Reading Cy Twombly Mary Jacobus, 2016-08-16 The first book on the central importance of literary sources in the paintings of Cy Twombly Many of Cy Twombly's paintings and drawings include handwritten words and phrases naming or quoting poets ranging from Sappho Homer and Virgil to Mallarmé Rilke and Cavafy Enigmatic and sometimes hard to decipher these inscriptions are a distinctive feature of his work Reading Cy Twombly poses both literary and art historical questions How does poetic reference in largely abstract works affect their interpretation Reading Cy Twombly is the first book to focus specifically on the artist's use of poetry Twombly's library formed an extension of his studio and he sometimes painted with a book open in front of him Drawing on original research in an archive that includes his paint stained and annotated books Mary Jacobus's account richly illustrated with more than 125 color and black and white images unlocks an important aspect of Twombly's practice Jacobus shows that poetry was an indispensable source of reference throughout Twombly's career as he said he never really separated painting and literature Among much else she explores the influence of Ezra Pound and Charles Olson Twombly's fondness for Greek pastoral poetry and Virgil's Eclogues the inspiration of the Iliad and Ovid's

Metamorphoses and Twombly's love of Keats and his collaboration with Octavio Paz Twombly's art reveals both his distinctive relationship to poetry and his use of quotation to solve formal problems. A modern painter he belongs in a critical tradition that goes back by way of Roland Barthes to Baudelaire. Reading Cy Twombly opens up fascinating new readings of some of the most important paintings and drawings of the twentieth century. **Robert Motherwell** Mary Ann Caws, 2003 Robert Motherwell was by far the most intellectual and articulate of the Abstract Expressionists. This book written by a friend of the artist, the well-known writer and critic Mary Ann Caws examines Motherwell's way of thinking and writing in relation to his paintings. The artist, American by birth yet simultaneously American and European in his way of visualizing and vocalizing artistic and philosophical traditions, always worked between these two poles and it is this tension that imbues his work with its particular intensity. The author bases her analysis of Motherwell on the artist's own writings and readings as well as on extensive conversations and interviews with him. She considers his work and interests in relation to those of other Abstract Expressionists as well as to the work of the Surrealists. Her book highlights his deep attraction to France and French literature and art and his concern with the idea of elegy and the tragedy of the Spanish Civil War. His singularly American spirit provided him with a manner of painting and thinking unique among the Abstract Expressionists as well as with a distinctive and highly personal filter through which to interpret his fascination with European literature and history.

Robert Motherwell Robert Motherwell, 1984 **Choice**, 1997 Something for Nothing Jackson Lears, 2004-07-27 Jackson Lears has won accolades for his skill in identifying the rich and unexpected layers of meaning beneath the familiar and mundane in our lives. Now he challenges the conventional wisdom that the Protestant ethic of perseverance, industry and disciplined achievement is what made America great. Turning to the deep, seldom acknowledged reverence for luck that runs through our entire history from colonial times to the early twenty-first century, Lears traces how luck, chance and gambling have shaped and at times defined our national character. **Matta in America** Matta, Elizabeth A.
