multidimensional response to this question While photographs are central to our memory of modern historical events they often inhabit an ambivalent intellectual space What separates the sincere desire to understand from voyeuristic curiosity Comprehending atrocity photographs requires viewers to place themselves in the very positions of the perpetrators who took the images When we engage with these photographs do we risk replicating the original violence In this tightly organized book scholars of history photography language gender photojournalism and pedagogy examine the images of the de atrocity along with other difficult images giving historical political and ethical depth to the acts of looking and interpreting With a foreword by Edward Anders who narrowly escaped the December 1941 shooting Framing the Holocaust represents an original approach to an iconic series of Holocaust photographs This book will contribute to compelling debates in the emerging field of visual history including the challenges and responsibilities of using photographs to teach about atrocity
