Buddhism by literati has helped earn the T ang its title of the golden age of Chinese Buddhism In contrast the Sung is often seen as an age in which the literati distanced themselves from Buddhism This study of Sung devotional texts shows however that many literati participated in intra Buddhist debates Others were drawn to Buddhism because of its power which found expression and reinforcement in its ties with the state For some monasteries were extravagant houses of worship that reflected the corruption of the age for others the sacrifice and industry demanded by such projects were exemplars worthy of emulation Finally Buddhist temples could evoke highly personal feelings of filial piety and nostalgia This book demonstrates that representations of Buddhism by lay people underwent a major change during the T ang Sung transition These changes built on basic transformations within the Buddhist and classicist traditions and sometimes resulted in the use of Buddhism and Buddhist temples as frames of reference to evaluate aspects of lay society Buddhism far from being pushed to the margins of Chinese culture became even more a part of everyday elite Chinese life Biology and Biological Technology

,1986 **The Burden of Female Talent** Ronald Egan,2020-10-26 Widely considered the preeminent Chinese woman poet

Li Qingzhao 1084-1150s occupies a crucial place in China's literary and cultural history. She stands out as the great exception to the rule that the first rank poets in premodern China were male. But at what price to our understanding of her as a writer does this distinction come? *The Burden of Female Talent* challenges conventional modes of thinking about Li Qingzhao as a devoted but often lonely wife and later a forlorn widow. By examining manipulations of her image by the critical tradition in later imperial times and into the twentieth century, Ronald C. Egan brings to light the ways in which critics sought to accommodate her to cultural norms, molding her talent to make it compatible with ideals of womanly conduct and identity. Contested images of Li, including a heated controversy concerning her remarriage and its implications for her devotion to her first husband, reveal the difficulty literary culture has had in coping with this woman of extraordinary conduct and ability. The study ends with a reappraisal of Li's poetry freed from the autobiographical and reductive readings that were traditionally imposed on it and which remain standard even today. Transcultural Lyricism Jane Qian Liu, 2017-01-05 In *Transcultural Lyricism: Translation, Intertextuality, and the Rise of Emotion in Modern Chinese Love Fiction, 1899-1925* Jane Qian Liu examines the profound transformation of emotional expression in Chinese fiction between the years 1899 and 1925. While modern Chinese literature is known to have absorbed narrative modes of Western literatures, it also learned radically new ways to convey emotions. Drawn from an interdisciplinary mixture of literary, cultural, and translation studies, Jane Qian Liu brings fresh insights into the study of intercultural literary interpretation and influence. She convincingly proves that Chinese writer-translators in early twentieth-century were able to find new channels and modes to express emotional content through new combinations of traditional Chinese and Western techniques. Chinese Literature, 1958 West-East, Inseparable Twain Nikolai Iosifovich Konrad, 1967 **Arts & Humanities Citation Index**, 1987 A multidisciplinary index covering the journal literature of the arts and humanities. It fully covers 1,144 of the world's leading arts and humanities journals and indexes individually selected relevant items from over 6,800 major science and social science journals.
