for both wealth and power Among the more calculating were Southern slave owners By making California a slave state they could increase the value of their slaves by 50 percent at least and maybe much more They could also gain additional influence in Congress and expand Southern economic clout abetted by a new transcontinental railroad that would run through the South Yet despite their machinations California entered the union as a free state Disillusioned Southerners would agitate for even more slave territory leading to the Kansas Nebraska Act and ultimately to the Civil War itself
