Robert And James Adams Birth Of Style:

A History of Interior Design John F. Pile, 2005 Delivers the inside story on 6 000 years of personal and public space John Pile acknowledges that interior design is a field with unclear boundaries in which construction architecture the arts and crafts technology and product design all overlap

The 17th and 18th Centuries Frank N. Magill, 2013-09-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography

Reading Architectural History Dana Arnold, 2003-09-02 Architectural history is more than just the study of buildings Architecture of the past and present remains an essential emblem of a distinctive social system and set of cultural values and as a result it has been the subject of study of a variety of disciplines But what is architectural history and how should we read it Reading Architectural History examines the historiographic and socio cultural implications of the mapping of British architectural history with particular reference to eighteenth and nineteenth century Britain Discursive essays consider a range of writings from biographical and social histories to visual surveys and guidebooks to examine the narrative structures of histories of architecture and their impact on perception and understanding of the architecture of the past Alongside this each chapter cites canonical histories juxtaposed with a range of social and cultural theorists to reveal that these writings are richer than we have perhaps recognised and that architectural production in this period can be interrogated in the same way as that from more recent past and can be read in a variety of ways The essays and texts combine to form an essential course reader for methods and critical approaches to architectural history and more generally as examples of the kind of evidence used in the formation of architectural histories while also offering a thematic introduction to architecture in Britain and its social and cultural meaning

Furniture Index, 1922 **Henry James and the Promise of Fiction** Stuart Burrows, 2023-11. What is the relation between the novel and ethical thought? Henry James and the Promise of Fiction argues that the answer to this question lies not in the content of a work of fiction but in its form. Stuart Burrows explores the relationship between James's ethical vision and his densely metaphorical style, his experiments with narrative time, and his radical reimagining of perspective. Each chapter takes as its starting point a different aspect of an issue at the heart of moral philosophy: the act of promising. Engaging with a range of moral philosophers and literary theorists, most notably David Hume, Friedrich Nietzsche, Paul Ricoeur, and Jacques Derrida, Henry James and the Promise of Fiction argues that James's formal experimentation represents a significant contribution to ethical thought in its own right. *English Furniture from Gothic to Sheraton* Herbert Cescinsky, 1929. *The New Encyclopaedia Britannica*, 2005. **The London Gazette** Great Britain, **A Dictionary of British and Irish Travellers in Italy, 1701-1800** John Ingamells, 1997-01-01.
