Staging Nationalism Kiki Gounaridou, 2005-05-05 When a nation wants to reconnect with a sense of national identity its cultural celebrations including its theatre are often tinged with nostalgia for a cultural high point in its history Leaders often try to create a neo classical cultural identity Artificially returning to an imagined pinnacle however can fail to take into account new aspects of national identity such as the infusion of other cultures and languages This collection of essays discusses the relationship between political power and the construction or subversion of cultural identity The collection takes a wide historical perspective from distinct periods and cultures from all over the world A few of the topics examined include how theatre in 18th century Poland tried to reconstitute the identity of an imagined classical heritage clung to by Polish nobles how festival practices during the French Revolution tried to give meaning to recent events and rein in anxiety about split loyalties how Athenian prologues cemented early American culture how romantic admiration of peasant culture spread from Germany throughout Europe how Greek tragedy in postwar Japan reflects the conflict of Japan's imposed identity as a Western style democracy with its prewar identity as a samurai nation and how Mexican archeological performance links the indigenous past with a post revolutionary identity as a mixed race country

Great North American Stage Directors Volume 7 James Peck, 2024-01-25 This volume focuses on three artists who embrace media and technology as essential elements of their theatrical expression Elizabeth LeCompte Ping Chong and Robert Lepage Diverse in their aesthetic interests they nevertheless share an approach to directing that includes technological media on stage as central to a rigorously crafted production concept Technological elements live alongside and negotiate with the theatre's human players disclosing shaping and even intruding on the dramas they enact The essays in this volume explore how all three directors have provided decisive responses to a question that has dogged the theatre for at least the last century what relationship can theatre an art form grounded in live ephemeral expression have to technology The Great North American Stage Directors series provides an authoritative account of the art of directing in

North America by examining the work of twenty four major practitioners from the late 19th century to the present Each of the eight volumes examines three directors and offers an overview of their practices theoretical ideas and contributions to modern theatre The studies chart the life and work of each director placing his or her achievement in the context of other important theatre practitioners and broader social history Written by a team of leading experts the series presents the genealogy of directing in North America while simultaneously chronicling crucial trends and championing contemporary interpretation The Routledge Companion to Performance Practitioners Franc Chamberlain, Bernadette

Sweeney, 2020-08-16 The Routledge Companion to Performance Practitioners collects the outstanding biographical and production overviews of key theatre practitioners first featured in the popular Routledge Performance Practitioners series of guidebooks Each of the chapters is written by an expert on a particular figure from Stanislavsky and Brecht to Laban and Decroux and places their work in its social and historical context Summaries and analyses of their key productions indicate how each practitioner's theoretical approaches to performance and the performer were manifested in practice All 22 practitioners from the original series are represented with this volume covering those born after 1915 This is the definitive first step for students scholars and practitioners hoping to acquaint themselves with the leading names in performance or deepen their knowledge of these seminal figures *Direction* Simon Shepherd, 2012-12-17 Is directing an art Do directors

need to be trained What do directors actually do These questions and more are answered in this accessibly written survey of the art of theatre direction Its broad scope ranges across the theatres of both America and Europe looking at practices from Stanislavski up to the present day Intermediality and Spectatorship in the Theatre Work of Robert Lepage Aristita I. Albacan, 2016-09-23 Robert Lepage has imposed himself in the past three decades as a Wunderkind of contemporary theatre with eagerly awaited and widely acclaimed productions at the most prestigious theatre festivals and venues around the world Soon after his international breakthrough with *The Dragon's Trilogy* 1984 Lepage's work became an object of particular scrutiny for critics and scholars and continues to be subject to media exposure inspiring cultural critique academic study and the admiration of audiences across the world A recurrent fascination with the formal novelty of his theatrical approach imbues most if not all critical considerations However in spite of the wide interest provoked little space has been devoted to the quintessential impact of his work on spectatorship and most importantly to connecting the dots between his creative practice and its substantial impact on audiences *Intermediality and Spectatorship in the Theatre Work of Robert Lepage* bridges this gap by exploring the notion that intermediality observed both as a *mise en scene* strategy and a perceptual effect in performance is situated at the core of the director's approach This approach is situated in direct relation to the evolving expectations and medial competencies of spectators demonstrating an in depth understanding of the ways in which different media can be engaged in the creative process in a holistic way in order to alter the regime of spectatorship to enhance its creative and cognitive potential Lepage's work and theatre making process are analysed here from an interdisciplinary

perspective that combines theatre media and cultural studies and which is applied to his solo shows namely *Vinci* 1986 *Needles and Opium* 1991 *Elsinore* 1995 *Far Side of the Moon* 2000 and *Project Andersen* 2005 In bringing to the forefront interconnecting notions of intermediality and contemporary spectatorship the book highlights the director's preoccupation with an ongoing dialogue with audiences across the world and their particular involvement in the development of one of the most innovative practices of the Western theatre landscape *Shakespeare in Succession* Michael Saenger, Sergio Costola, 2023-02-15 It may certainly be said that nothing can be assumed about Shakespeare on the one hand the Elizabethan poet seems to be thriving with more editions productions studies and translations appearing every year on the other hand in a time of global crisis and decolonization the question of why Shakespeare is relevant at all is now more pertinent than ever *Shakespeare in Succession* approaches the question of relevance by positioning Shakespeare as a participant as well as an object of adaptive translation a labour that has always mediated between the foreign and the domestic between the past and the present between the arcane and the urgent The volume situates Shakespeare on a continuum of transfers that can be understood from cultural spatial temporal or linguistic points of view by studying how the text of Shakespeare is transformed into other languages and examining Shakespeare himself as a kind of translator of previous times older stories and prior theatrical and linguistic systems Contending with the poet's contemporary fate *Shakespeare in Succession* asks how Shakespeare's work can be offered to the multicultural present in which we live and how we might relate our position to that of the iconic writer
