E. Warlick,2013-05-01 Surrealist artist Max Ernst defined collage as the alchemy of the visual image Students of his work have often dismissed this comment as simply a metaphor for the transformative power of using found images in a new context Taking a wholly different perspective on Ernst and alchemy however M E Warlick persuasively demonstrates that the artist had a profound and abiding interest in alchemical philosophy and often used alchemical symbolism in works created throughout his career A revival of interest in alchemy swept the artistic psychoanalytic historical and scientific circles of the late nineteenth and early twentieth centuries and Warlick sets Ernst s work squarely within this movement Looking at both his art many of the works she discusses are reproduced in the book and his writings she reveals how thoroughly alchemical philosophy and symbolism pervade his early Dadaist experiments his foundational work in surrealism and his many collages and paintings of women and landscapes whose images exemplify the alchemical fusing of opposites This pioneering research adds an essential key to understanding the multilayered complexity of Ernst s works as it affirms his standing as one of Germany s most significant artists of the twentieth century      New Creative Collage Techniques Nita Leland,2011-09-23 Get ready to make great art New Creative Collage Techniques is filled with the guidance you need to make striking collages with

Luke,2014-02-14 German artist Kurt Schwitters 1887-1948 is best known for his pioneering work in fusing collage and abstraction the two most transformative innovations of twentieth century art Considered the father of installation art Schwitters was also a theorist a Dadaist and a writer whose influence extends from Robert Rauschenberg and Eva Hesse to

Thomas Hirschhorn But while his early experiments in collage and installation from the interwar period have garnered much critical acclaim his later work has generally been ignored In the first book to fill this gap Megan R Luke tells the fascinating even moving story of the work produced by the aging isolated artist under the Nazi regime and during his years in exile Combining new biographical material with archival research Luke surveys Schwitters s experiments in shaping space and the development of his Merzbau describing his haphazard studios in Scandinavia and the United Kingdom and the smaller quieter pieces he created there She makes a case for the enormous relevance of Schwitters s aesthetic concerns to contemporary artists arguing that his later work provides a guide to new narratives about modernism in the visual arts These pieces she shows were born of artistic exchange and shaped by his rootless life after exile and they offer a new way of thinking about the history of art that privileges itinerancy over identity and the critical power of humorous inversion over unambiguous communication Packed with images Kurt Schwitters completes the narrative of an artist who remains a considerable force today

**The Frame and the Mirror** Thomas P. Brockelman, 2001 If the postmodern is a collage as some critics have suggested or if collage is itself a kernel of the postmodern what does this mean for our way of understanding the world The Frame and the Mirror uses this question to probe the distinctive character of the postmodern situation and the philosophical problem of representation Brockelman s work is itself a collage of sorts using juxtapositions of critics and art historical figures to conduct a debate between such figures as Karsten Harries Gianni Vattimo Rosalind Krauss Immanuel Kant Jean Francois Lyotard Slavoj Žižek and Le Corbusier about issues such as truth in art perspectivism theatricality the sublime psychoanalytic theory politics and urbanism More than an introduction to the postmodern The Frame and the Mirror advances our understanding of the contemporary world by relating its features to the peculiar characteristics of collage Ultimately Brockelman shows how collage demands that we reinterpret modernity conceiving of it as suspended between a loss of certainty and a new kind of knowledge about the human condition In doing so his work challenges many of the claims made in the name of postmodernism and offers in their place a new and ironic view of the cultural space in which contemporary and historical events occur

**Subversion and Conformity of Literary Collage** Magda Dragu, 2024-04-30 Subversion and Conformity of Literary Collage Between Cut and Glue fills a gap in the current scholarship on literary collage by addressing how different the interpretations of the concept are depending on the author who uses the concept and the material and writers surveyed The book studies writers who employed literary collage during the twentieth and twenty first centuries some whose works have been intensely analyzed from this perspective William S Burroughs and Walter Benjamin but also some whose collage writing style has recently been investigated by writers being usually placed under the umbrella term of artist books Stelio Maria Martini

Kersey, 2024-07-16 If we want to decolonize the history of art argues Kristopher Kersey we must rethink our approach to the historical record This means dispensing with Eurocentric binaries divisions between Western and non Western modern and premodern and making a commitment to artworks that challenge the perspectives we build upon them In *Facing Images* the question takes elegant and intriguing form If the aesthetic hallmarks of modernity can be found in twelfth century art what does it really mean to be modern Kersey's answer to this question models a new historiography *Facing Images* begins by tracing the turbulent discourse surrounding the emergence of Japanese art history as a modern field In lieu of examining canonical works from the twelfth century Kersey foregrounds the elusive and the enigmatic in artworks little known and understudied outside Japan the manuscripts he selects defy traditional art historical narratives by exhibiting decidedly modern techniques including montage self reference reuse noise dissonance and chronological disarray Kersey weaves these medieval case studies together with insights from a wide range of interdisciplinary scholarship using a methodology that will prove important for historians *Facing Images* produces a history of non Western art in which diverse and anachronic works are brought responsibly and equitably into dialogue with the present without being subsumed under Eurocentric formalisms or false universals A timely intervention in the history of medieval Japanese art art historiography and the history of global modernism *Facing Images* redefines the relationship of the premodern non West to modern art It will be of particular interest to scholars of medieval Japanese art and of modernism
