and John Woolford provide a thematic survey of Browning's often difficult work using key poems as a common point of reference. The themes covered include styles, genres, the mind, the world, interaction, and criticism. This excellent survey will be of value to students of Victorian literature and modernism. *The Poems of Browning: Volume Four* John Woolford, Daniel Karlin, Joseph Phelan, 2014-05-12. The Poems of Robert Browning is a multi-volume edition of the poetry of Robert Browning 1812-1889 resulting from a completely fresh appraisal of the canon, text, and context of his work. The poems are presented in the order of their composition and in the text in which they were first published, giving a unique insight into the origins and development of Browning's art. Annotations and headnotes, in keeping with the traditions of Longman Annotated English Poets, are full and informative and provide details of composition, publication sources, and contemporary reception. Volumes one (1826-1840) and two (1841-1846) presented the poems from his early years, while volume three (1847-61) covered the period of his marriage to Elizabeth Barrett and residence in Italy. Volume four (1862-71) deals with the decade following Elizabeth's death and Browning's return to England. These years saw the appearance of some of his most significant work and a steady rise in his critical reputation. In *Dramatis Personae* (1864) Browning uses his characteristic dramatic mode to expose predicaments of thought and feeling in characters ranging from Shakespeare's Caliban to the cheating medium Mr. Sludge. Other poems dramatize Browning's complicated feelings about the deceptions and self-deceptions of romantic love. Balaustion's Adventure (1871) is an engaging reworking of Euripides' *Alcestris*, whose theme—the resurrection of a beloved lost wife—has poignant personal resonance for Browning, while *Prince Hohenstiel-Schwangau* (published in the same year) offers a thinly veiled account of the life and actions of Napoleon III, the recently deposed Emperor of France, over whom Browning and Elizabeth had quarrelled. In these two long poems, Browning can be seen engaged in the dialogue with Elizabeth that was to shape much of his work during the remainder of his writing life.

English Literature, 1832-1890 Paul Turner, 1989. This volume continues the story of English literature through most of the Victorian period, a period that in religion, politics, science, and technology, sociology, social life, and its physical environment, witnessed the often painful development of modern England. Paul Turner studies not only traditional genres like poetry, drama, and history, but also scientific and technical writing, art criticism, and religious controversy, biography, autobiography, travel books, and books for children. With over 170 authors discussed, the book is a complete survey of the field as seen in the light of present-day scholarship and against the context of classical and established precedents. Also included is a chronological table of contemporary events, historical background, and a bibliography.
