River Road to China

Milton Osborne, 2007-12-01 A compelling finely researched account of an adventure that was hailed as one of the grandest explorations of the nineteenth century The Washington Post A New York Times Notable Book In 1866 six Frenchmen set out on a dangerous mission to seek a trade route up the Mekong During the two years that followed they would journey through more than four thousand miles of unmapped territory from the tropical heat of the swamps of Vietnam and Cambodia to the bitter cold of the mountain ranges of southwestern China Their historic expedition is the dramatic subject of *River Road to China* a story of courage endurance and determination in the face of unpredictable dangers and near insurmountable odds This edition has been updated to include a new postscript by the author and more than thirty full color illustrations by the expedition's artist The highest of high adventure Osborne's documentation is flawless The New Yorker As exciting as it is historically illuminating A tale of heroism that has seldom been duplicated spurred by the continuing fatal attraction of the Great River The New Republic

The Mekong: A Socio-legal Approach to River Basin Development Ben Boer, Philip Hirsch, Fleur Johns, Ben Saul, Natalia Scurrah, 2015-12-22 An international river basin is an ecological system an economic thoroughfare a geographical area a font of life and livelihoods a geopolitical network and often a cultural icon It is also a socio legal phenomenon This book is the first detailed study of an international river basin from a socio legal perspective The Mekong River Basin which sustains approximately 70 million people across Cambodia China Laos Myanmar Thailand and Vietnam provides a prime example of the socio legal complexities of governing a transboundary river and its tributaries The book applies its socio legal analysis to bring a fresh approach to understanding conflicts surrounding water governance in the Mekong River Basin The authors describe the wide range of uses being made of legal doctrine and legal argument in ongoing disputes surrounding hydropower development in the Basin putting to rest lingering caricatures of a single ASEAN way of navigating conflict They call into question some of the common assumptions concerning the relationship between law and development The book also sheds light on important questions concerning the global hybridization or crossover of public and private power and its ramifications for water governance With current debates and looming conflicts over water governance globally and over shared rivers in particular these issues could not be more pressing

Asian Borderlands Charles Patterson Giersch, 2006 With comparative frontier history and pioneering use of indigenous sources Giersch provides a groundbreaking challenge to the China centered narrative of the Qing conquest He focuses on the Tai domains of the Yunnan frontier on the politically fluid borderlands where local indigenous leaders were crucial actors in an arena of imperial rivalry

Negotiated Power in Late Imperial China

Jennifer Rudolph, 2010-02-28 Negotiated Power in Late Imperial China The Zongli Yamen and the Politics of Reform explores

the nature and functioning of reform during the nineteenth century of China's Qing dynasty 1644-1911. By analyzing the bureaucratic modes of management that developed around the creation and evolution of the Zongli Yamen or Foreign Office 1861-1901, the book demonstrates the vitality of not only the Chinese State but also the institutional traditions of its Manchu rulers. Drawing on precedent and the flexibility of the administrative system in their efforts to manage the conduct of foreign affairs, high Qing ministers transformed opportunities for institutional dynamism into the reality of a functioning central Zongli Yamen with a foreign affairs field administration supporting it in the provinces. In the process, they altered the governmental hierarchy and changed the definition of institutional power in the multi-faceted area of foreign affairs and more generally for the Qing bureaucracy. As the most significant example of institutional development in China's critical period of the nineteenth century, the Zongli Yamen's experience serves as valuable background for understanding reform efforts in late imperial China and beyond.

Regionalism in China-Vietnam Relations Oliver Hensengerth, 2009-09-10. This book analyses collaboration in the Greater Mekong Subregion. It explores inter-state cooperation and the role of subnational units, provincial and local governments, and transnational actors, NGOs, firms, in building and maintaining the subregion. It also considers the relationships between actors on the three levels, their influences within the structures of decision-making in the GMS, their policy pronouncements, and roles in the GMS. After exploring the historical background of cooperation in the GMS, the author discusses how far cooperation in the GMS has developed from the mere promotion of the national interest of individual states towards an institution as an independent actor able to influence relationships between its member states instead of only being influenced by them. Hensengerth scrutinises the nature of GMS cooperation and the character and capabilities of the institution of the GMS, exemplified by the bilateral relations between China and Vietnam. Here, the study will combine the analysis of subregionalism and institution building in

the GMS with an analysis of China Vietnam relations by combining theoretical approaches to regional integration in the form of the regime approach with foreign policy analysis This book will appeal to academics within international relations Southeast Asian regional and China or Vietnam country specialists River Road Through Laos James A. Hafner, Joel Martin Halpern, Barbara Kerewsky- Halpern, 1986 *The Range of the River* Iftekhar Iqbal, 2025-12-02 Spanning nearly 4 million square kilometers the Tibetan river system including the Brahmaputra Irrawaddy Salween Mekong Red and Yangzi forms the largest contiguous network of rivers on the planet stretching across eastern South Asia mainland Southeast Asia and southern China The Range of the River uncovers the entwined histories of these vast waterways and the empires human actors and other than human forces that have shaped Asia since the 1850s Both ethnodiverse and biodiverse these rivers were more than contested imperial spaces they were also channels of communal and material exchange linking near and distant contact zones They fostered connections across Asia driving commerce mobility and cultural encounters that transformed them into shared living commons bridging societies political powers and economic interests Tracing six major rivers across eight countries Iftekhar Iqbal argues that these river systems formed the core of a discursive space where empires regional political forces ethnic groups boaters peddlers explorers merchants and mules encountered each other in layered meanings and movements This groundbreaking book reimagines the river not as merely a tool of empire but as a dynamic force in itself shaping a truly transregional Asia By weaving together diverse riverine life worlds The Range of the River invites us to rethink Asia s spatial history *Cambodia Captured* Jim Mizerski, 2016-01-01 This book accurately chronicles the creation of the French Protectorate of Cambodia through the accounts of the people who actually participated in its inception and in the context of the political intrigues of that time and place involving Cambodia Siam France and Great Britain In the same decade of the 1860 s two other related treaties complicated and then resolved the protectorate treaty Drawing on the same historical context this new book commemorates the 150th anniversary in 2016 of the beginning of photography in Cambodia presenting over 145 rare engravings maps and the remarkable first photographs captured at Angkor and Phnom Penh by John Thomson and Emile Gsell decades before photographic film was even invented On February 26 1866 John Thomson arrived at Angkor Wat to capture the first photographs there Four months later Emile Gsell s historic photographs at Angkor also marked the beginning of the French expedition led by Commander Doudart de Lagr e to explore the then uncharted Mekong River from Cambodia to the north of China one of the great and most courageous expeditions of exploration in recent centuries In the end France captured Cambodia Siam captured Angkor King Norodom captured the crown and the throne of Cambodia and for at least a short time the independence of the kingdom John Thomson and Emile Gsell captured the first photographs at Angkor and Ernest Doudart de Lagr e was captured by duty adventure and the affection of a little Cambodian boy named Chhun Before the Killing Fields Leslie Fielding, 2007-10-24 This is a gripping portrait of a country poised between peace and war In the mid 1960s Cambodia s position within South East Asia was highly

vulnerable The Americans were embroiled in war in Vietnam the Viet Cong were gaining clandestine control over Cambodian frontier areas while the Cambodian government under the leadership of a charming but difficult Head of State Prince Norodom Sihanouk wanted nothing more than to preserve their neutrality and keep out of the war Highly distrustful of any perceived foreign interference the Cambodians had even rioted and attacked the American and British Embassies in Phnom Penh and their debris was still strewn on the streets when Leslie Fielding arrived in the city Yet against this grim and dramatic backdrop the daily round of international foreign policy somehow had to continue and Before the Killing Fields offers a compelling and fascinating account of how this was achieved As well as a political history this is also a portrait of an exotic but overlooked country at a critical stage in its development Violence intrigue and even the supernatural mingle with issues of day to day management and office morale From diplomatic meetings conducted in opium dens and dancing lessons with beautiful princesses at the Royal Palace to candid portraits of the rest of the international community of Phnom Penh Before the Killing Fields is an illuminating insight into a lost world

Colonial Cambodia's 'Bad Frenchmen' Gregor Muller, 2006-04-07 Colonial Cambodia's Bad Frenchmen provides a captivating analysis of the gradual establishment of French colonialism in the late nineteenth century Drawing on new materials from French Vietnamese and Cambodian archives it reconstructs a time during which France struggled to give meaning and substance to its Protectorate over Cambodia It traces the lives of failed colonists most notably Thomas Caramen who all constituted a challenge to the colonial enterprise by muddling its social cultural and racial boundaries In its consideration of the critical role played by these colonists this compelling book shifts away from governor generals grand discourses and the simple view of colonialism as colonizers versus colonized to explore how things actually worked themselves out on the ground It examines in particular the civilizing mission and educational initiatives the slow destruction of the indigenous justice system the policing of sexual relations between colonisers and colonized the theft of Cambodian land and taxes by the colonizing power and the brutal repression of resistance wherever and whenever it appeared Overall Muller reveals the crucial role played by indigenous middlemen and marginal Europeans in the rise of the colonial state and tells the fascinating tale of a Frenchman who came to represent everything that the colonial state dreaded
