Long Time Coming A Photographic Portrait Of America 1935 1943:

Long Time Coming Michael Lesy, 2002 Collects more than four hundred rarely seen or previously unpublished photographs taken between 1935 and 1943 by the Farm Security Administration depicting such subjects as dispossessed rural society large cities and small towns throughout the United States and Puerto Rico 10 000 first printing **Trauma and Documentary Photography of the FSA** Sara Blair, Eric Rosenberg, 2012-05-01 Coauthored by the literary scholar Sara Blair and the art historian Eric Rosenberg this volume of the Defining Moments in American Photography series offers new ways to understand the work of the famous Farm Security Administration photographers by exploring an expanded and much more variable idea of the documentary than what New Dealers proposed The coauthors follow in the line of scholars who have on the one hand looked critically at the FSA photography project and identified its goals biases contradictions and ambivalences and on the other hand discerned strikingly independent directions among its photographers But what distinguishes their work from that of others is their wrestling with a specific term often applied to the Depression era trauma If it was the case that documentary as a genre and FSA photographs as an umbrella project came to prominence during a time of trauma and in the hands of socially minded photographers was meant to address and publicize trauma the coauthors of this volume seek to understand how trauma and photography mixed and how in the volatility of that mixture the competing ideas for documentary took shape Among the key figures they study are some of the most beloved in American photography including Walker Evans Ben Shahn and Aaron Siskind Provided by publisher **The Grass Shall Grow** Mick Gidley, 2020-02-01 The Grass Shall Grow is a succinct introduction to the work and world of Helen M Post 1907 79 who took thousands of photographs of Native Americans Although Post has been largely forgotten and even in her heyday never achieved the fame of her sister Farm Security Administration photographer Marion Post Wolcott Helen Post was a talented photographer who worked on Indian reservations throughout the West and captured images that are both striking and informative Post produced the pictures for the novelist Oliver La Farge s nonfiction book As Long As the Grass Shall Grow 1940 among other publications and her output constitutes a powerful representation of Native American life at that time Mick Gidley recounts Post s career from her coming of age in the turbulent 1930s to her training in Vienna and her work for the U S Indian Service tracking the arc of her professional reputation He treats her interactions with public figures including La Farge and editor Edwin Rosskam and describes her relationships with Native Americans whether noted craftspeople such as the Sioux quilter Nellie Star Boy Menard tribal leaders such as Crow superintendent Robert Yellowtail or ordinary individuals like the people she photographed at work in the fields or laboring for federal projects at school or in the hospital cooking or dancing The images reproduced here are analyzed both for their own sake and in order to understand their connection to broader national concerns including the 1934 Indian Reorganization Act The thoroughly researched and accessibly written text represents a serious reappraisal of a neglected artist **The New Encyclopedia of Southern**

Culture Charles Reagan Wilson, 2014-02-01 This volume of *The New Encyclopedia of Southern Culture* addresses the cultural social and intellectual terrain of myth manners and historical memory in the American South Evaluating how a distinct southern identity has been created recreated and performed through memories that blur the line between fact and fiction this volume paints a broad multihued picture of the region seen through the lenses of belief and cultural practice The 95 entries here represent a substantial revision and expansion of the material on historical memory and manners in the original edition They address such matters as myths and memories surrounding the Old South and the Civil War stereotypes and traditions related to the body sexuality gender and family such as debutante balls and beauty pageants institutions and places associated with historical memory such as cemeteries monuments and museums and specific subjects and objects of myths including the Confederate flag and Graceland Together they offer a compelling portrait of the southern way of life as it has been imagined lived and contested

The Death and Life of Main Street Miles Orvell, 2012-10-01 For more than a century the term Main Street has conjured up nostalgic images of American small town life Representations exist all around us from fiction and film to the architecture of shopping malls and Disneyland All the while the nation has become increasingly diverse exposing tensions within this ideal In *The Death and Life of Main Street* Miles Orvell wrestles with the mythic allure of the small town in all its forms illustrating how Americans continue to reinscribe these images on real places in order to forge consensus about inclusion and civic identity especially in times of crisis Orvell underscores the fact that Main Street was never what it seemed it has always been much more complex than it appears as he shows in his discussions of figures like Sinclair Lewis Willa Cather Frank Capra Thornton Wilder Margaret Bourke White and Walker Evans He argues that translating the overly tidy cultural metaphor into real spaces as has been done in recent decades especially in the new urbanist planned communities of Elizabeth Plater Zyberk and Andres Duany actually diminishes the communitarian ideals at the center of this nostalgic construct Orvell investigates the way these tensions play out in a variety of cultural realms and explores the rise of literary and artistic traditions that deliberately challenge the tropes and assumptions of small town ideology and life

A Staggering Revolution John Raeburn, 2010-10-01 During the 1930s the world of photography was unsettled exciting and boisterous John Raeburn's *A Staggering Revolution* recreates the energy of the era by surveying photography's rich variety of innovation exploring the aesthetic and cultural achievements of its leading figures and mapping the paths their pictures blazed public's imagination While other studies of thirties photography have concentrated on the documentary work of the Farm Security Administration FSA no previous book has considered it alongside so many of the decade's other important photographic projects *A Staggering Revolution* includes individual chapters on Edward Steichen's celebrity portraiture Berenice Abbott's Changing New York project the Photo League's ethnography of Harlem and Edward Weston's western landscapes made under the auspices of the first Guggenheim Fellowship awarded to a photographer It also examines Margaret Bourke White's industrial and documentary pictures the collective undertakings by California's Group f

Swensen, 2015-10 As time passes personal memories of the Great Depression die with those who lived through the desperate 1930s In the absence of firsthand knowledge John Steinbeck s *The Grapes of Wrath* and the photographs produced for the New Deal s Farm Security Administration FSA now provide most of the images that come to mind when we think of the 1930s That novel and those photographs as this book shows share a history Fully exploring this complex connection for the first time *Picturing Migrants* offers new insight into Steinbeck s novel and the FSA s photography and into the circumstances that have made them enduring icons of the Depression Looking at the work of Dorothea Lange Horace Bristol Arthur Rothstein and Russell Lee it is easy to imagine that these images came straight out of the pages of *The Grapes of Wrath* This should be no surprise James R Swensen tells us because Steinbeck explicitly turned to photographs of the period to create his visceral narrative of hope and loss among Okie migrants in search of a better life in California When the novel became an instant best seller upon its release in April 1939 some dismissed its imagery as pure fantasy Lee knew better and traveled to Oklahoma for proof The documentary pictures he produced are nothing short of a photographic illustration of the hard lives and desperate reality that Steinbeck so vividly portrayed In *Picturing Migrants* Swensen sets these lesser known images alongside the more familiar work of Lange and others giving us a clearer understanding of the FSA s work to publicize the

plight of the migrant in the wake of the novel and John Ford's award winning film adaptation *A New Perspective on an Era* whose hardships and lessons resonate to this day *Picturing Migrants* lets us see as never before how a novel and a series of documentary photographs have kept the Great Depression unforgettably real for generation after generation *Hard Times* Richard Striner, 2018-08-15 *Hard Times* presents a comprehensive account of economic depressions in America from colonial times to the great recession that began in 2008 Written in crisp prose for a general audience the book synthesizes a narrative account presenting the known facts about how particular depressions started the effects upon people in different walks of life the policy debates about what if anything to do in order to ameliorate the situation and how these depressions ended with analytical commentary on the economic patterns underlying and transcending depressions and the debates among economists and policymakers in regard to their causes While these economic downturns have created suffering and hardship Striner also conveys how Americans have always endured and rebounded from hard times *Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts, Volume II* James Flood, Shirley Brice Heath, Diane Lapp, 2015-04-22 *The Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts Volume II* brings together state of the art research and practice on the evolving view of literacy as encompassing not only reading writing speaking and listening but also the multiple ways through which learners gain access to knowledge and skills It forefronts as central to literacy education the visual communicative and performative arts and the extent to which all of the technologies that have vastly expanded the meanings and uses of literacy originate and evolve through the skills and interests of the young A project of the International Reading Association published and distributed by Routledge Taylor Francis Visit <http://www.reading.org> for more information about International Reading Association books membership and other services *World War II and the Postwar Years in America* William H.
