

The Lost Love

His eyes are quickened so with grief,
He can watch a grass or leaf
Every instant grow; he can
Clearly through a flint wall see,
Or watch the startled spirit flee
From the throat of a dead man.
Across two counties he can hear,
And catch your words before you speak.
The woodlouse or the maggot's weak

Clamour rings in his sad ear;
And noise so slight it would surpass
Credence: — drinking sound of grass,
Worm-talk, clashing jaws of moth
Chumbling holes in cloth:
The groan of ants who undertake
Gigantic loads for honour's sake —
Their sinews creak, their breath comes thin:
Whir of spiders when they spin,
And minute whispering, mumbling, sighs
Of idle grubs and flies.

This man is quickened so with grief,
He wanders god-like or like thief
Inside and out, below, above,
Without relief seeking lost love.

The Poetry of Raymond Carver Sandra Lee Kleppe, 2016-02-24 Best known as one of the great short story writers of the twentieth century Raymond Carver also published several volumes of poetry and considered himself as much a poet as a fiction writer Sandra Lee Kleppe combines comparative analysis with an in depth examination of Carver s poems making a case for the quality of Carver s poetic output and showing the central role Carver s pursuit of poetry played in his career as a writer Carver constructed his own organic literary system of autopoetics a concept connected to a paradigm shift in our understanding of the inter relatedness of biological and cultural systems This idea is seen as informing Carver s entire production and a distinguishing feature of Kleppe s book is its contextualization of Carver s poetry within the complex literary and scientific systems that influenced his development as a writer Kleppe addresses the common themes and intertextual links between Carver s poetry and short story careers situates Carver s poetry within the love poem tradition explores the connections between neurology and poetic memories and examines Carver s use of the elegy genre within the context of his terminal illness Tellingly Carver s poetry which has aroused slight interest among literary scholars is frequently taught to medical students This testimony to the interdisciplinary implications of Carver s work suggests the appropriateness of Kleppe s culminating discussion of Carver s work as a bridge between the fields of literature and medicine
