Roaring Twenty:

The Roaring Twenties Stuart A. Kallen, 2002 A thought provoking collection of essays about life in the United States during the 1920s **Handbook of the American Novel of the Twentieth and Twenty-First Centuries** Timo Müller, 2017-01-11 Increasing specialization within the discipline of English and American Studies has shifted the focus of scholarly discussion toward theoretical reflection and cultural contexts These developments have benefitted the discipline in more ways than one but they have also resulted in a certain neglect of close reading As a result students and researchers interested in such material are forced to turn to scholarship from the 1960s and 1970s much of which relies on dated methodological and ideological presuppositions The handbook aims to fill this gap by providing new readings of texts that figure prominently in the literature classroom and in scholarly debate from James s The Ambassadors to McCarthy s The Road These readings do not revert naively to a time before theory Instead they distil the insights of literary and cultural theory into concise introductions to the historical background the themes the formal strategies and the reception of influential literary texts and they do so in a jargon free language accessible to readers on all levels of qualification

Prosperity ethics Johann Walters, J.M. Vorster, 2021-11-30 The paradigm shift from modernism to post modernism and the Fourth Industrial Revolution poses enormous challenges to universal moral codes and human life today The thesis of this manuscript is that human prosperity in the broad sense of human flourishing in this new environment could be enhanced by re defining and applying universal moral codes and practising related habits to guide people to prosper and flourish as dignified human beings In a relevant and vigorous discourse the book engages with issues regarding morality in an age of high technology It explores ways in which moral agents can contribute to leading post modernist people into an environment where humans can prosper and enjoy life in a changing world where many old moral directives are not feasible anymore This scholarly book contributes to the specific scientific discourse on studies regarding the relevant discipline and offers a new pattern of reasoning in the field of social ethics about moral agency aiming purposefully to address particular virtues and applicable habits beneficial for human prosperity and dignified life in a changing social environment From the perspective of applied methodology the book is the result of a comparative literary study done from the perspective of universal moral codes which flows from in created natural law Recent research results of empirical studies about the effects of the Fourth Industrial Revolution were consulted and applied to raise awareness of the deep rooted changes and challenges in society today **Full Circle** Thomas A. Chown, 2010-07-04 Full Circle is the second book in a trilogy depicting the Devon family s generational odyssey from mid 19th century to mid 20th century The first book Wolves at the Door covers the years 1860 1903 This book Full Circle is set in the years 1904 1944 which were not easy for the Devons Father Tom and mother Catherine along with their two children Walter and Marion struggle to make their way through some of the more pivotal events of the early 20th century Full Circle offers a well researched slice of Americana during an uproarious time Follow the

Editor for Justice Alexander S. Leidholdt, 2002-05-01 From his assumption of the Norfolk Virginian Pilot's editorial helm in 1919 until his death in 1950 Louis Isaac Jaff served as one of the South's leading and most respected liberal journalists Prejudice he faced as a Jew created in him an abiding empathy with the downtrodden and his World War I military service and subsequent Red Cross work deepened his sensitivity to injustice Alexander Leidholdt's new biography maps the battlefield of intolerance and civil rights violations on which Jaff fired his journalistic salvos and explores the complexities of a man who was poised to become a national spokesman for a better South Jaff worked ceaselessly to advance racial understanding successfully lobbying locally for black parks and beaches black police and a black college A high point of Leidholdt's book is the account of Jaff's attacks on mob justice a stirring record of one writer's response to what he saw as inexcusable moral sluggishness in civil authorities For his campaign urging Virginia lawmakers to adopt stiff antilynching legislation he earned the 1929 Pulitzer Prize for distinguished editorial writing Achieving a poignant balance between Jaff's significant professional accomplishments and the private pains he bore including anti-Semitism a mentally unstable wife and an estranged son this superb study demonstrates how Jaff's difficulties limited him as an active liberal reformer but also fueled his prescient and impassioned warnings against Hitler's rise to power in the early thirties Drawing extensively from primary source material much of it previously unexamined Editor for Justice makes an important contribution to journalism and to southern Jewish and black history Readers will treasure the depiction of an extraordinary champion of human rights
