Sea Of Precious Virtues:

The Sea of Precious Virtues Julie Scott Meisami,1991 *The History of Islamic Political Thought* Antony Black,2001

The History of Islamic Political Thought offers a full description and an interpretation of political philosophy from early Islam to the current age of Fundamentalism 622 AD to 2000 AD Antony Black takes the same approach as scholars usually do for the history of Western political thought examining the mentality cultural milieu and political background of thinkers and statesmen He covers the relationship of politics to religion law ethics philosophy and statecraft as expressed through treatises occasional writings official rhetoric popular slogans and other evidence of how people thought about authority and order *Mirrors for Princes* Michael Keeley,2024-09-02

A historical look at the roots of management theory reveals its flaws and offers important lessons for today s leaders For four thousand years kings and queens ruled the known world while management experts in the guises of sages clerics and courtiers of all kinds told them how to do it These proto experts in leadership ethics and strategy wrote books describing the perfect prince In such books rulers could seek and polish their own reflection as in a looking glass These books were called mirrors for princes *Mirrors for Princes* documents the clich s of this genre of literature Typical mirrors taught the same formula over and over that people behave badly because of their pursuit of self interest which needs to be harnessed to a common goal by the ruler or leader Eighteenth century revolutions spelled the demise of princes and books that sought to instruct them Today the clich s of mirrors for princes live on in modern mirrors for managers The rhetoric of common goals and transformational leadership has a pleasing resonance for top managers affirming their authority just as it did for kings and queens in mirrors for princes Keeley s goal is to sensitize readers to these clich s and to provide today s business leaders with the tools to think more critically when reading business books *Mirrors for Princes* concludes with advice for writers of management literature suggesting how organizational theorists and business ethicists might avoid replicating the clich s of mirrors for princes by adopting a social contract model of organizations

Culture and Conquest in Mongol Eurasia Thomas T. Allsen, 2004-03-25 In the thirteenth century the Mongols created a vast transcontinental empire that functioned as a cultural clearing house for the Old World Under Mongol auspices various commodities ideologies and technologies were disseminated across Eurasia The focus of this path breaking study is the extensive exchanges between Iran and China The Mongol rulers of these two ancient civilizations shared the cultural resources of their realms with one another The result was a lively traffic in specialist personnel and scholarly literature between East and West These exchanges ranged from cartography to printing from agriculture to astronomy The book concludes by asking why the Mongols made such heavy use of sedentary scholars and specialists in the elaboration of their court culture and why they initiated so many exchanges across Eurasia This is a work of great erudition which crosses new scholarly boundaries in its analysis of communication and culture in the Mongol empire

The Cutting Edge of the Poet's Sword: Muslim Poetic Responses to the Crusades Osman Latiff, 2017-09-25 In this comprehensive analysis of Arabic poetry during the period of the crusades sixth twelfth seventh thirteenth centuries Osman Latiff provides an insightful examination of the poets who inspired Muslims to unite in the jih d against the Franks The Cutting Edge of the Poet's Sword not only contributes to our understanding of literary history it also illuminates a broad spectrum of religiosity and the role of political propaganda in the anti Frankish Muslim struggle Latiff shows how poets often used by the ruling elite to promote their rule emphasised the centrality of Islam's holy sites to inspire the Muslim response to the occupation and later reconquest of Jerusalem and expressed some surprising views of Frankish Christians

Justifying Transgression Gijs Kruijtzer, 2023-11-20 How do people justify what others see as transgression Taking that question to the Persian Muslim and Latin Christian worlds over the period 1200 to 1700 this book shows that people in both these worlds invested considerable energy in worrying debating and writing about proscribed practices It compares how people in the two worlds came to terms with the proscriptions of sodomy idolatry and usury When historians speak of the gap between premodern practice and the legal theory of the time they tend to ignore the myriad of justifications that filled this gap Moreover a focus on justification evens out many of the contrasts that have been alleged to exist between the two worlds or the Muslim and Christian worlds

more generally The similarities outweigh the differences in the ways people came to terms with the various rules of divine law The level of flexibility of the theologians and jurists in charge of divine law varied more over time and by topic than between the two worlds Both worlds also saw the development of ever more sophisticated justifications Amid the increasing complexity of justifications a particular kind of reasoning emerged that good outcomes are more important than upholding rules for their own sake

The Crusader States and their Neighbours Nicholas Morton, 2020-04-24 The Crusader States and their Neighbours Winner The Verbruggen Prize The Society for Medieval Military History explores the military history of the Medieval Near East piecing together the fault lines of conflict which entangled this much contested region This was an area where ethnic religious dynastic and commercial interests collided and the causes of war could be numerous Conflicts persisted for decades and were fought out between many groups including Kurds Turks Armenians Arabs and the crusaders themselves Nicholas Morton recreates this world exploring how each faction sought to advance its own interests by any means possible adapting its warcraft to better respond to the threats posed by their rivals Strategies and tactics employed by the pastoral societies of the Central Asian Steppe were pitted against the armies of the agricultural societies of Western Christendom Byzantium and the Islamic World galvanising commanders to adapt their practices in response to their foes Today we are generally encouraged to think of this era as a time of religious conflict and yet this vastly over simplifies a complex region where violence could take place for many reasons and peoples of different faiths could easily find themselves fighting side by side

The Center of the World Allen James Fromherz, 2024-09-03 This sweeping history reorients our understanding of the Middle East placing the Gulf at the heart of globalized trade and cross cultural encounters World history began in the Persian Gulf The ancient port cities that dotted its coastlines created the first global seaboard a place from where faiths and cultures from around the world set sail and made contact More than a history The Center of the World shows us that contradictions that define our modern age have always been present For over four thousand years the Gulf sometimes called the Persian Gulf sometimes the Arabian Gulf has been a global crossroads while managing to avoid control by the world's greatest empires In its history we see a world of rapid change fluctuating centers of trade a dependency on uncertain global markets and intense cross cultural encounters that hold a mirror to the contemporary world Focusing each chapter on a different port around the Gulf The Center of the World shows how the people of the Gulf adapted to larger changes in world history creating a system of free trade merchant rule and commerce that continues to define the region today

Thieves of State: Why Corruption Threatens Global Security Sarah Chayes, 2015-01-19 Winner of the 2015 Los Angeles Times Book Prize for Current Interest I can't imagine a more important book for our time Sebastian Junger The world is blowing up Every day a new blaze seems to ignite the bloody implosion of Iraq and Syria the East West standoff in Ukraine abducted schoolgirls in Nigeria Is there some thread tying these frightening international security crises together In a riveting account that weaves history with fast moving reportage and insider accounts from the Afghanistan war Sarah

Chayes identifies the unexpected link corruption Since the late 1990s corruption has reached such an extent that some governments resemble glorified criminal gangs bent solely on their own enrichment These kleptocrats drive indignant populations to extremes ranging from revolution to militant puritanical religion Chayes plunges readers into some of the most venal environments on earth and examines what emerges Afghans returning to the Taliban Egyptians overthrowing the Mubarak government but also redesigning Al Qaeda and Nigerians embracing both radical evangelical Christianity and the Islamist terror group Boko Haram In many such places rigid moral codes are put forth as an antidote to the collapse of public integrity The pattern moreover pervades history Through deep archival research Chayes reveals that canonical political thinkers such as John Locke and Machiavelli as well as the great medieval Islamic statesman Nizam al Mulk all named corruption as a threat to the realm In a thrilling argument connecting the Protestant Reformation to the Arab Spring Thieves of State presents a powerful new way to understand global extremism And it makes a compelling case that we must confront corruption for it is a cause not a result of global instability
