Books Out Loud ,2007      **Dictionary of International Biography ...** ,2005 A biographical record of contemporary achievement together with a key to the location of the original biographical notes      Antarctica in British Children's Literature Sinead Moriarty,2020-11-29 For over a century British authors have been writing about the Antarctic for child readers yet this body of literature has never been explored in detail Antarctica in British Children's Literature examines this field for the first time identifying the dominant genres and recurrent themes and tropes while interrogating how this landscape has been constructed as a wilderness within British literature for children The text is divided into two sections Part I focuses on the stories of early twentieth century explorers such as Robert F Scott and Ernest Shackleton Antarctica in British Children's Literature highlights the impact of children's literature on the expedition writings of Robert Scott including the influence of Scott's close friend author J M Barrie The text also reveals the important role of children's literature in the contemporary resurgence of interest in Scott's long term rival Ernest Shackleton Part II focuses on fictional narratives set in the Antarctic including early twentieth century whaling literature adventure and fantasy texts contemporary animal stories and environmental texts for children Together these two sections provide an insight into how depictions of this unique continent have changed over the past century reflecting transformations in attitudes towards wilderness and wild landscapes

Book Review Index ,2004 Every 3rd issue is a quarterly cumulation      **Classical Civilisation for the AQA Specification** ,      □□□□ ,2005      The Battle of Britain on Screen S. P. MacKenzie,2016-01-28 This new updated edition of The Battle of Britain on Screen examines in depth the origins development and reception of the major dramatic screen representations of The Few in the Battle of Britain produced over the past 75 years Paul MacKenzie explores both continuity and change in the presentation of a wartime event that acquired and retains near mythical dimensions in popular consciousness and has been represented many times in feature films and television dramas Alongside relevant technical developments the book also examines the social cultural and political changes occurring in the second half of the 20th century and first decade of current century that helped shape how the battle came to be framed dramatically This edition contains a new chapter looking at the portrayal of the Battle of Britain at the time of its 70th anniversary Through its perceptive demonstration of how our memory of the battle has been constantly reshaped through film and television The Battle of Britain on Screen provides students of the Second World War 20th century Britain and film history with a thorough and complex understanding of an iconic historical event      **Romanticism and Film** Will Kitchen,2020-11-26 The relationship between Romanticism and film remains one of the most neglected topics in film theory and history with analysis often focusing on the proto cinematic significance of Richard Wagner's music dramas One new and interesting way of examining this relationship is by looking beyond Wagner and developing a concept of audio visual explanation rooted in Romantic philosophical aesthetics and employing it in the analysis of film discourse and representation Using this concept of

audio visual explanation the cultural image of the Hungarian pianist and composer Franz Liszt a contemporary of Wagner and another significant practitioner of Romantic audio visual aesthetics is examined in reference to specific case studies including the rarely explored films *Song Without End* 1960 and *Lisztomania* 1975 This multifaceted study of film discourse and representation employs Liszt as a guiding thread structuring a general exploration of the concept of Romanticism and its relationship with film more generally This exploration is supported by new theories of representation based on schematic cognition the philosophy of explanation and the recently developed film theory of Jacques Rancière Individual chapters address the historical background of audio visual explanation in Romantic philosophical aesthetics Liszt's role in the historical discourses of film and film music and various filmic representations of Liszt and his compositions Throughout these investigations Will Kitchen explores the various ways that films explain or make sense of things through a Romantic aesthetic combination of sound and vision
