

yers in the aftermath of the Black Plague and a leap in litigious activity. But the fashion peaked in the sixteenth and seventeenth centuries, when the interest turned up everywhere: in plays, in verse, in sermons, and in other forms of prose. A nervously mobile society with very complex land laws, England became a school for litigants and an Eden for courts and attorneys—phenomena nicely represented in the poetry and drama of the age, in satiric assaults on ignorant or corrupt lawyers, charlatans, greedy practitioners, and pompous phonies. The Restoration brought renewed attacks on aspects of the legal profession, but it also brought the intellectual and social decline of the Inns of Court, once the training ground for England's best legal minds.

All this, none of it new, Tucker tells us, but he tells it succinctly, often citing new chapter and verse, and with fresh touches here and there. I note, however, that as promotion for his book calls it a "pioneering literary and socio-historical study," we may rightly ask, what can the literary depiction of lawyers tell us that we cannot find in the ordinary stream of historical documentation? Tucker assures us that the pertinent, basic social phenomena, such as the incidence of dishonest attorneys, do not change over his span of four hundred years. Then why, in literature's representation of lawyers, the shifts in mood, emphasis, and treatment—especially in treatment? It is precisely here, in treatment more than in bare theme, that literature offers history to historians and to literary scholars. The love poem built on legal conceits—so modish during the 1590s and early Jacobean years—is not a dull exercise, as Tucker insists (unless we impose pure literary criteria); it also has much to say about readers, about milieus, about fashion, about the spread of urban attitudes, and about the ways in which the language of verse reaches out for what is vital in consciousness and in contemporary experience.

Marlowe's "Dr. Faustus" and "Tamburlaine" Johannes H. Birringer,1984 Within the context of Elizabethan critical theories on tragic drama and more generally on form and content style rhetoric and moral meaning in theatrical performance Marlowe's major plays raise important questions about the possibility of innovation in poetics and dramaturgy on a stage which was hardly prepared to sustain the subversive self display of the new Marlovian hero After discussing two recent approaches v Balthasar Derrida to the definition of orthodoxy and theology in drama Birringer examines the forms of ethical challenge inscribed within the Tamburlaine plays and Dr Faustus Detailed analyses of the performance dynamics and dramatic styles in Marlowe's plays also help to clarify their particular status in relation to contemporary theatre practice and especially Shakespearean drama Spectacles of Strangeness Emily C. Bartels,2015-08-10 Selected by Choice magazine as an Outstanding Academic Title Bartels focuses on Marlowe's preoccupation with strangers and strange lands and his use and subversion of Elizabethan stereotypes Setting Marlovian drama in the context of England's nascent imperialism Bartels probes the significance of the alien as the vital presence on the Renaissance stage and within Renaissance society

Edward II and a Literature of Same-Sex Love Michael G. Cornelius,2016-10-21 The narrative retellings of the life reign and death of the English King Edward II reigned 1307 1327 present a unique opportunity for scholars of sexuality in the early modern era This is because the works of authors like Christopher Marlowe Michael Drayton Sir Francis Hubert Elizabeth Cary and Richard Niccols were all inspired by the public cultural memory fashioned from Edward's same sex love affair with Piers Gaveston As such each of them presents a particular representation of and a specific discourse about male male sexual relations in the Renaissance In other words what these works present is a concentrated body of literature about same sex love in the early modern era works that openly and frankly explore the possible origins of the love the reasons and causes for it works that explore the ramifications of male male romantic relationships works that explore the sexual politics and sociocultural dynamics of same sex romantic partnerships and works that describe and denote same sex love from an English Renaissance perspective This study looks at each of the major Renaissance texts about Edward II and examines the means through which each text understands and analyzes the nature of male male same sex love From Marlowe's crafting of a lover identity for Edward to Drayton's obsession with Marlowe's version of gay history from Hubert's Augustinian construction of Edward's nature to Cary's identification with the fallen king to Niccols inspired exemplum what each of these works demonstrates is that the love that dare not speak its name would not be silenced at least not in the case of Edward and Gaveston When one sees the name Edward II one also sees his same sex loves The correlation has become ingrained into our public recall of history Thus as far as the world is concerned Edward II was and ever will be the gay king *The Forme of Faustus Fortunes* Roy Eriksen,1987 *Shakespeare Survey* Stanley Wells,2002-11-28 The first fifty volumes of this yearbook of Shakespeare studies are being reissued in paperback **English and American studies in German** ,1983
