Hutchinson,2015-06-16 This book is about discovering the hidden and horrific events and the bravery that lay behind my idyllic childhood in rural Suffolk from the end of World War Two Parental discord led to a permanent parental rift but rightly or wrongly I came to accept that as par for the course It was only later in life that I looked deeper into my family roots and had began to question the assumptions that I had bought into when I was younger that I came to discover that my late mother had escaped from Nazi occupied Austria just prior to the commencement of the war and played a crucial role in the war effort Likewise I learnt that my late dad had become orphaned in his earlier teens and that his sister and brothers had struggled to bring him home from the workhouse More of Dad s side of the story including his crucial role in the D day landings will follow in the sequel to this book The Routledge Companion to Art in the Public Realm Cameron Cartiere,Leon Tan,2020-10-19 This multidisciplinary companion offers a comprehensive overview of the global arena of public art It is organised around four distinct topics activation social justice memory and identity and ecology with a final chapter mapping significant works of public and social practice art around the world between 2008 and 2018 The thematic approach brings into view similarities and differences in the recent globalisation of public art practices while the multidisciplinary emphasis allows for a consideration of the complex outcomes and consequences of such practices as they engage different disciplines and communities and affect a diversity of audiences beyond the existing art world The book will highlight an international selection of artist projects that illustrate the themes This book will be of interest to scholars in contemporary art art history urban studies and museum studies
