Marriages and Families David H. L. Olson, John D. DeFraen, Linda Skogrand, 2021 Three distinctive themes have guided our efforts in writing this book and they are woven throughout the text The first is intimacy and our focus is on how to develop and maintain close relationships Most people seek connectedness and want to be involved in intimate relationships the most intimate being marriage and family This book is full of ideas principles and suggestions for building and keeping intimate relationships in your life As a result we hope this will be a book that you will want to keep and refer to throughout your life The second key theme is marital and family strengths The family strengths perspective is based on the premise that if you approach relationships from a problem oriented perspective you will find problems If you look for strengths you will find strengths Growing numbers of family educators and family therapists are using this approach today helping families recognize their own strengths and use them as a foundation for positive growth In Chapter 1 we identify a number of strengths that have been found to be present in healthy marriages and families all over the world Throughout the book we show how these strengths help families provide healthy and nurturing settings that promote the growth and well being of individual family members better enabling them to face the challenges and solve the problems they encounter

Handbook of Marriage and the Family Marvin B. Sussman, Suzanne K. Steinmetz, Gary W. Peterson, 2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires

protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p
