

Sebastiano Ricci

Horace Walpole (4th earl of Orford.)

Sebastiano Ricci:

Sebastiano Ricci Jeffery Daniels, 1976 **Works by Sebastiano Ricci from British Collections** Sebastiano Ricci, P. & D. Colnaghi & Co, 1978 **The Glory of Venice** Jane Martineau, Andrew Robison, Royal Academy of Arts (Great Britain), National Gallery of Art (U.S.), 1994-01-01 This text examines the whole range of the arts in Venice during the 18th century. It includes paintings, pastels and gouaches, drawings, watercolours, prints, sculpture, furniture and other decorative arts together with essays considering major aspects of the art of the period. **Tiepolo's Cleopatra** Jaynie Anderson, 2003 Professor Jaynie Anderson is an internationally recognised scholar renowned for her research and publications on the Italian masters. On this occasion she has concentrated on one painting the National Gallery of Victoria's famous *Banquet of Antony and Cleopatra* by Giambattista Tiepolo. This glorious work of art, considered a centre piece of the collection, has recently undergone restoration in preparation for the re-opening of the National Gallery on St Kilda Road in December 2003. Jaynie Anderson has collected together a previously under-examined range of Tiepolo's drawings and studies and other versions of the theme by Tiepolo and other Italian artists. She has woven them into the spectacular history of the painting, its production and its various owners prior to coming to Australia, including the Hermitage in St Petersburg, not to mention the fascinating stories of Antony and Cleopatra and their suicides which the author has researched and retells in great detail and considerable passion. The book concludes with a chapter written by the National Gallery of Victoria's conservators John Payne and Carl Willis. The Art Market in Rome in the Eighteenth Century Paolo Coen, 2018-11-05 Recent interest in the economic aspects of the history of art have taken traditional studies into new areas of enquiry. Going well beyond provenances or prices of individual objects, our understanding of the arts has been advanced by research into the demands, intermediaries and clients in the market. Eighteenth century Rome offers a privileged view of such activities given the continuity of remarkable investments by the local ruling class combined with the decisive impact of external agents largely linked to the Grand Tour. This book, the result of collaboration between international specialists, brings back into the spotlight protagonists, facts and dynamics that have remained unexplored for many years. **Theatre of Sexual Attraction and Psychological Destruction** Karl A.E. Enenkel, 2024-11-11 The book examines the myth of Hercules and Omphale, Iole, which became an important topic in the visual arts in the period 1500-1800. It offers an analysis of the iconography from the perspective of the history of emotions, classical and Neo-Latin philology, reception studies and gender studies. The early modern inventions of the myth excel in a skilful display of mixed and compound emotions such as the male character's psychopathology and of the theatrical performance of emotions by the female character. *Patrons and Painters* Francis Haskell, 1980-01-01 Fusing the social and economic history with the cultural and artistic achievements of seventeenth and eighteenth century Italy, this book presents a unique and invaluable perspective on the period. **Introduction to Controlled Vocabularies** Patricia Harpring, 2010-04-13 This detailed book is a how-to guide to building controlled vocabulary tools, cataloging and indexing.

cultural materials with terms and names from controlled vocabularies and using vocabularies in search engines and databases to enhance discovery and retrieval online Also covered are the following What are controlled vocabularies and why are they useful Which vocabularies exist for cataloging art and cultural objects How should they be integrated in a cataloging system How should they be used for indexing and for retrieval How should an institution construct a local authority file The links in a controlled vocabulary ensure that relationships are defined and maintained for both cataloging and retrieval clarifying whether a rose window and a Catherine wheel are the same thing or how pot metal glass is related to the more general term stained glass The book provides organizations and individuals with a practical tool for creating and implementing vocabularies as reference tools sources of documentation and powerful enhancements for online searching

Benedictine female monastery Santi Cosma e Damiano occupies an outstanding position in Venice The author of this study argues that from its foundation in 1481 to its dissolution in 1805 Santi Cosma e Damiano was a reform convent and that its nuns employed art and architecture as a means to actively express their specific religious concerns While on the one hand focusing on the basis of extensive archival research on the reconstruction of the history and construction of the convent this study s larger concern is with the religious reform movement its ideas concerning art and architecture and with the convent as a space for female self realization in early modern Venice
