Look At The Environment:

A Look at the Environment Margaret Sanford Pursell, 1976 Text and photographs explain the importance of a balanced environment the disturbance to nature caused by cities and steps we can take to improve our surroundings **Teaching Climate Change and Sustainability in the Primary Curriculum** Karin Doull, Susan Ogier, 2023-11-18 The first aim of the DfE's 2022 Strategy for Sustainability and Climate Change is to prepare all young people for a world impacted by climate change through learning and practical experience This practical text for new teachers empowers them to develop their knowledge and understanding of climate change and sustainability It supports them to develop confidence in discussing difficult themes and to create safe learning spaces that allow children to articulate concerns The book provides a structure for learning and teaching about climate change and sustainability across the primary curriculum All chapters are linked to relevant and authentic research and include suggestions for practical activities *Natural environment white paper* Great Britain: Parliament: House of Commons: Environment, Food and Rural Affairs Committee, 2012-07-17 The Environment Food and Rural Affairs Committee express concern that more than one year on from publication of the natural environment white paper The Natural Choice securing the value of nature Cm 8082 ISBN 9780101808224 Defra has failed to set out clear plans to ensure that government decision making fully values the services nature provides All government policy should fully value natural capital Government Ministers must also publish an action plan with a timetable to deliver each of the White Paper's 92 commitments give planners and developers guidance on how the National Planning Policy Framework can be used to protect Nature Improvement Areas fully assess the benefits and costs of environmental regulation to prevent a perception that environmental protection imposes a drag on the UK economy publish the Government's response to advice from the Natural Capital Committee The report also concludes that biodiversity offsetting can deliver positive impacts on the natural environment the target to end all peat use by 2030 shows a lamentable lack of ambition and a review of progress must be brought forward to 2014 Defra must set a target to increase public engagement with nature since local authorities NGOs and charities can only secure funding for environmental projects when they can demonstrate measurable success the Department for Health and the Department for Education must define measurements which demonstrate how greater public engagement with nature delivers gains in public health and educational attainment the entire coastal path around England should be in place within 10 years Fiscal Year 1993 Department of Energy Authorization (environment, Safety, and Health Programs) United States. Obesity Treatment David B. Allison, F. Xavier Pi-Sunyer, 2012-12-06

Treatment outcome has certainly improved since Stunkard and McLaren Hume 1959 reviewed the literature and found that less than 25% of obese patients lost 20 pounds or more and less than 5% lost 40 pounds or more However one of the few points on which almost all obesity researchers agree is that to date our results are quite modest and we are generally unsuccessful in promoting effective weight maintenance among obese persons As the title of a more recent article Improving long term weight loss Pushing the limits of treatment Brownell Jeffrey 1987 emphasis added suggests many believe that we have pushed our current treatment paradigms to the limit It was with this background in mind that we organized the meeting from which these proceedings issue The purpose of the three day international meeting was to evaluate the current knowledge base and conceptual paradigms of obesity treatment and to suggest directions for future research and clinical practice Rather than simply for research reporting the meeting was primarily for research generation All speakers were established scientists in the field who were asked to summarize our state of knowledge in a given area rather than present the results of their latest research Great efforts were taken to ensure that panel discussions occupied a central portion of the conference and that the questions What else do we need to know and How do we find it out were consistently addressed

Environmental Theater Richard Schechner, 1994

There is an actual living relationship between the spaces of the body and the spaces the body moves through human living

tissue does not abruptly stop at the skin exercises with space are built on the assumption that human beings and space are both alive Here are the exercises which began as radical departures from standard actor training etiquette and which stand now as classic means through which the performer discovers his or her true power of transformation Available for the first time in fifteen years the new expanded edition of Environmental Theater offers a new generation of theater artists the gospel according to Richard Schechner the guru whose principles and influence have survived a quarter century of reaction and debate

May,2018-05-31

Constitutions can play a central role in responding to environmental challenges such as pollution biodiversity loss lack of drinking water and climate change The vast majority of people on earth live under constitutional systems that protect the environment or recognize environmental rights Such environmental constitutionalism however falls short without effective implementation by policymakers advocates and jurists Implementing Environmental Constitutionalism Current Global Challenges explains and explores this implementation gap This collection is both broad and deep While some of the essays analyze crosscutting themes such as climate change and the need for rule of law that affect the implementation of environmental constitutionalism throughout the world others delve deeply into geographically contextual experiences for lessons about how constitutional environmental law might be more effectively implemented This volume informs global conversations about whether and how environmental constitutionalism can be made more effective to protect the natural environment [Environmental Handbook for Building and Civil Engineering Projects](#) Roger Venables,1994 This handbook
