

SAINTS' REST

Here, on December 9, 1876, the first dormitory of the new Agricultural College of the State of Michigan burned. The college was founded in 1855 and Saints' Rest—as the building was later called in reference to a popular nineteenth century devotional guide—was built the following year in an "oak opening" of the original campus.

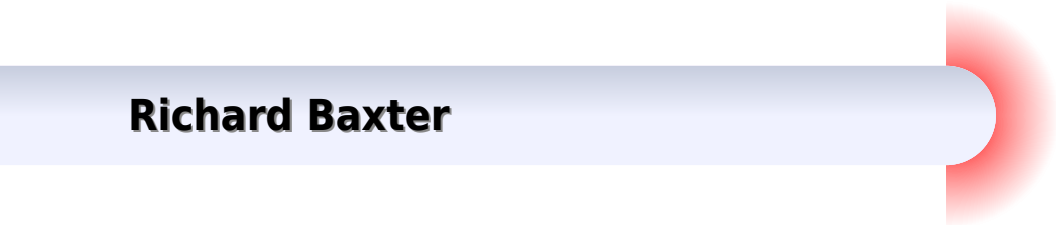

Unadorned and flat-roofed, Saints' Rest suited the college's modest beginnings. The building included a basement kitchen, a laundry and washroom, a dining room, a parlor, and a steward apartment. The two floors of bedrooms were shared by up to 100 male students who lived four in a room and slept two in a bed.

College Hall, the first academic building in the nation dedicated to the study of scientific agriculture, was also built in 1856 on the current site of Beaumont Tower. It contained classrooms, a chemistry laboratory, a library, and a museum. Saints' Rest and College Hall provided the foundation for the emergence of Michigan State University.
