than an explanation of anti-Semitism and why Heinrich Heine felt an urgent need to distance himself from his fellow liberal Jewish critic Ludwig Büchner. The works collected here, many of which were originally published in forums such as the New York Review of Books, London Review of Books, the Times Literary Supplement, The Nation, Harper's Magazine, and the Jewish Review of Books, have earned Reitter his reputation as a witty, erudite, and deeply illuminating critic.

*Mental Processes and Narrative Possibilities in the German Novelle, 1890-1940* David Turner, 2005. Although it concentrates on a particular historical period and although it examines a variety of individual works, many of them acknowledged Novellen, this study is neither an historical survey nor a collection of interpretations. Its distinctive approach is taxonomical and comparative. Taking as its starting point the surge of interest in the human mind as the nineteenth century drew to a close, it examines the kinds of shorter narrative that were generated by that interest. On the other hand, therefore, it investigates how, by focusing on particular aspects of the mind, writers were led to adopt certain narrative patterns or structures, and on the other hand, building on the work of Dorrit Cohn but extending her range considerably, it explores and evaluates the different modes of presentation which writers exploited as they sought to give life to the inner workings of their characters. According to some, psychology and the Novelle are incompatible. Although the investigation concludes that there is no inherent incompatibility between psychological interest and the aims of the Novelle, it also demonstrates that psychological interest in shorter narratives does not always lead to Novellen; it explores other narrative structures that may arise when particular models of the mind form their basis.

*The Culture of the Case* Frederic J. Schwartz, 2023-06-13. How artists in twentieth-century Germany adapted the idea of the medical or legal case as an artistic strategy to push to the fore sexualities, scandals, and crimes that were otherwise concealed. In early twentieth-century Germany, the artistic avant-garde borrowed procedures from the medical and juridical realms to expose and debate matters that society preferred remain hidden and unspoken. Frederic J. Schwartz explores how the evocation or creation of a case provided artists with a means to engage themes that ranged from blasphemy to Lustmord or sexual murder. Shedding light on the case as a cultural form, Schwartz shows its profound effect on artists and the ways it dovetailed with methods used by these figures to exploit fundamental changes taking place across the mass media of their time. As Schwartz shows, the case was a common denominator that connected seemingly disparate works. George Grosz and Rudolf Schlichter drew on it for their violent visual art, as did architect Adolf Loos when he equated ornament with crime. Expressionists meanwhile approached the question of whether the so-called mad shared a right of public expression with those deemed sane and examined medical and legal approaches to what society labeled as insanity. The case also took on a personal dimension when artists found themselves confronted with or chose to engage with the legal system. German courts prosecuted John Heartfield and others for their provocative works, while Bertolt Brecht created publicity for himself by suing the firm to whom he sold the film rights to *The Threepenny Opera*. Provocative and insightful, *The Culture of the Case* offers a privileged view of the spaces of representation in which images, in some instances as cases,

functioned at a key moment of modernity      **Encyclopedia of the Essay** Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies
