Abbey,2014-11-20 I have counted in the last ten miles three hundred sixty two wagons which in the States cost about 120 each The cause of so many wagons being abandoned is to endeavor to save the animals and reach the end of the journey as soon as possible by packing through the loss of personal goods is a matter of small importance comparatively Between 1846 and 1869 more than 400 000 settlers took the perilous journey across the wide and wild spaces of the Western United States to settle in the coastal territories James Abbey was just one of them and he kept a journal of the trip The sheer determination foolishness or a combination of both that motivated pioneers to uproot their lives and families and risk it all is exemplified in Abbey s statement above Once on the trail there was often no going back and great sacrifices were exacted to reach the

destination This long forgotten out of print book is available for e readers for the first time Journey back in time with Abbey and find out just how hard it was how much it cost in hard earned dollars and what the rewards were He published this record in his words Being a daily record of incidents of the trip over the plains the desert and the mountains sketches of the country distances from camp to camp etc And containing valuable information To emigrants As to where they will find wood water and grass at almost every step of the journey Be sure to LOOK INSIDE or download a sample Congressional Record United States.
