**Conscription and the Search for Modern Russian Jewry** Olga Litvak,2006-12-06 Olga Litvak has written a book of astonishing originality and intellectual force In vivid prose she takes the reader on a journey through the Russian Jewish literary imagination Benjamin Nathans Russian Jews were first conscripted into the Imperial Russian army during the reign of Nicholas I in an effort to integrate them into the population of the Russian Empire Conscripted minors were to serve in practical terms for life Although this system was abandoned by his successor the conscription experience remained traumatic in the popular memory and gave rise to a large and continuing literature that often depicted Jewish soldiers as heroes This imaginative and intellectually ambitious book traces the conscription theme in novels and stories by some of the best known Russian Jewish writers such as Osip Rabinovich Judah Leib Gordon and Mendele Mokher Seforim as well as by relatively unknown writers Published with the generous support of the Koret Foundation     British Books in Print ,1985     *Earthen Vessels* Joel A. Carpenter,Wilbert R. Shenk,2012-12-01 Contrary to popular impressions the days of the missionary are far from over North American churches send more missionaries than ever before and 90 percent of them are evangelicals who are not affiliated with the mainline Protestant mission boards The first major historical treatment of the distinctly evangelical wing of twentieth century American missions Earthen Vessels truly breaks new ground Covering territory that missions

histories have scarcely explored yet the distinguished historians contributing to this volume portray the North American including Canadian evangelical missionary enterprise from the Student Volunteer Movement to the very recent past The book traces the influences of premillennial eschatology the fundamentalist modernist controversies the rise of independent missions and conservative denominational boards the role of World War II and America's rise to world power the recent development of a distinctly evangelical theology of missions and the growing influence of the Two Thirds World's evangelical leaders While this volume certainly does not contain the last word on these subjects in a number of areas it does offer very nearly the first look With its fresh subject matter and new historical interpretations *Earthen Vessels* will interest church history scholars and students missionaries and ministers and any others who wish to know more about American missions

**Nation and Word, 1770-1850** Mary Anne Perkins, 2016-12-05 The emergence of the modern nation state in Europe and the accompanying rise in national consciousness led to a heightened awareness of the close relationship between language and national identity In this book the author shows that this relationship was expressed through the themes and figures of a language of nationhood drawn from a common European cultural heritage particularly the Classical and Christian traditions Despite its common roots this language became the medium through which the diversity of national characters was expressed The idea of the divine Word for example enabled the sacredness and power of national language to be celebrated The identification of poet and prophet gave Romantic nationalists an authority to speak for and to the nation and the theme of the Chosen People was often adopted to express the elect status of a writer s own nation In conclusion it is shown that this language of nationhood remains a powerful force at the end of the twentieth century
