Here is the enthralling tale of Lu Wong Di, a Chinese who spies for Chinese emperors. He murders a Chinese gate guard and is cursed by a witch to never die until he learns the value of a single human life. The curse sends him on an adventurous journey covering six centuries of Chinese history. In the pursuit of his own salvation, he falls in love, marries, and has children, only to watch them age and die while he remains a young man. He questions man's search for immortality and searches for a cure to the witch's curse. A Buddhist monk leads him to a vampire who debates him on the question of the value of human beings and tells him to seek out the tomb of the first Emperor of China for the answers he seeks. He and his partner Xiancia encounter bandits, pirates, typhoons, floods, disease, a dragon, a demon, and ghosts in their quest for the answer to find the value of a single human life. They uncover ancient secrets of the Book of Three Curses and the Three Mirrors of Fate and question their own values as they travel across the vast deserts and mountains of Asia.

Animated Encounters Daisy Yan Du, 2019-02-28

China's role in the history of world animation has been trivialized or largely forgotten. In *Animated Encounters*, Daisy Yan Du addresses this omission in her study of Chinese animation and its engagement with international forces during its formative period, the 1940s-1970s. She introduces readers to transnational movements in early Chinese animation, tracing the involvement of Japanese, Soviet, American, Taiwanese, and China's ethnic minorities at socio-historical or representational levels in animated filmmaking in China. Du argues that Chinese animation was international almost from its inception and that such border-crossing exchanges helped make it Chinese and subsequently transform the history of world animation. She highlights animated encounters and entanglements to provide an alternative to current studies of the subject, characterized by a preoccupation with essentialist ideas of Chineseness and further questions the long-held belief that the forty-year period in question was a time of cultural isolationism for China due to constant wars and revolutions. China's socialist era, known for the pervasiveness of its political propaganda and suppression of the arts, unexpectedly witnessed a golden age of animation. Socialist collectivism reinforced by totalitarian politics and centralized state control allowed Chinese animation to prosper and flourish artistically. In addition,

the double marginality of animation a minor art form for children coupled with its disarming qualities and intrinsic malleability and mobility granted animators and producers the double power to play with politics and transgress ideological and geographical borders while surviving censorship both at home and abroad A captivating and enlightening history Animated Encounters will attract scholars and students of world film and animation studies children s culture and modern Chinese history
