The American Short-horn Herd Book Lewis Falley Allen, William T. Bailey, 1883 *Merchant Vessels of the United States*, 1989 **Lowrider Space** Ben Chappell, 2012-07-15 Aren't lowriders always gangbangers And don't they always hold high status in their neighborhoods Contrary to both stereotypes the people who build and drive lowrider cars perform diverse roles while mobilizing a distinctive aesthetic that is sometimes an act of resistance and sometimes of belonging A fresh application of critical ethnographic methods Lowrider Space looks beyond media portrayals high profile show cars and famous cruising scenes to bring readers a realistic tour of the ordinary lowriders who turn streetscapes into stages on which dynamic identities can be performed Drawing on firsthand participation in everyday practices of car clubs and cruising in Austin Texas Ben Chappell challenges histories of erasure containment and class immobility to emphasize the politics of presence evidenced in lowrider custom car style Sketching out a partially personal map of the lowrider presence in Texas's capital city Chappell also explores the interior and exterior adornment of the cars

including the use of images of women's bodies and the intersecting production of personal and social space. As he moves through a second hand economy to procure parts necessary for his own lowrider vehicle, on service sector wages, themes of materiality and physical labor intersect with questions of identity, ultimately demonstrating how spaces get made in the process of customizing one's self. *Merchant Vessels of the United States*, United States Coast Guard, 1976. **The Untold Story of the Lower Colorado River Authority**, John Williams, 2016-01-04. Arguably no other institution has transformed the heart of Texas like the Lower Colorado River Authority. Born in the Great Depression of the 1930s, LCRA built a chain of dams and brought predictability to the cycles of extreme droughts and floods that had long plagued Austin and other communities. It also brought hydroelectric power and with that, modern day civilization to the hard scrabble regions of Central and South Texas. With those achievements and the support of powerful political leaders like Lyndon Johnson, LCRA for years was touted as one of the state's major success stories. But LCRA has never been a stranger to controversy, and while it continues to provide much of the energy and water that fuels the economic engine of Austin and beyond, most people know very little about LCRA. In this book, readers will learn about the forces of nature and politics that combined to create LCRA, the colorful personalities who operated, supported or fought with the agency, its spectacular successes, periodic blunders and occasional failures, and its evolution into one of the largest public power organizations in Texas. From *High Noon* to *Unforgiven*, the *A Western* represents the pinnacle of Western filmmaking. More intellectual, ambitious and time consuming than the readily produced *B* or *serial Westerns*, these films rely on hundreds of talented artists. This comprehensive reference work provides biographies and Western filmographies for nearly 1,000 men and women who have contributed to at least three *A Westerns*. These contributors are arranged by their role in film production: Cinematographers, composers, actors, actresses, and directors receive complete biographical treatment; writers whose work was used in at least two *Westerns* are also featured. An appendix lists well-known actors who have appeared in either one or two *A Westerns*, as specified. *Where River Meets Sea*, Lynne Turner, Dieter Tracey, Jan Tilden, William C. Dennison, 2006-03-17. Estuaries are dynamic coastal waterways where salt and fresh water mix. *Where River Meets Sea* describes the value and status of Australia's 974 estuaries and takes readers on a state-by-state tour describing the health, geography, science, management, and ecological functions of these unique coastal waterways. It includes profiles of people and their relationships with estuaries. The book's many photographs, maps, case studies, and diagrams will help Australians to better understand, appreciate, and wisely use these natural areas. Chapters on natural history, coastal science, and management give an understanding of our vast network of pristine and heavily modified estuaries, from isolated tide-dominated estuaries in Australia's tropical north to those shaped by waves in southern temperate waters. Other chapters show how people use and value coastal catchments and waterways, the impacts of human development on natural ecosystems.

and how estuaries can be better managed in future Where River Meets Sea aims to provide Australians with a deeper appreciation of our coastal waterways that are both vital for our economy and precious to our quality of life This is a re issued version of the original work published by the CRC for Coastal Zone Estuary and Waterway Management in 2004
