A Natural History of Oregon's Lake Abert in the Northwest Great Basin Landscape Ron Larson, 2023-12-12 A beautifully detailed exploration of flora and fauna Author Ron Larson offers a natural history of a Great Basin landscape that focuses on the northern region including Lake Abert and Abert Rim and the adjacent area in southcentral Oregon Although the jewel of this landscape is a lake the real story is the many plants and animals from the very primitive reddish bacteria like archaea that thrive only in its high salinity waters to the Golden Eagles and ravens that soar above the desert The untold species in and around the lake are part of an ecosystem shaped by ageless processes from massive lava flows repeated drought and blinding snowstorms It is an environment rich with biotic and physical interconnections going back millions of years The Great Basin and in particular the Lake Abert region is special and needs our attention to ensure it remains that way We must recognize the importance of water for Great Basin ecosystems and the need to manage it better and we must acknowledge how rich the Great Basin is in natural history Salt lakes wherever they occur are valuable and provide critically important habitat for migratory water birds which are unfortunately under threat from upstream water diversions and climate change Larson's book will help people understand that the Great Basin is unique and that wise stewardship is necessary to keep it unspoiled The book is an essential reference source drawing together a wide range of materials that will appeal to general readers and researchers alike

These are the places that demonstrate the unique character of Oregon and its inhabitants' natural wonders, manmade wonders, and others that just make you wonder. **The Park Builders** Thomas R. Cox, 2011-04-21. Among the greatest attractions of the Pacific Northwest are its state parks, campgrounds, and tree-lined highways. From Idaho hot springs to the Oregon coast, millions of people enjoy this priceless legacy every year, but few stop to think about the source of this bounty. The Park Builders profiles the men who provided the parks and the times that shaped them. From its beginnings as part of the progressive crusades to its evolution into an expected function of state government, the state parks movement in the Northwest is a window onto the political and social developments of the twentieth century. The states of Washington, Idaho, and Oregon were generally in the mainstream of the parks movement, but each of their histories is unique. Taken together, they help to define the nature and limitations of regionalism in the Northwest. Especially in the early years, the story of state parks was largely the story of individuals. Drawing extensively from interviews and personal papers, Thomas Cox creates memorable pictures of parks activists in each state. Robert Moran, creator of the battleship, Nebraska, spent a decade lobbying the state of Washington to accept his magnificent acreage on Orcas Island. Sam Boardman went from a road crew to the head of Oregon's park system and took up his mission with a zeal that was literally religious. To me, a park is a pulpit, he wrote. The more you keep it, as he made it, the closer you are to Him. In Idaho, Senator Weldon Heyburn, no proponent of state expenditures, set out to create a national park and ended up with a premier state park named for him. State parks serve more people at far less expense than do those in the National Park System. Since their fates are determined largely at the state level, they are an ideal venue for the study of grassroots activism and regional trends. This book is the first to collect these themes into a coherent whole. It will serve as a model for further regional studies of its kind.

The Sagebrush Curtain Melvin Adams, 2019-08-08. This book contains a diversity of natural and human stories about the southeast quarter of Oregon state, an area seemingly empty and barren to many people driving through it. This surprising view of the region features the botany, geology, wildlife, and history of the area, wrapped in a memoir of the author's youth spent there. Born in the sagebrush community of Lakeview in 1941, the author moved on following high school graduation. But, as with many native sons and daughters from out of the way places, the urge to return to his roots proved irresistible. I endeavored to write this collection about the Oregon desert because of my childhood there, says Adams, but also because it is a place of startling mystery, subdued danger, and beauty. **The Oregon Almanac** Andrea Jarvela, 2000. Packed to the gills with fact-filled bits of information and trivia, this pocket-sized almanac is the perfect reference for those interested in the regional history, natural geography, economy, and people of Oregon. Illustrations and photos, 12 maps. **American Cowboy**, 2006-03. Published for devotees of the cowboy and the West, American Cowboy covers all aspects of the Western lifestyle.
