Mulcahy, 2016-11-21 This book places the study of public support for the arts and culture within the prism of public policy making It is explicitly comparative in casting cultural policy within a broad sociopolitical and historical framework Given the complexity of national communities there has been an absence of comparative analyses that would explain the wide variability in modes of cultural policy as reflections of public cultures and cultural identity The discussion is internationally focused and interdisciplinary Mulcahy contextualizes a wide variety of cultural policies and their relation to politics and identity by asking a basic question who gets their heritage valorized and by whom is this done The fundamental assumption is that culture is at the heart of public policy as it defines national identity and personal value

The new handbook by Peters and Pierre provides an invaluable addition to the literature. It offers new scholars and practitioners a means to navigate many of the complex theoretical and practical issues in contemporary policy analysis. Mark Considine, University of Melbourne. The public policies of governments affect the lives and livelihoods of citizens every day in every country around the world. This handbook provides a comprehensive review and guide to the study, theory and practice of public policy today. Section One: Making Policy introduces the policy making process, the means by which public policies are formulated, adopted and implemented, and serves to review the many competing conceptualizations within the field. Section Two: Substantive Policy Areas focuses on a number of substantive policy areas to consider both diversity and commonalities across different sectoral policy areas. Section Three: Evaluating Public Policy addresses issues of policy analysis more directly and assesses successes and failures in public policy in an attempt to answer the question: what is good policy? The concluding chapter considers the different disciplinary contributions to the research and study of public policy, both retrospectively and prospectively. Drawing contributions from leading academics and policy analysts from around the world, the handbook illustrates the changing role of governments vis-à-vis the public and private sector and the different policy actors: national and international governmental and non-governmental, involved in the policy making process. It will be an essential companion for all advanced undergraduates, graduates, academics and practitioners across public policy and public administration, public management, government and political science. Regulating Place Eran Ben-Joseph, Terry S. Szold, 2005-07-08. Tracing how codes arose when they did and how they were adapted over time, the authors examine the increasing influence of regulatory codes over urban design and planning in the past century. International Journal of Arts Management, 2005. **Narrative, Identity, and the Map of Cultural Policy** Constance DeVereaux, Martin Griffin, 2016-04-29. The story of arts and cultural policy in the twenty-first century is inherently of global concern, no matter how local it seems. At the same time, questions of identity have in many ways become more challenging than before. **Narrative, Identity, and the Map of Cultural Policy: Once Upon a Time in a Globalized World** explores how and why stories and identities sometimes merge and often clash in an arena in which culture and policy may not be able to resolve every difficulty. DeVereaux and Griffin argue that the role of narrative is key to understanding these issues. They offer a wide-ranging history and justification for narrative frameworks as an approach to cultural policy and open up a wider field of discussion about the ways in which cultural politics and cultural identity are being deployed and interpreted in the present, with deep roots in the past. This timely book will be of great interest not just to students of narrative and students of arts and cultural policy, but also to administrators, policy theorists and cultural management practitioners.
