Search for Meaning David Birnbaum, Martin S. Cohen, The Book of Deuteronomy depicts Moses addressing Israel before his own death as he imagines that some day in the future children will ask their parents to explain the meaning of the testimonies statutes and judgments Deuteronomy 6:20 that are the foundation of the covenant that binds Israel to its God He thus frames in specifically Jewish terms the same set of haunting intimations that all thoughtful people bring to the contemplation of their own lives and indeed to life itself the sense that being alive can or should mean more than merely not being dead that the contemplation of even the most banal features of daily life can yield rich insight about the nature of existence and the feeling that life itself can be understood as a kind of scrim that might allow us to see through it to the secrets and mysteries that lie beyond That set of hopeful suppositions inspires moderns just as strongly and enticingly as it did the ancients Yet the specific question of what it actually means for this or that part of life to mean anything at all other than what it overtly is or at least appears to be does not seem to have exerted anywhere near as siren a call on our ancient forebears as it does on us moderns Still as we seek meaning in the world and in our lives it behooves us to ponder the meaning of meaning as well These twin notions that life has meaning beyond what the casual observer can see easily and that the effort to uncover and decipher that meaning can be profound enough to be spiritually transformational have animated the contributors to this volume as their work demonstrates just how meaningful the search for meaning can be Some have approached this from a spiritual point of view grounding themselves in traditional biblical talmudic or mystical sources Others have framed their efforts in political terms or in deeply personal ones And still others have attempted to consider the issue through the lens of modern philosophical inquiry But regardless of the specific perspective of any individual author all have in common the deep seated conviction that life bears meaning and that that meaning can best be discovered not by spending a lifetime hoping for momentary satori but rather by standing on the shoulders of fellow travelers from earlier eras and from that slightly elevated vantage point seeing just a bit further than they could or did For almost all of our authors then the search for meaning is best understood as an ongoing intergenerational effort that links the seekers of all ages to each other through the contemplation of earlier efforts to mine profundity and significance from the quarry of human life itself It is at best a slow

march forward As readers will see from the Table of Contents the ancient Book of Kohelet has served several of our authors as the framework for their interpretive work Kohelet is the Hebrew name of the biblical book also known as Ecclesiastes which name is derived from the Greek translation of the work Others have chosen to grapple with the question Moses imagined future Jewish children eventually putting to their parents as they wondered what the commandments actually mean in terms of the larger picture of Israelite culture and Jewish life in our own day Still others have addressed the search for meaning in life today by taking into account the question of human suffering considering the issue both generally as a philosophical challenge and more specifically with reference to the Shoah Taken all together the contributors to this volume have put forth the notion that life is ennobled not trivialized by the contemplative effort to seek meaning in the ebb and flow of life's experiences and particularly in those life experiences related to the service of God And yet for all they are united in that conviction our authors in this volume of the Mesorah Matrix series are nonetheless a diverse group older and younger women and men North Americans and Israelis living at home and abroad seasoned scholars and newly minted rabbis and teachers They are teachers and researchers trained in different schools of thought and affiliated with different movements and institutions within the mosaic of Jewish life that characterizes the House of Israel as it enters by its own reckoning the final quarter of the twenty-first century They are a varied lot our authors But in many ways they are all of them cut from the same cloth Our authors work with the original sources and generally present them in their own translations Citations of NJPS refer to the complete translation of Scripture first published under the title Tanakh The Holy Scriptures by the Jewish Publication Society in Philadelphia in 1985 In this volume as in all books in the Mesorah Matrix series the four letter name of God is generally represented by the Eternal or Eternal God Authors who are specifically discussing the actual four letter name on the other hand may occasionally depart from this usage in order to more clearly make the point of their argument I would like to take this opportunity to acknowledge the other senior editors of the Mesorah Matrix series David Birnbaum and Rabbi Benjamin Blech as well as Rabbi Saul J Berman our associate editor They and our able staff have all supported me as I've labored to bring this volume to fruition and I am grateful to them all As always I must also express my gratitude to the men and women and particularly to the lay leadership of the synagogue I serve as rabbi the Shelter Rock Jewish Center in Roslyn New York Possessed of the unwavering conviction that their rabbi's book projects are part and parcel of his service to them and through them to the larger community of those interested in learning about Judaism through the medium of the well written word they are remarkably supportive of my literary efforts as author and editor I am in their debt and I am therefore very pleased to acknowledge that debt formally here and wherever I publish my own work or the work of others

Viktor Frankl and the Book of Job Marshall H. Lewis, 2019-05-02 This book accomplishes two distinct tasks First it develops the psychological theory of Dr Viktor E Frankl as a literary hermeneutic Second it applies the hermeneutic by reading the book of Job Key issues emerge through three movements The first movement addresses Frankl's concept of the feeling of meaninglessness and his rejection of reductionism and nihilism The second movement addresses the dual nature of

meaning an association is revealed between Frankl's understanding of meaning and the Joban understanding of wisdom. The third movement involves an exploration of Frankl's ideas of ultimate meaning and self-transcendence. As a Holocaust survivor, Frankl had a personal stake in the effectiveness of his approach. He lived the suffering about which he wrote. Because of this, reading the book of Job with a hermeneutic based on Frankl's ideas will present readers with opportunities to discover unique meanings and serve to clarify their attitudes toward pain, guilt, and death. As meaning is discovered through participation with the text, we will see that Job's final response can become a site for transcending suffering. The search for meaning in later life Nienke P. M. Fortuin, 2020. The search for meaning in later life: An empirical exploration of religion and death draws on thorough qualitative and quantitative research among older Dutch adults. The scarcity of vital narratives of ageing and the fragmentation of religious grand narratives appear to complicate their search for meaning. Moreover, increased longevity and the medicalisation of death challenge many older adults to decide about the right timing of death. This study qualitatively and quantitatively explores narratives of ageing and of religion expressed by older Dutch adults and their attitudes toward death, euthanasia, and life prolongation. **In Search of Meaning** Nossrat Peseschkian, MD, 2016-06-16. In Search of Meaning shows that individuals suffering from a loss of meaning cannot find what they are looking for in a global concept but rather must first take small steps to find the meaning behind single actions. Revised edition. International Academy for Positive and Transcultural Psychotherapy, Peseschkian Foundation, Wiesbaden, Germany.

Searching for Meaning Paula Gooder, 2008-08-27. In this clear, comprehensive, student-friendly textbook, biblical scholar and teacher Paula Gooder describes and illustrates the range of approaches to interpreting the New Testament as taught in universities and seminaries throughout the English-speaking world. Top scholars give a short definition of a particular criticism, and then Gooder gives a practical example to demonstrate how that criticism can be applied to a biblical text. A very broad range of methods is introduced, from traditional criticisms such as source criticism and historical criticism to more modern methods such as feminist criticism and liberation criticism. Readers will understand how different meanings and emphases can be drawn from a text depending upon the method of interpretation chosen. They will also be given the skills to start analyzing and examining texts for themselves in a meaningful and insightful way. *In Search of Meaning and Purpose Through Living, Structure and Function* Edy P. Pierre, 2012-05-09. Is a story about the humanity living with a natural mind that possesses by endless needs, wants, and desires. The book explains how we become so intimately connected with life through our mind and by which we are conscious of all of life's pain, suffering, and disappointments it brings. In the process, we become a problem-oriented world as we individually intertwine with a time-perception world construed with the notion of future opportunities and hope for better tomorrows. As our living continues to revolve around our desires and perceptions, the least of all the choices we will make or want is to become free from fear, free from pain and sufferings, and pursue unhappiness. The Search for Meaning Dennis Ford, 2007-09-10 In *The Search for Meaning A Short History* Dennis Ford explores eight approaches human beings have pursued over time to invest life with meaning and to infuse order into a seemingly chaotic universe These include myth philosophy science postmodernism pragmatism archetypal psychology metaphysics and naturalism In engaging companionable prose Ford boils down these systems to their bare essentials showing the difference between viewing the world from a religious point of view and that of a naturalist and comparing a scientific worldview to a philosophical one Ford investigates the contributions of the Greeks Kant and William James and brings the discussion up to date with contemporary thinkers He proffers the refreshing idea that in today's world the answers provided by traditional religions to increasingly difficult questions have lost their currency for many and that the reductive or rationalist answers provided by science and postmodernism are themselves rife with unexamined assumptions

Technology, Mythology and the Search for Meaning Douglas Francis, 2023-11-15 This book offers a big picture look at the evolution of Western thought on technology by focusing on seven periods when there was a paradigm shift in perspective A techno myth is used to identify shape and capture the beliefs of each era Drawing from philosophy literature social sciences physical sciences mythology and cultural history the book brings to life the ideas of the great thinkers and the ancient myths What their message tells us is that we have failed to learn from the mistakes of the past We have allowed technology to take control of our lives and narrowed our thinking to a one dimensional materialistic perspective We have become prisoners in Max Weber's metaphoric iron cage But they also tell us how to free ourselves by humanizing technology so that humans are in control which is explored in depth in this book
