Culver,2012-07-20 Following in the best traditions of German ingenuity in design and construction of armoured vehicles the Sdkfz 251 firmly realised the concept of a competent cross country tactical vehicle for armoured infantry units So successful was this half track that not only did a modified version of it remain in use with Czech forces well into the 1980s but also ironically the armoured infantry tactics that the Germans pioneered with it were adopted by Allied forces in the Second World War and helped them to achieve the eventual defeat of Germany This book covers the genesis and development of the Sdkfz 251 and details the numerous modifications and variations that sprang from combat experience **Operation**

Kolomiets,2014-07-19 In March 1945 the German Wehrmacht undertook its final attempt to change the course of the war by launching a counteroffensive in the area of Lake Balaton Hungary Here the best panzer forces of the Third Reich and the elite of the Panzerwaffe were assembled the panzer divisions SS Leibstandarte Adolf Hitler Das Reich Totenkopf Wiking and others staffed by ardent believers in Nazism and armed with the most up to date combat equipment including up to 900 tanks and self propelled guns At the time this was considered a secondary axis for the Red Army and thus the troops of the 3rd

Ukrainian Front had to stop the German counteroffensive with their own forces and could not count upon reinforcements from the Stavka Reserve which were needed for the decisive storming of Berlin Relying upon their combat skill and rich combat experience the Soviet troops carried out this task with honor stopping the tidal wave of German armor and inflicting a decisive defeat and enormous irreplaceable losses upon the enemy The defeat of the Sixth SS Panzer Army became a genuine catastrophe for Germany and Balaton became the tomb of the Panzerwaffe In this book penned by two leading Russian military historians this major defeat suffered by the Wehrmacht has been described and analyzed for the first time using data from both Soviet and German archives It focuses not only on Operation Spring Awakening but also describes the preceding Konrad offensives conducted by the Germans in the effort to come to the aid of the encircled and desperate German and fascist Hungarian defenders of Budapest This edition is lavishly illustrated with over a hundred rare photographs of destroyed or disabled German armor taken shortly after the battle by a Soviet inspection team besides other photographs and specially commissioned color maps
