Panton, 2015-05-07 For much of the nineteenth and early twentieth centuries Britain was the dominant world power its strength based in large part on its command of an Empire that in the years immediately after World War I encompassed almost one quarter of the earth's land surface and one fifth of its population Writers boasted that the sun never set on British possessions which provided raw materials that processed in British factories could be re-exported as manufactured products to expanding colonial markets The commercial and political might was not based on any grand strategic plan of territorial acquisition however The Empire grew piecemeal shaped by the diplomatic economic and military circumstances of the times and its speedy dismemberment in the mid twentieth century was similarly a reaction to the realities of geopolitics in post World War II conditions Today the Empire has gone but it has left a legacy that remains of great significance in the modern world The Historical Dictionary of the British Empire covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Britain

The Nile in Legal and Political Perspective Mahemud E. Tekuya, 2023-10-20 Competition over the Nile watercourse is becoming a global crisis As population growth economic development and urbanization increase the demand for water in the Nile Basin while climate change threatens its supply the region faces a looming water crisis An effective resolution of this multifaceted issue which impacts 11 African countries requires detailed multidisciplinary research Until now the academic discourse regarding the Nile watercourse has been primarily dominated by monodisciplinary studies This book fills that gap providing a retrospective and prospective look at the Nile through multidisciplinary lenses commingling history hydro politics climate change and law It scrutinizes the legal and hydro political trajectories of the Nile Basin from the 4th century A D to 2022 *Land and Hydropolitics in the Nile River Basin* Emil Sandstrom, Anders Jagerskog, Terje Oestigaard, 2016-08-05 The Nile River Basin supports the livelihoods of millions of people in Egypt Ethiopia Sudan and Uganda principally as water for agriculture and hydropower The resource is the focus of much contested development not only between upstream and downstream neighbours but also from countries outside the region This book investigates the water land and energy nexus in the Nile Basin It explains how the current surge in land and energy investments both by foreign actors as well as domestic investors affects already strained transboundary relations in the region and how investments are intertwined within wider contexts of Nile Basin history politics and economy Overall the book presents a range of perspectives drawing on political science international relations theory sociology history and political ecology

The River Nile and Its Economic, Political, Social and Cultural Role Terje Tvedt, 2000 **The Heat and the Fury** Peter Schwartzstein, 2024-09-26 A landmark work on perhaps the essential question of our time David Wallace Wells author of *The Uninhabitable Earth* In this ground breaking book environmental journalist Peter Schwartzstein takes the reader on the first on the ground exploration of climate change s contribution to global conflict From the ravaged villages of Iraq where ISIS has used drought as a recruiting tool and weapon of terror to the pirate ridden waters of Bangladesh and drawing on more than a decade of reporting from dozens of countries Schwartzstein writes about the unexpected ways in which climate change is feeding global unrest and conflict Through the stories of the soldiers farmers spies and others affected around the world he makes sense of a form of conflict that remains poorly understood even as it devastates the lives of so many millions of people While researching this book Schwartzstein was chased by kidnappers detained by police and told in no uncertain terms that he was no longer welcome in certain countries Yet as he recounts these personal brushes with violence are simply a hint of the conflict simmering in our warming world As Schwartzstein s unparalleled reporting shows there s nothing inevitable about climate violence In fact as he sets out the same stresses that are pitching people against one another can even help bring them back together *The League of Nations Experience* Aurora Almada e Santos, Yvette Santos, 2024-12-16 As an early experiment in the creation of multilateral institutions the League of Nations was entrusted by its members to maintain peace but also to be a standard maker and a manager of contemporary problems and challenges requiring a global response Nevertheless after a while it became clear that its performance in addressing major conflicts did not live up to the expectations of guarantying collective security In the functional areas although the organization created precedents it also showed limitations Due to its complexity increasingly the League of Nations has been studied not only from an institutional perspective but also from a more multidimensional and comparative point of view that allows to consider the presence and role of the organization in various scales and spaces besides its relationship with a diversity of actors and themes *The League of Nations Experience Overlapping Readings* offers a multitude of interpretations evincing some of the promising avenues through which the League of Nations continues to inspire academic research *The Oxford Handbook of Modern Egyptian History* Beth Baron, Jeffrey Culang, 2024 Until relatively recently scholars of Egyptian history understood the modern period to begin with the movement of European people and ideas to Egypt s northern shores precipitated by Napoleon s invasion in 1798 From this perspective modern Egyptian history was animated by the diverse and sometimes contradictory ways in which Egyptians responded over time to colonial power and modern forms of knowledge This handbook featuring 26 originally commissioned essays by top scholars in the field adds to a growing literature that complicates the facile colonizer colonized and modern tradition binaries undergirding this view Modern Egyptian history is a continuous process of translation and adaptation invention and reinvention Bringing together a dynamic and accomplished group of historians of Egypt the book maps the present state of modern Egyptian history highlighting the most promising avenues of research and

laying new ground upon which future generations of scholars may build The contributors address both long persisting themes in the field though in new ways as well as new themes reshaping how we understand modern Egyptian history and thus Middle Eastern and global history These include environment family infrastructure intellectuals labor law literature medicine politics popular culture and slavery Within these categories they explore issues of gender race and class The questions these scholars consider reflect pressing contemporary concerns and debates including medical sovereignty and bodily autonomy the management of the environment the rights and movements of workers courts and legal struggles cultural expression production and reception and the relationship between the army state and society

Great Power Politics in Greater Eurasia Rahman Dag,Özgür Tüfekçi,2022-12-27 Great power politics is a practical reality of world politics and it happens on a daily basis regardless of which international system we witness This book seeks to emphasize the ways s these great power politics emerge within greater Eurasia Most researchers consider China becoming powerful enough to counterbalance the US and possible power dynamics among the rising powers such as China India China Russia and China Japan In this sense the book categorizes the battlegrounds in their power politics with three aspects national regional international conflicts institutions alliances and projects

Nature and Empire in Ottoman Egypt Alan Mikhail,2011-04-11 In one of the first ever environmental histories of the Ottoman Empire Alan Mikhail examines relations between the empire and its most lucrative province of Egypt Based on both the local records of various towns and villages in rural Egypt and the imperial orders of the Ottoman state this book charts how changes in the control of natural resources fundamentally altered the nature of Ottoman imperial sovereignty in Egypt and throughout the empire In revealing how Egyptian peasants were able to use their knowledge and experience of local environments to force the hand of the imperial state Nature and Empire in Ottoman Egypt tells a story of the connections of empire stretching from canals in the Egyptian countryside to the palace in Istanbul from the forests of Anatolia to the shores of the Red Sea and from a plague flea s bite to the fortunes of one of the most powerful states of the early modern world

Transforming Sudan Alden Young,2018 This book traces the formation of the Sudanese state following the Second World War through a developmentalist ideology

A History of Water, Series III, Volume 2: Sovereignty and International Water Law Terje Tvedt,Tadesse Kasse Woldetsadik,Owen McIntyre,2015-05-30 As global climate change threatens to change radically both the political and physical climate with regard to water issues so a reassessment of some of the fundamental principles of international water law is emerging One of the most important principles being reassessed is the sovereign equality of states This volume brings together more than thirty leading international water and legal specialists to explore the development and changing relationship between water state sovereignty and international law Offering fresh insights into one of the most pressing issues in global water policy Sovereignty and International Water Law will form an essential reference for water professionals legal specialists and policy makers alike

Imperialism and Economic Development in Sub-Saharan

Africa Simon Mollan,2020-09-09 This book examines the economic and business history of Sudan placing Sudan into the wider context of the impact of imperialism on economic development in sub Saharan Africa From the 1870s onwards British interest s in Sudan began to intensify a consequence of the opening of the Suez Canal in 1869 and the overseas expansion of British business activities associated with the Scramble for Africa and the renewal of imperial impulses in the second half of the nineteenth century Mollan shows the gradual economic embrace of imperialism in the years before 1899 the impact of imperialism on the economic development of colonial Sudan to 1956 and then the post colonial economic legacy of imperialism into the 1970s This text highlights how state centred economic activity was developed in cooperation with British international business Founded on an economic model that was debt driven capital intensive and cash crop oriented the colonial economy of Sudan was centred on cotton growing This model locked Sudan into a particular developmental path that in turn contributed to the nature and timing of decolonization and the consequent structures of dependency in the post colonial era
