Bambara's *Practices of Liberation* studies the works of Bambara 1939-1995, an author, documentary filmmaker, social activist, and professor. Thabiti Lewis's analysis serves as a cultural biography examining the liberation impulses in Bambara's writing, which is concerned with practices that advance the material value of the African American experience and exploring the introspection between artist production and social justice. This is the first monograph that focuses on Bambara's unique approach and important literary contribution to 1970s and 1980s African American literature. It explores her unique nationalist, feminist, Marxist, and spiritualist ethos, which cleared space for many innovations found in black women's fiction. Divided into five chapters, Lewis's study relies on Bambara's voice from interviews and essays to craft a spiritual wholeness aesthetic, a set of principles that comes out of her practices of liberation and entail family, faith, feeling, and freedom that reveals her ability to interweave ethnic identity, politics, and community engagement and responsibility with the impetus of balancing black male and female identity influences and interactions within and outside the community. One key feature of Bambara's work is the concentration on women as cultural workers, whereby her notion of spiritual wholeness upends what has become a scholarly distinction between feminism and black nationalism. Bambara's fiction situates her as a pivotal voice within the Black Arts Movement and contemporary African American literature. Bambara is an understudied and important artistic voice whose aversion to playing it safe both personified and challenged the boundaries of black nationalism and feminism. *Black People Are My Business* is a wonderful addition to any reader's list, especially those interested in African American literary and cultural studies.

American Tantalus Andrew Warnes, 2014-10-23 *American Tantalus* argues that modern US fictions often grow preoccupied by tantalisation. This keyword might seem commonplace; thesauruses certainly often lump it in with tease and torment in their general inventories of desire. Such lists, however, mislead. Just as most US dictionaries have in fact long recognised *tantalise*'s origins in *The Odyssey*, so they have defined it as the unique desire we feel for objects that, like the fruit and water once cruelly placed before Tantalus, lie within our reach yet withdraw from our attempts to touch them. On these terms, *American Tantalus* shows *tantalise* not only describes a particular kind of thwarted desire but also one that dominates modern US fiction to a remarkable extent. For this term specifically evokes the yearning to touch alienated or virginal objects that we find examined by F. Scott Fitzgerald, Toni Cade Bambara, Richard Wright, and Toni Morrison, and it also indicates the insatiable pursuit of the horizon so important to Willa Cather and Edith Wharton, among others. This eclectic canon indeed prefers the dictionary to the thesaurus: unreachable destinations and untouched commodities here indeed *tantalise* inviting gestures of inquiry from which they then recoil. This focus, while lodging cycles of tantalisation at the very heart of American myth, holds profound implications for our understanding of modernity and in particular of the cultural genesis of the commodity as a form.

American Women Writing Fiction Mickey Pearlman, 2021-03-17 American literature is no longer the refuge of the solitary hero. Like the society it mirrors, it is now a far richer, many-faceted explication of a complicated and diverse society, racially, culturally, and ethnically interwoven, and at the
