Season of High Adventure S. Bernard Thomas, 2024-06-07 In 1928 Edgar Snow 1905 1972 set out to see the world hoping to make his mark as a travel adventure writer Shanghai was to be a mere stopover but Snow stayed on in China for thirteen more years The idealistic young Midwesterner became a journalist and ultimately developed close friendships with China's emerging revolutionary leaders His 1938 classic *Red Star over China* strongly influenced American views of the Chinese Communists and is still in print nearly sixty years later This biography breaks fresh ground with its unique and extensive use of Snow's diaries of over forty years These writings convey Snow's private hopes and fears his moods and motivations Thomas skillfully links them with Snow's public writings and deeds By recreating the milieu in which Snow worked in China Thomas provides a clearer understanding of both the man and his times Snow came to China devoid of any political agenda or sinological background He returned home a politically astute China hand and famed journalist author His writing had taken on the nature of political action which resulted in troubled soul searching that Snow usually confined to his diary Thomas's portrait of Ed Snow reveals a man caught up in an important historical moment a man who profoundly influenced and was influenced by the events that swirled around him This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997

Three Revolutions Simon Hall, 2025-07-01 A salve for our current reactionary times ANDREW HARTMAN The gripping untold story of how six epic journeys launched the three communist revolutions that changed world history forever From the streets of Petrograd during the heady autumn of 1917 to Mao's stunning victory in October 1949 and Fidel's triumphant arrival in Havana in January 1959 the history of the twentieth century was transformed in dramatic and profound ways by the Russian Chinese and Cuban revolutions In *Three Revolutions* the stories of these epoch defining events are told together for the first time At the heart of each revolution was an epic journey Lenin's 1917 return to Russia from exile in Switzerland Mao's Long March of 1934-35 covering some 6 000 miles across China and Fidel Castro's return to Cuba in 1956 following his exile in Mexico Told in tandem with these are the corresponding journeys of three extraordinary journalists John Reed Edgar Snow and Herbert L Matthews whose electric testimony from the frontlines of each revolution would make a decisive contribution to how these revolutions were understood in the wider world Here in Simon Hall's masterful retelling these six remarkable journeys are brought vividly to life Featuring a stellar cast extraordinary drama and an epic sweep *Three Revolutions* raises fundamental questions about the nature of political power the limits of idealism and the role of the journalist questions that remain of utmost urgency today

Revelatory and instructive a beautifully written and accessible book The Times For decades the West has dismissed Maoism as an outdated historical and political phenomenon Since the 1980s China seems to have abandoned the utopian turmoil of Mao's revolution in favour of authoritarian capitalism But Mao and his ideas remain central to the People's Republic and the legitimacy of its Communist government With disagreements and conflicts between China and the West on the rise the need to understand the political legacy of Mao is urgent and growing The power and appeal of Maoism have extended far beyond China Maoism was a crucial motor of the Cold War it shaped the course of the Vietnam War and the international youth rebellions that conflict triggered and brought to power the murderous Khmer Rouge in Cambodia it aided and sometimes handed victory to anti colonial resistance movements in Africa it inspired terrorism in Germany and Italy and wars and insurgencies in Peru India and Nepal some of which are still with us today more than forty years after the death of Mao In this new history Julia Lovell re evaluates Maoism as both a Chinese and an international force linking its evolution in China with its global legacy It is a story that takes us from the tea plantations of north India to the sierras of the Andes from Paris's fifth arrondissement to the fields of Tanzania from the rice paddies of Cambodia to the terraces of Brixton Starting with the birth of Mao's revolution in northwest China in the 1930s and concluding with its violent afterlives in South Asia and resurgence in the People's Republic today this is a landmark history of global Maoism

Going to the Countryside Yu Zhang, 2020-03-03 Since the beginning of the twentieth century modern Chinese intellectuals reformers revolutionaries leftist journalists and idealistic youth had often crossed the increasing gap between the city and the countryside which made the act of going to the countryside a distinctively modern experience and a continuous practice in China Such a spatial crossing eventually culminated in the socialist state program of down to the villages movements during the 1960s and 1970s What then was the special significance of going to the countryside before that era Going to the Countryside deals with the cultural representations and practices of this practice between 1915 and 1965 focusing on individual homecoming rural reconstruction revolutionary journeys to Yan'an the revolutionary going down to the people as well as going to the frontiers and rural hometowns for socialist construction As part of the larger discourses of enlightenment revolution and socialist industrialization going to the countryside entailed new ways of looking at the world and ordinary people brought about new experiences of space and time initiated new means of human communication and interaction generated new forms of cultural production revealed a fundamental epistemic shift in modern China and ultimately created a new aesthetic social and political landscape As a critical response to the urban turn in the past few decades this book brings the rural back to the central concern of Chinese cultural studies and aims to bridge the city and the countryside as two types of important geographical entities which have often remained as disparate scholarly subjects of inquiry in the current state of China

studies Chinese modernity has been characterized by a dual process that created problems from the vast gap between the city and the countryside but simultaneously initiated constant efforts to cope with the gap personally collectively and institutionally The process of crossing two distinct geographical spaces was often presented as continuous explorations of various ways of establishing the connectivity interaction and relationship of these two imagined geographical entities Going to the Countryside argues that this new body of cultural productions did not merely turn the rural into a constantly changing representational space most importantly the rural has been constructed as a distinct modern experiential and aesthetic realm characterized by revolutionary changes in human conceptions and sentiments

From Quills to Tweets Andrea J. Dew, Marc A. Genest, S. C. M. Paine, 2019-12-02 While today's presidential tweets may seem a light year apart from the scratch of quill pens during the era of the American Revolution the importance of political communication is eternal This book explores the roles that political narratives media coverage and evolving communication technologies have played in precipitating shaping and concluding or prolonging wars and revolutions over the course of US history The case studies begin with the Sons of Liberty in the era of the American Revolution cover American wars in the nineteenth and twentieth centuries and conclude with a look at the conflict against ISIS in the Trump era Special chapters also examine how propagandists shaped American perceptions of two revolutions of international significance the Russian Revolution and the Chinese Revolution Each chapter analyzes its subject through the lens of the messengers messages and communications technology media to reveal the effects on public opinion and the trajectory and conduct of the conflict The chapters collectively provide an overview of the history of American strategic communications on wars and revolutions that will interest scholars students and communications strategists

The Raider Stephen R. Platt, 2025-05-13 The extraordinary life of forgotten World War II hero Evans Carlson commander of America's first special forces secret confidant of FDR and one of the most controversial officers in the history of the Marine Corps who dedicated his life to bridging the cultural divide between the United States and China He was a gutsy old man A corker said another You couldn't find anyone better They talked about him in hushed tones This Major Carlson wrote one of the officers in a letter home is one of the finest men I have ever known These were the words of the young Marines training to be among the first U.S. troops to enter the Second World War and the Major Carlson they spoke of was Evans Carlson a man of mythical status even before the war that would make him a military legend By December of 1941 at the age of forty five Carlson had already faced off against Sandinistas in the jungles of Nicaragua and served multiple tours in China where he embedded with Mao's Communist forces during the Sino Japanese War Inspired by their guerilla tactics and their collaborative spirit which he'd call gung ho introducing the term to the English language and driven by his own Emersonian ideals of self reliance Carlson would go on to form his renowned Marine Raiders the progenitors of today's special operations forces who fought behind Japanese lines on Makin Island and Guadalcanal showing Americans a new way to do battle In *The Raider* Cundill Prize winning historian Stephen R. Platt gives us the first authoritative account of Carlson's

larger than life exploits the real story based on years of research including newly discovered diaries and correspondence in English and Chinese with deep insight into the conflicted idealism about the Chinese Communists that would prove Carlson's undoing in the McCarthy era Tracing the rise and fall of an unlikely American war hero The Raider is a story of exploration of cultural misunderstanding and of one man's awakening to the sheer breadth of the world *Studies in Intelligence* ,2019

Ishikawa's work he shows how little even Moscow and the Communist International knew about Mao before 1936. This study is full of unexpected insights into the origins of early visual images of Mao, the background to Snow's historic trip to northern Shaanxi and the evolution of the classic study that he left. In a world where balanced judgment of the rise of Mao is increasingly difficult to find, Ishikawa's scholarship stands out as a rare model of judicious balance. Joseph W. Esherick, Emeritus Professor Hwei-chih and Julia Hsiu, Chair in Chinese Studies, University of California, San Diego. This book is first an exquisite excavation on the enabling infrastructures in the writing and publishing of one of the most iconic works in journalistic interviews in the 20th century, a text that broke through a wall of intelligence blockade to give to the world in an autobiographical voice and with a striking image the debut of the revolutionary Mao while holed up in a mountain base area. It is in addition a history of the reading of the book in multiple languages including Chinese that is indexed to the rise of the Mao cult thereafter. Ishikawa captures a moment of a past gearing up in anticipation of a future that never came. This book is a must read for all with an interest in Mao, journalism and the history of books. Wen-hsin Yeh, Richard H. and Laurie C. Morrison, Chair Professor in History, University of California, Berkeley. Ishikawa offers a challenging reflection on how historical information and images that we take for granted come into being through the twin case studies of images of Mao Zedong before Edgar Snow's famous biography in 1936 and then how Snow's images of Mao were translated and transmuted into Chinese, Russian and Japanese. Joshua Fogel's careful translation brings this impeccable example of Japanese sinology to the English reading public. Timothy Cheek, Professor and Louis Cha Chair in Chinese Research, University of British Columbia.

Annual Report of the Boy Scouts of America Boy Scouts of America, 1950 **Accidental Holy Land** Joseph W. Esherick, 2022-02-22. A free open access ebook is available upon publication. Learn more at www.luminosoa.org. Yan'an is China's revolutionary holy land, the heart of Mao Zedong's Communist movement from 1937 to 1947. Based on thirty years of archival and documentary research and numerous field trips to the region, Joseph W. Esherick's book examines the origins of the Communist revolution in Northwest China from the political, social and demographic changes of the Qing dynasty (1644-1911) to the intellectual ferment of the early Republic, the guerrilla movement of the 1930s and the replacement of the local revolutionary leadership after Mao and the Center arrived in 1935. In *Accidental Holy Land*, Esherick compels us to consider the Chinese Revolution not as some inevitable peasant response to poverty and oppression but as the contingent product of local, national and international events in a constantly changing milieu. *Boys' Life*, 1976-11. *Boys' Life* is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics and Scouting. [Making the Foreign Serve China](#) Anne-Marie Brady, 2003-09-08. This book provides the first detailed analysis of a crucial and distinctive element of Chinese foreign policy. Anne Marie Brady follows the development of the Chinese Communist Party's foreign affairs system since 1921, focusing on *waishi*, the external policies intended to influence and control both foreigners themselves as well as Chinese citizens' contact with and perception of outsiders. The

term also comprises China's external relations both official state to state and so called unofficial or people to people diplomacy. In effect waishi activities encompass all matters related to foreigners and foreign things not merely diplomacy. By managing the foreign presence in China and China's contacts with the outside world and by controlling the Chinese population, the author argues that waishi has proven to be one of the most effective tools in the CCP's repertoire for building and then sustaining its hold on power. Drawing for the first time on policy documents that underpin the phenomena they describe, Brady analyzes trends and developments in waishi during each chronological period. The book elucidates how the CCP's policies evolved. In the 1930s the need for a broad united front in international relations warred with the desire to control the foreign presence in China. In the 1940s and 1950s the Sino-Soviet alliance and ridding China of the traces of the semi-colonial past took precedence. In the 1960s the Sino-Soviet split led to China's claim as the center of world revolution and in the past twenty years of reform the focus has been the ongoing quest to create a modern nation state as China opens up to the outside world. The author considers waishi's deeper meaning as an overriding approach to the foreign which links state to state diplomacy with the management of the foreign presence in China. Her groundbreaking research is based on a previously unexplored genre of waishi materials, almost all classified in Chinese, extensive interviews with waishi officials and foreign participants.
