Rough Guides

Marrakesh The Secret Of Its Courtyard Houses:

Marrakesh Quentin Wilbaux,1999 Marrakesh Quentin Wilbaux,2008-10-16 There are two cities in Marrakesh the first the capital is geometrically and secretly laid out **Marrakesh** , Sophia ,2005 *Captured Landscape* Kate Baker,2018-03-20 The enclosed garden or hortus conclusus is a place where architecture and landscape come together It has a long and varied history ranging from the early paradise garden and cloister the botanic garden and giardini segreto the kitchen garden and as a stage for social display The enclosed garden has continued to develop into its many modern forms the city retreat the redemptive garden the deconstructed building As awareness of climate change becomes increasingly important the enclosed garden which can mediate so effectively between interior and exterior provides opportunities for sustainable design and closer contact with the natural landscape By its nature it is ambiguous Is it an outdoor room or captured landscape is it architecture or garden Kate Baker discusses the continuing relevance of the typology of the enclosed garden to contemporary architects by exploring influential historical examples and the concepts they generate alongside some of the best of contemporary designs brought to life with vivid photography and detailed drawings taken primarily from Britain the Mediterranean Japan and North and South America She argues that understanding the potential of the enclosed garden requires us to think of it as both a design and an experience *Captured Landscape* provides a broad range of information and design possibilities for students of architectural and landscape design practising architects landscape designers and horticulturalists and will also appeal to a wider audience of all those who are interested in garden design This second edition of *Captured Landscape* is enriched with new case studies throughout the book The scope has now been broadened to include an entirely new chapter concerning the urban condition with detailed discussions on issues of ecology sustainability economy of means well being and the social pressures of contemporary city life **The Villas and Riads of Morocco** Corinne Verner,2005-07-19 The austere facades that line the labyrinthine streets of Morocco s ancient walled neighborhoods reveal almost nothing of the luminous residences within *The Villas and Riads of Morocco* lifts the veil on these secret paradises from fantastic palaces in Fez and Essaouira to middle class riads in Marrakech to converted casbahs in the southern oases With more than 200 stunning photographs this beautiful volume takes us behind the scenes to explore a side of Morocco that is largely hidden to outsiders The book showcases exquisite interiors that combine rich materials such as cedar and marble luxurious carpets and textiles filigree carving and other handiwork and vibrant color palettes Also featured is the remarkable mosaicwork found especially in the central courtyard gardens and patios that form the heart of the Moroccan house Accompanying these sumptuous views is a vivid history of the country s residential architecture and its fascinating mix of Andalusian Arab and Saharan influences *The Villas and Riads of Morocco* not only offers a feast for the eyes but also illuminates an entire culture *Best of Marrakesh* ,2006 *Bibliography of Art and Architecture in the Islamic World (2 vols.)* Susan Sinclair,2012-04-03 Following the tradition and style of the acclaimed *Index Islamicus* the

editors have created this new Bibliography of Art and Architecture in the Islamic World The editors have surveyed and annotated a wide range of books and articles from collected volumes and journals published in all European languages except Turkish between 1906 and 2011 This comprehensive bibliography is an indispensable tool for everyone involved in the study of material culture in Muslim societies
