Marlborough A Survey Panegyrics Satires And Biographical Writings 1688 1788:

Marlborough: a Survey Robert Dewey Horn,1975 Armies and Political Change in Britain, 1660-1750 Hannah Smith,2021 Armies and Political Change in Britain 1660 1750 explores significant continuities and developments in the armed forces across the reigns of seven monarchs using a vivid and extensive array of archival literary and artistic material to present a new perspective on the political and military history of Britain Poetry and the Creation of a Whig Literary Culture 1681-1714 Abigail Williams,2005-03-24 Poetry and the Creation of a Whig Literary Culture offers a new perspective on early eighteenth century poetry and literary culture arguing that long neglected Whig poets such as Joseph Addison John Dennis Thomas Tickell and Richard Blackmore were more popular and successful in their own time than they have been since These and other Whig writers produced elevated poetry celebrating the political and military achievements of William III s Britain and were committed to an ambitious project to create a distinctively Whiggish English literary culture after the Revolution of 1688 Far from being the penniless hacks and dunces satirized by John Dryden and the Scriblerians they were supported by the patronage of the wealthy Whig aristocracy and their works promoted as a new English literature to rival that of classical Greece and Rome Poetry and the Creation of a Whig Literary Culture maps for the first time the evolution of an alternative early eighteenth century poetic tradition which is central to our understanding of the literary history of the period

A Political Biography of Delarivier Manley Rachel Carnell,2015-09-30 A Tory pamphleteer playwright and satirical historian Delarivier Manley was regarded by her contemporaries Jonathan Swift and Robert Harley as a key member of the Tory propaganda team This biography offers details about her life including evidence about three illegitimate children by John Tilly Governor of Fleet Prison **Literature and Party Politics at the Accession of Queen Anne** Joseph Hone,2017-12-01 Literature and Party Politics at the Accession of Queen Anne is the first detailed study of the final Stuart succession crisis It demonstrates for the first time the centrality of debates about royal succession to the literature and political culture of the early eighteenth century Using previously neglected misunderstood and newly discovered material Joseph Hone shows that arguments about Anne s right to the throne were crucial to the construction of nascent party political identities Literary texts were the principal vehicle through which contemporaries debated the new queen s legitimacy This book sheds fresh light on canonical authors such as Daniel Defoe Alexander Pope and Joseph Addison by setting their writing alongside the work of lesser known but nonetheless important figures such as John Tutchin William Pittis Nahum Tate John Dennis Henry Sacheverell Charles Leslie and other anonymous and pseudonymous authors Through close historical analysis it shows how this new generation of poets preachers and pamphleteers transformed older models of succession writing by Milton Dryden and others and imbued conventional genres such as panegyric and satire with their own distinctive poetics By immersing the major authors in their milieu and reconstructing the political and material contexts in which those authors wrote Literature and Party Politics demonstrates the vitality of debates about royal succession in early

eighteenth century culture *Early Modern Nationalism and Milton's England* David Loewenstein, Paul Stevens, 2008-11-29

Although the poet John Milton was a politically active citizen and polemicist during the English Revolution little has been written on Milton's concept of nationalism The first book to examine major aspects of Milton's nationalism in its full complexity and diversity *Early Modern Nationalism and Milton's England* features fifteen essays by leading international scholars who illuminate the significance of the nation as a powerful imaginative construct in his writings Informed by a range of critical methods the essays examine the diverse sometimes conflicting and strained expressions of nationhood and national identity in Milton's writings to address the literary ethnic and civic dimensions of his nationalism These essays enrich our understanding of the imaginative achievements religious polemics and political tensions of Milton's poetry and prose as well as the impact of his writings in the later seventeenth and early eighteenth centuries *Early Modern Nationalism and Milton's England* also illuminates the formation of early modern nationalism as well as the complexities of seventeenth century English politics and religion

Stuart Succession Literature Paulina Kewes, Andrew McRae, 2019 Moments of royal succession which punctuate the Stuart era 1603-1714 occasioned outpourings of literature Writers including most of the major figures of the seventeenth century from Jonson Daniel and Donne to Marvell Dryden and Behn seized upon these occasions to mark the transition of power to reflect upon the political structures and values of their nation and to present themselves as authors worthy of patronage and recognition This volume of essays explores this important category of early modern writing It contends that succession literature warrants attention as a distinct category appreciated by contemporaries acknowledged by a number of scholars but never investigated in a coherent and methodical manner it helped to shape political reputations and values across the period Benefitting from the unique database of such writing generated by the AHRC funded Stuart Successions Project the volume brings together a distinguished group of authors to address a subject which is of wide and growing interest to students both of history and of literature It illuminates the relation between literature and politics in this pivotal century of English political and cultural history Interdisciplinary in scope the volume will be indispensable to scholars of early modern British literature and history as well as undergraduates and postgraduates in both fields

Imaging the Other Marie A. Conn, Thérèse McGuire, 2009-12-11 *Imaging the Other* Essays on Diversity emerged from Nancy Porter's essay in Conn and McGuire's second collection of essays *Not Etched in Stone* Essays on Ritual Memory Soul and Society Porter explored the creation of the other as the basis for conflict among humans In the present collection each author considered the general theme in the context of her or his own background interests and research At a time when much of the world is in turmoil these essays speak of the other how we create categories the consequences of such categories and ways of reimagining those who for whatever reason are different from us Each essay in this collection stands on its own and grows out of the author's unique discipline and experience however these essays intersect with each other in many intriguing ways

The Orders of Knighthood and the Formation of the British Honours System, 1660-1760 Antti Matikkala, 2008 Sheds considerable new light on the nature development and functions of the orders in a key phase of their history and goes a long way to explaining how such archaic institutions could flourish in a culture that is commonly thought anti traditional and especially hostile to the middle ages Professor JONATHAN BOULTON University of Notre Dame This is the first comprehensive study to set the British orders of knighthood properly into the context of the honours system by analysing their political social and cultural functions from the Restoration of the monarchy to the end of George II s reign It examines the revival of the Order of the Garter and the proposals to establish the Orders of the Royal Oak and the Esquires of the Martyred King at the Restoration the foundation 1687 and the revival 1703 4 of the Order of the Thistle as well as the foundation of the Order of the Bath 1725 It establishes just how central a part the orders played in the British high political life and its comprehensive and multidimensional approach carefully contrasts the idealistic discourse of virtue and honour to the real workings of the honours system it also makes the case for the Chivalric Enlightenment The orders over the water the Garter and the Thistle conferred by the Jacobite claimants are discussed for the first time in the context of the established British honours system Overall the comparison between the socially very restricted British and the increasingly meritocratic Continental orders highlights the isolation of the British honours system from the European tendencies
