Objects of Metaphor Samuel Guttenplan,2005-05-19

Objects of Metaphor contains a philosophical account of the phenomenon of metaphor radically different from those currently on offer Yet for all that it is different the underlying rationale of the account is genuinely

ecumenical If one adopts its perspective one should be able to see how substantially correct many other accounts are whilst at the same time seeing why they are not in the end completely correct The book opens with a transparent classification of types of account and concludes with detailed discussions of three important recent contributions to the subject The origins of the account lie in our conception of predication Unreflectively thought of as a task accomplished by words it is argued that predication or something very much like it can also be accomplished by objects So understood predication becomes the genuinely equal partner of reference a function no one doubts can be as easily accomplished by objects as by words and liberated in this way predication becomes one central element in the account of metaphor The other element is the move from language to objects which adapting an idea of Quine's is thought of as semantic descent Whilst Samuel Guttenplan's account allows us to see other accounts in a new light its main importance lies in what it tells us about metaphor itself Powerful and flexible enough to cope with the syntactic complexity typical of genuine metaphor it offers novel conceptions of both the relationship between simile and metaphor and the notion of dead metaphor Additionally it allows us to see why metaphor is a robust theoretic kind related to certain other tropes but not to be confused with tropes generally or with the figurative and non literal Metaphor has often been thought merely an ornament to language Whilst acknowledging the truth in this thought Guttenplan shows the fundamental importance of metaphor to language Rather than being a specialist topic in philosophy and related disciplines he thus suggests that the study of metaphor is central to the study of language

What Is Asian American Biblical Hermeneutics? Reading the New Testament Tat-siong Benny Liew, 2007-12-31 Liew is one of the most articulate creative and sophisticated biblical scholars in North America What Is Asian American Biblical Hermeneutics has not caused me to question that judgment A set of provocative questions arguments issues and problems the book opens a window onto what it means for human beings to try to negotiate a rather complex contemporary world with evidence of increasingly blurred but also thick ideological and social cultural boundaries and overlapping but also recognizable and isolable identity formations That Liew does this by using and bringing together the category Asian American and the phenomenon of the reading of the Bible as sharp analytical wedge is all the more fascinating This impressive book represents the collapse of the center and a major shift in orientation to the peripheries It is a major achievement and a major challenge Vincent L Wimbush Claremont Graduate University A groundbreaking achievement Dr Liew uses his amazing breadth of scholarship to challenge Eurocentrism in biblical studies and secularism in Asian American studies at once Like Gender Trouble The Future of an Illusion and other original work this book will become a classic in Asian American biblical hermeneutics setting the terms of debate for years to come After Liew reading the New Testament will never be the same again Kwok Pui lan Episcopal Divinity School Cambridge Massachusetts This is the first single authored book on Asian American biblical interpretation It covers all of the major genres within the New Testament and broadens biblical hermeneutics to cover not only the biblical texts but also Asian American literature and current films and events like genome

research and September 11 Despite its range the book is organized around three foci methodology the distinguishing characteristics or sensibilities of Asian American biblical hermeneutics community the politics of inclusion and exclusion and agency The work intentionally affirms Asian America as a panethnic coalition while acknowledging the differences within it In other words it attempts to balance Asian American panethnicity and heterogeneity or coalition building and identity politics

Operating Manual for Enlightenment Lincoln Stoller, 2024-11-01 This book is not offering enlightenment it's describing it The enlightened mind unites intellect and emotion despite their separation being built into the structure of our brains This split appears in the mythic division between our lower and higher natures and the separation of mind and body Intellect and emotion function in concert As color and shape are to vision one complements the other When fully integrated they cannot be taken apart The topics in the book's first half lean toward the intellectual The second half looks at the division from the emotional side What we are separating with one hand we are putting together with the other Struggle We naturally consider our problems as different from ourselves We see them in our environment and rely on our skills and insights to resolve them Our intellectual solutions address one aspect of these problems while our emotions address another Are these problems to be solved or processes to be understood What should we do if our problems are inside us Mind Your state determines your readiness arousal and self reflection Your state of mind orients your thinking how you can feel about yourself and who you're able to be Equally important are thoughts you're not likely to have or cannot have at all This book is about the states of mind that support focus awareness thoughts and feelings It's not a guide to solving problems it's an explanation of how you see State With our state of mind we gather our thoughts and focus our attention Focus without a state is like a telescope with no one to look through it In order to focus first take full responsibility for all you think and feel The properties of your state determine what you're capable of One state of mind is not enough because you cannot understand the world from one point of view Your future is determined by your range
