on her literary career as a largely uncelebrated True Crime writer in addition to works by other lesser known female True Crime writers including Alia Trabucco Zer n Katherine Ellison and Caitlin Rother Barnes argues that Rule s works should be regarded as landmarks in True Crime fiction In so doing she critically considers how Rules blended non fiction and fiction to produce character and plot driven works through reliance on figurative language and varied but impactful narrative methodologies Barnes also draws parallels between the success of iconic female writers such as Agatha Christie and Dorothy L Sayers in the Golden Age of detective and crime fiction and considers the similarities differences and connections between these genres
