Marriage and Family H. Elizabeth Peters, Claire M. Kamp Dush, 2009-07-16 Family life has been radically transformed over the past three decades Half of all households are unmarried while only a quarter of all married households have kids A third of the nation's births are to unwed mothers and a third of America's married men earn less than their wives With half of all women cohabitating before they turn thirty and gay and lesbian couples settling down with increasing visibility there couldn't be a better time for a book that tracks new conceptions of marriage and family as they are being formed The editors of this volume explore the motivation to marry and the role of matrimony in a diverse group of men and women They compare empirical data from several emerging family types single co parent gay and lesbian among others to studies of traditional nuclear families and they consider the effect of public policy and recent economic developments on the practice of marriage and the stabilization or destabilization of family Approaching this topic from a variety of perspectives including historical cross cultural gendered demographic socio biological and social psychological viewpoints the editors highlight the complexity of the modern American family and the growing indeterminacy of its boundaries Refusing to adhere to any one position the editors provide an unbiased account of contemporary marriage and family Marriage and Family 2000/2001, 2000 Family Transformed Steven M. Tipton, John Witte Jr., 2005-11-18 Statistics on the American family are sobering From 1975 to 2000 one third of all children were born to single mothers and one half of all marriages ended in divorce While children from broken homes are two to three times more likely to develop behavioral and learning difficulties two parent families are not immune to problems The cost of raising children has increased dramatically and married couples with children are now twice as likely as childless couples to file for bankruptcy Clearly the American family is in trouble But how this trouble started and what should be done about it remain hotly contested In a multifaceted analysis of the current state of a complex institution Family Transformed brings together outstanding scholars from the fields of anthropology demography ethics history law philosophy primatology psychology sociology and theology Demonstrating that the family is both distinctive in its own right and deeply interwoven with other institutions the authors examine the roles of education work leisure consumption legal regulation public administration and biology in shaping the ways we court and marry bear and raise children and make and break family bonds International in approach this wide ranging volume situates current American debates over sex marriage and family within a global framework Weighing mounting social science evidence that supports a continued need for the nuclear family while assessing the challenges posed by new advocacy for same sex marriage and delegalized coupling the authors argue that only by reintegrating the family into a just moral order of the larger community and society can we genuinely strengthen it This means not simply upholding traditional family values but truly grasping the family's growing diversity sustaining its coherence and protecting its fragility for our own sake and for the common good of society Handbook of Marriage and the Family Gary W.
