Those who reached my boundary their seed is not their heart and soul are finished forever and ever An inscription made during the reign of Ramesses III When scholars look at the passage of history certain epochs and transitions to new periods tend to stand out The transition from the early modern to the Industrial Age in the late 18th century and the collapse of the Roman Empire are two of the more well known but the transition from the Bronze to the Iron Age during the late 13th and early 12th centuries BCE arguably changed the structure and course of world history more fundamentally than any period before or since During this period numerous wealthy and enduring kingdoms of the eastern Mediterranean Sea region collapsed and new ones rose in their places At the center of this period of turmoil was a group of people known today as the Sea Peoples the English translation of the name given to them by the Egyptians Despite their prominent role in history however the Sea Peoples remain as mysterious as they were influential while the Egyptians documented their presence and the wars against them it has never been clear exactly where the Sea Peoples originated from or what compelled them to invade various parts of the region with massive numbers Whatever the reason the Sea Peoples posed an existential threat to the people already living in the region as noted by an Egyptian inscription The foreign countries i e Sea Peoples made a conspiracy in their islands All at once the lands were removed and scattered in the fray No land could stand before their arms from Hatti Qode Carchemish Arzawa and Alashiya on being cut off i e destroyed at one time A camp was set up in Amurru They desolated its people and its land was like that which has never come into being They were coming forward toward Egypt while the flame was prepared before them Their confederation was the Peleset Tjeker Shekelesh Denyen and Weshesh lands united They laid their hands upon the land as far as the circuit of the earth their hearts confident and trusting Our plans will succeed As with any historical matter from the ancient world the sources can be a problem The ancient Egyptians recorded their interactions with the Sea Peoples in both written texts and in pictorial reliefs and thus provide the most complete contemporary description of them but the nature of ancient Egyptian historiography was quite different than the modern concept so the sources cannot be considered entirely reliable Later Greek sources both historiographical and mythological can help fill in some more details but those sources are suspect because they were written several centuries after the emergence of the Sea Peoples Modern archaeology is beneficial in determining how people lived and possibly where they moved but there are also problems when one relies too much on archaeological data because the dating of material culture is not an exact science Finally linguistic evidence is often employed to determine the geographic origins and eventual landing points of many of the Sea Peoples but confusion often arises if a group's demonym refers specifically to their place of origin or final home Naturally the mystery surrounding the Sea Peoples has led to all kinds of theories aiming to identify them While plenty of theories are plausible there are other fanciful theories that have attempted to associate the Sea Peoples with the Atlantic Ocean and even Troy

Mysterious Lands David O'Connor, 2016-06-03 *Mysterious Lands* covers two kinds of encounters First encounters which actually occurred between Egypt and specific foreign lands and second those the Egyptians created by inventing imaginary lands Some of the actual foreign lands are mysterious in that we know of them only through Egyptian sources both written and pictorial and the actual locations of such lands remain unknown These encounters led to reciprocal influences of varying intensity The Egyptians also created imaginary lands pseudo geographic entities with distinctive inhabitants and

cultures in order to meet religious intellectual and emotional needs Scholars disagree sometimes vehemently about the locations and cultures of some important but geographically disputed actual lands As for imaginary lands they continually need to be re explored as our understanding of Egyptian religion and literature deepens Mysterious Lands provides a clear account of this subject and will be a stimulating read for scholars students or the interested public *Origins of European Peoples* Mario Masetto,2018-03-20 This series explores the history of European peoples with the first book focusing on ancient history To understand the evolution of Europeans we must go back to the end of the Paleolithic Age In all probability from 40 000 BC onward there was a slow migration from the South across the Middle East which continued during the Paleolithic Age and all human languages stem from three principal branches African Indo European and Chinese The author shares a detailed account on the origins of Europeans and shares interesting facts that anyone who enjoys history will find valuable He also examines the twelve tribes of Israel from the very beginning of their history the causes of various migrations the affect sailing technology had on the world and the role that religion played in the development of leagues tribes and cities Delve into the fascinating history of the origins of the European peoples and explore the development of various nations including their linguistic and physical characteristics with this well researched book Encyclopedia of the Archaeology of Ancient Egypt Kathryn A.
